BioWare's best-selling fantasy franchise lives on in these canonical comics from Dark Horse!

Charter lays her offer on the table for elven thief Vaea: rescue our captured associates, and we'll take care of the angry templar after you. Samhain says

Please, please, please, let her be in the next game with Charter! I'm also delighted to know that Alistair's still a cutie pie who cares about the less fortunate, and made sure they were heard and protected (at least in Edgehall, if not in all of Ferelden). And, of course, I can't wait to see Sebastian again, although he seems to have become a bit of an ass with age. Just like Teagan, btw, they should start a club!

Love the cover art. Story didn't have a lot of content, but it was fine.

Lucía says

[there's a chubby elf! (in the background, but still) I was starting to think they only had two body types: skinny or skinny and wiry (hide spoiler)]
