Vanessa says

Yes, this is a textbook. But I read this thing pretty much cover to cover (which is why I haven't read any real books since April) and was on the whole pretty pleased with the quality of the writing as well as the diagrams and illustrations.

Kate Savage says

It took me most of a year, but I finally finished the text book.

The writing was woefully bad (far more dull than it needed to be), but all the same, bodies are wonderful.

Mandy says
