Bravest Warriors Vol. 3 Joey Comeau , Mike Holmes (Illustrations) , Ryan Pequin

The third volume of Adventure Time creator, Pendleton Ward's new series based on the Cartoon Hangover hit!

Join Chris, Wallow, Beth, and Danny, four 16-year-old heroes-for-hire, as they travel through the galaxy helping those who need it...and some of those who don't! Enjoy these brand-new missions as the Bravest Warriors go solo! From little Beth, to poor choices regarding werewolves and magic, the Bravest Warriors have never been more helpful! ...sort of.

From Reader Review Bravest Warriors Vol. 3 for online ebook

Morgan says

This was a quicker read than the last one, but still just as fun. I didn't have an actual story this time, more like four separate shorts. If you like the web series I suggest going this book. It is funny and cute. But mostly butt kicking funny.

Cassandra says

Would really like to see more character development for Plum, but maybe that's happening in the show instead of the comics. I really enjoyed the discussion of which group of Bravest Warriors was the evil one.

Dharma Tilley says

Really cute and funny! Plenty of Catbug, he even got his own comic! :D

Cale says

This volume is a definite step back from the previous, primarily because there's no overarching story; each issue is its own standalone adventure, ostensibly focused on one member of the team for each issue. They're okay, but not great; the Die Hard take-off doesn't really go anywhere, Beth's hunt for smooches just goes off in a weird direction, and the Chess Blitz tournament is better in concept than execution. Wallow's story is at least mildly funny and goes off the rails in a humorous, if predictable way. Some of the shorts are okay, but nothing as memorable as the previous volume. This is one I'd say fans won't mind reading, but it definitely doesn't warrant picking up for non-fans.

Ian says

Forgettable fun. Helps to pass the time in the inevitable face of death.

Beth says

meh.

Mario says

Surely less thematic than the previous volumes as in there is no bigger threat or a solid plot, these are nonetheless great and funny stories that flesh out the characters. As usual, the additional extra comics are fantastic and hilarious! Recommended!

Justin (JustinisWesley) Mackie (andnotDavid) says

just falling in love with these characters and the metaphors in this wonderful writing. I want more.

Connie says

3.25/5 stars

Going to die for Danny by this point

Joey Heflich says

Comeau and Holmes are the perfect team for this book. It's cute, fun and funny without being childish, saccharine or dumb.

Christopher Mclean says

After two great volumes I this one didn't really click with me. The stand-alone stories presented here lacked the depth and call-backs that made the previous volumes work so well rather than relying totaly on the one-line type comedy.

A few of the shorts were quite good but overall this was a set of mildly humerious but ultimatly totally forgetable stories.

Jesse Nicholas says

This series cracks me up every time. It's so outrageously funny. But excuse me? Where was PLUM?? She wasn't in this whole volume... not happy about that!

Adriana says

I think this is the volume that I've most enjoyed. It's full of quirky jokes and totally crazy plots, but there are some massive typos and misspellings that annoyed the H out of me.

There's no excuse for a book to have so many errors. Even the character's names were misspelled at least once. It might be an attempt at "a cute, little kid is writing this", but I hated it and it marred what would have otherwise been a fantastic read.

Alyssa Becker says

Gofd

Dont have any thing to say about this book k j I a n me I o p a x

Keith Irwin says

This was my favorite volume so far. Unlike the first two which were longer, more involved stories, this volume was more a collection of shorter stories. This kept the humor more dense and that lead to it being funnier. I'm still giving this three stars, but it's probably more like three and a half stars if I could do half stars.
