(accidentally deleted first review so had to re-post:)

Just the Two of Us continues the romance between Richard and Rebecca; A couple that's fun, sexy and real. They have a great dynamic and instant chemistry from their first meeting in "End of Summer". I enjoyed seeing how their relationship progressed and the interaction between them. They have definitely become one of my favorite book couples.

I absolutely loved this book! The first is my favorite, but this is a very close second. The book made me laugh, cry, a little annoyed, and definitely very, very HOT under...well you know where. The ending made my jaw drop and I can't wait to read the final installment of this series; just love when an author can take me on an emotional rollercoaster.

"End of Summer" and "Once Upon a City" are must reads before reading Two of US. They are quick-hot-reads, so download, you'll love them all.

What can I say... I absolutely loved it. It's always hard for me when a favored series ends, but I'm delighted not to have been disappointed. Smith wrapped up the finale in a beautiful bow for all his fans and I love the fast-paced writing.

Once again we go through an emotional roller coaster with Richard. One minute I loved him and the next I wanted to strangle him. I was aroused one chapter and crying the next. Gotta love it, it's the best!!

The final chapter is a nail-biter; it will have you at the edge of your seat waiting to see what happens. And you'll laugh and cry within the same. My favorite by far!

Warning: Just so you know, the love scenes are so damn hot I felt like I was on fire. Chapter 3 is exquisite and delicious. So whatever you do, just be sure you read it in private, you might need a moment to compose yourself...just saying, you've been warned... ;)

Now go read and enjoy!!

I must say that this is definitely one of my favorite series, especially because it's written in the male point of view. We don't get to see that very often in this genre, so I ate this one up like sweet goodness. This story is real and raw, there's no excessive sugary hearts and flowers that make you roll your eyes. Don't get me wrong, the romance is definitely in the story but it's real and believable. You can definitely see the things the

couple goes through possibly happening in a real life relationship.

I think the perfect way to describe the love between the two main characters, Richard and Rebecca, is that it's an unconventional romance, that's hot and sexy and frankly, made me a little jealous. They definitely know how to have some fun. I truly enjoyed seeing how their relationship progressed throughout the books, with all their ups/downs and seeing how naturally sweet and tender they were with each other. I must admit, I have a little crush on Richard myself now. You really do go through an emotional roller coaster with these two characters and characters that surround them. Definitely reminding us that life is ever changing and nothing is ever set in stone. As the author writes, "Life is not a one act play".

I have to mention Richard's mother, Edith. As much as I fell in love with Richard, I think she was my favorite character of all. She's smart, funny and witty. And to be honest, I think she definitely steals the show. Edith is fabulous and awesome. I won't say more about her, but read the books and you'll find out why. Hopefully the author will write a spin off based on her character, she's the best. Hint...hint, Mr. Smith.

Of course, it goes without saying that the love scenes in ALL these books are absolutely H-O-T...hot, steamy and delish!!!!!! I must warn you, you might want to take a little private time when reading. You might be in need of a cold shower; it is erotica after all. Mmmm...mmm...mmmmm GOOD! :)

Have yourself some hot and steamy fun and download this series, trust me, you will not regret it. ;-)
