**D.I.Y. Dentistry and Other Alarming Inventions** Andy Riley

**Deranged devices and comic contraptions from the highly inventive genius behind the hilarious *Book of Bunny Suicides***

Much like his hero, Renaissance man Leonardo da Vinci, bestselling author Andy Riley is not *just* an artist (or a liar)?he?s an inventor. Imagine, if you will:

- The easily assembled Pole-Dancing-Club-in-a- Briefcase for stranded businessmen
  - Christmas tree ornaments that provide surveillance to instantly tell Santa if you?ve been bad or good
  - A high-speed police response unit aptly named the Cop Catapult
  - The Arsehole Trap, which can clear an average size town of arseholes in a single day with its promise of *Big Brother* auditions
- Like a twenty-first-century Rube Goldberg on the wrong mix of meds, Andy Riley has created elaborate inventions that are often side-splittingly sociopathic and never short of patently hysterical.

Some of the inventions here won't work. Doh.

### **Rachael Hewison says**

I absolutely love Andy Riley's books and was delighted to come across another one of his, this time not a bunny one. This book concentrates on inventions and varies from the Nagpod to the Arsehole trap (I loved that drawing!) The book itself was a bit of a mixed bag- some of the cartoons I didn't find funny at all, but the others I found myself chuckling aloud too.

Ignoring the few rubbish ones this was absolutely brilliant! Another Riley classic.

Príjemne strelené, zvrátené, miestami úchylné a morbidné vynálezy. Niektoré by možno aj našli uplatnenie a pri niektorých si ?lovek povie len HE?. Ale tá predstava, že by sa stali sú?as?ou nášho života, je niekedy ... povedzme ... zaujímavá :D

Soooo bad. Soooo funny.

### **Retromantik says**

Para pasar el rato no está del todo mal, alguna viñeta ha llegado a sacarme una sonrisilla. Me sorprende el ingenio de Riley para inventar.

### **Phyllis says**

Cute, but not quite the caliber of 'Bunny Suicides'.

### **David Schaafsma says**

Riley's Bunny Suicides is hilarious. This has a pretty hilarious title and has a lot of crazy "inventions," for sure. It's not as good as the Bunny books, but is still worth checking out for a few laughs. He stays this side of offensive in this collection. Reminds me of Rube Goldberg, in some ways.

### **Fugo Feedback says**

Inventos rebuscados, divertidos y/o ingeniosos, pero raramente graciosos. Creo que casi todas las páginas de este libro me sacaron una sonrisa, pero prácticamente ninguna algo parecido a una risa. De todos modos me pareció interesante y seguro le dé otra chance al autor cuando pueda.

Oproti sebevražednému králíkovi a sobeckému prasátku trochu slabší odvar.

This was a gift from someone who clearly does not know me at all.

## **Meaghan says**

A series of cartoons of Rube Goldberg contraptions which, unlike Riley's most famous works, are not limited to helping bunnies commit suicide. Although this is not as funny as his Bunny Suicides books, it was quite amusing and worth a look. My favorite one was the automatic tree-planting Hummer that will ease the guilt you feel for destroying the environment.
