## **Red Riot**

During a CIA budget war, a group of assassins mistakenly triggers an ingenious CIA plot originally planned in the 1950s - and a world-wide killing spree of top-level Russian officials begins....

Only the Destroyer, with the all-wise Chiun and the ever-wild Ruby, can stop them from reaching their primary target - the Russian premier!

However, in the midst of all this carnage, Chiun still wants Remo and Ruby to create a super baby as heir to Sinanju, before the government's budget cuts wipe out welfare funds!

How will The Destroyer cope with life and death, love and procreation, all at once?

Warren Murphy wrote this book by himself; Richard Sapir's name is on it as co-creator of the series.

## From Reader Review Last Call for online ebook

### chris says

If television had never been invented, the souls of every tree would cry out with the voice of this kind of crap. Either that, or if it weren't for television, this kind of crap might have never been written.

---

### Bryan457 says

Project Omega is a plan put into effect 20 years earlier to cripple Russia, by assassinating as many top level government officials as possible, should we ever lose a war to them. The new head of the CIA is cutting spending, and cancels Project Omega without researching what it is, inadvertently setting the plan into motion. Remo and Chiun are called in to protect the Russian Premier after several Russian officials are killed.

A very enjoyable spy novel with some great scenes between Chiun and Ruby.

Favorite tidbits: Chiun is still trying to get Remo and Ruby to have a baby boy.

Warning, sex and graphic gory violence.

---

### Waynestennett says

A little less action in this tale compared to the others, but it was an ok read nonetheless.

---

### Mike says

Another 70s era action tale involving Remo Williams and his mentor, Chiun.

---

### Marko says

"This is a .22 caliber Ruger semi-automatic, the weakest handgun in the world," Ruby said. "The cartridges are five years old and the gun may be rusty. Even if I hit you right between the eyes, I might not be able to stop you. Now what you have to ask yourself is, do you think I'll get lucky?"

That's probably the best line in this relatively average Remo book. Having read a few of these back-to-back, however, I feel a strange urge to read something different for a change.

**Timothy Boyd says**

One of the big men's adventure series from the 70's than ran an impressive 145 books. The series while an adventure/action story is also full of satire toward much of the mainstream fads and icons of the time. An interesting main character and the sarcastic mentor makes this a funny action/adventure read. The team must stop the CIA from starting a world war by killing Soviet agents. Recommended

---

**Carl says**

Not one of the best but i still love this series, probably my favourite series of all time.  
Action, Humour and philosophy Sinanju style.
