Perspectives on the World Christian Movement Ralph Winter , Steven Hawthorne

Perspectives on the World Christian Movement presents a multi-faceted collection of readings exploring the biblical, historical, cultural and strategic dimensions of world evangelization.

Writings from more than 150 mission scholars and practitioners portray the history and anticipate the potential of the global Christian movement. Every one of the 170 articles and sidebars offers practical wisdom enabling Christians to labor together in bold, Biblical hope to finish the task of seeing that Christ is named and followed among all the peoples of the earth.

This Kindle book is the Reader only. Students of the “Perspectives on the World Christian Movement” class also need the Study Guide. That book is not available on Kindle. Students of the program have not been asked to purchase this Kindle version. This Kindle Reader does not have page numbers or any reference to the Study Guide.

This is meant for general buyers of just the Reader – the best mission reference available anywhere, used in colleges, churches and study groups all over the world. The Study Guide will be combined with the Reader into a single Kindle file, also to be released later in the year.

Phyllis says

I read most of the articles in this reader while taking the "Perspectives" class at a local church. The articles were challenging yet inspiring. I recommend the class.

Matt Adams says

Wow, one of the best books on mission I've ever read! I loved the various themes and discussions within this tome and the case studies were fascinating! Highly recommended to any serious student of mission.

Jeff McLain says

Broken into many different stories, this book is an amazing survey of God's Kingdom. Very eye-opening

Pamela says

This is the reader for the Perspectives on the World Christian Movement and it is full of very good, interesting articles by numerous people. I wholeheartedly recommend this class to everyone.

Tammy says

Excellent readings that really made me think! I definitely highlighted a lot and will be re-reading articles in the future. If you take the Perspectives Class, I personally thought most of the readings were more helpful than the instructors, but that's just my opinion.

Chris Copeland says

I read this book while taking the corresponding class. My wife and I are working toward being missionaries in Ireland. There were many great articles and we learned a lot about having a Kingdom centered, global approach to missionary work and Christianity. If I had any critique about the book, it would be that it is highly concentrated on Muslim and 10/40 window countries. While I understand the need in those places, my wife and I feel called to Europe, who also have a great need. I wish the book had a broader approach to missions and touched on the need and the approach of reaching the unsaved and sometimes unreached in Europe and even America. However, we were still able to find nuggets of wisdom that we could apply to our own calling.

Joe Valenti says

This is a great resource for understanding the history and task of global missions. The book is authored by experts in the specific areas of missions work and is edited by Ralph Winter, one of the foremost champions of world missions. A great read and resource.

Ken says

Really a great great book which puts a lot of information, and perspectives, and stories, and calling in one place. If you have the time, but definitely use as a reference and bite off a bit at a time to supplement whatever else you are reading on missions.

Joshua says

Did not finish all of the articles contained in this amazing collection. However, this book is highly recommended to any missionary who can get their hands on it!
