Silver Heart Victoria Green

Five years ago, Dylan Silver was forced to bid goodbye to the only boy she ever truly loved. Since then, she's done her best to forget the past, put her dreams on hold, and play the role of the perfect, dutiful daughter.

When her best friend coaxes her into a winter getaway to a mountain resort, she sees it as a chance to forget about her suffocating responsibilities and the future she doesn't want—med-school and a fake fiancé.

But then the past catches up to her.

Sexy Olympic snowboarder Sawyer Carter is the last person she expected to encounter on the slopes after all these years. Being around him again is intoxicating, and as bittersweet memories mix with dark desires, she starts to wonder if maybe they really are meant to be.

But Dylan doesn't believe in fate, and a future with Sawyer no longer factors into her risk-free plans. As he dares her to be the person she has always wanted to be, can she find it within herself to abandon her fears and seize this opportunity for a second chance?

One thing is certain: after a week in Whistler, Dylan's life will never be the same.

4--**SWEET**--Stars!!!

Aww! What a sweet heartwarming story! A story about second chances and learning to be yourself and let go and do what makes you happy regardless of what anyone else thinks!

Sawyer and Silver (first name Dylan, last name Silver) were best friends who secretly were in love with each other. They grew up together. But Sawyer lived on the "wrong side of the tracks" and he and Silver had to hide their friendship from Silver's parents. Sawyer lived in an abusive home and Silver was his lifeline....his escape....his hope at something more. Well, that and snowboarding!

After graduation Sawyer gets a sponsorship and leaves Silver behind. For Sawyer this is his only way out and away from his abusive father. He thought bringing Silver with him would bring her down.

Silver's parents had pretty much planned her life for her and after Sawyer left she just didn't care about her own happiness anymore. After graduating college, she and her BFF head to Whistler for a week vacation. While there she runs in to Sawyer for the first time in six years.

Sidenote: I really don't understand why they didn't try to find each other during that six years--especially if they both loved each other as much as they said they did. Anywho....

Silver's mom....

I would have told her to eff off years ago. Luckily, when it counts Silver stands up for herself and her happiness.

Adam....

Good thing you attempted to redeem yourself in the end.

For Sawyer and Silver it's like they hadn't been apart those last six years. They both admit how they felt for each other and explore the possibility of actually being together. Will Silver stand up to her parents and go after her own happiness for once???? Read on and see people.

This was a standalone with a HEA! Like I said, it was a really sweet heartwarming story. It had some funny

moments and some sexy moments. Though I'm pretty sure the first time they had sex it was on a commode (I just pretended like it was on a bed. :)) The story was told from Silver's POV. I'm thinking Maddie needs her own book. She was fun!!

Ailene♥ says

Sometimes, I really have this gut feeling when a book's really going to be good. Most of the time, I'm right. And fortunately, this one didn't disappoint. It's just amazing.

It's only being told from the heroine's POV. Usually, I prefer dual POVs. But this works just fine. All her life, Dylan Silver has been the good perfect daughter. She's always been following what her parents want for her. The question is, what does she really want for herself? Is she happy with the choices she had made?

Taking a peek from her past, she had a best friend named Sawyer. He's always been there for her. And together, they showed how it was to be taken care of. And in Silver's eyes, she saw through him what it's like to live life to the fullest and just follow your dreams. Both of them fell in love. But they're afraid to ruin such a very special friendship. When things turned into unfortunate circumstances, Sawyer had to leave. And Silver's heart was crushed. He was her strength and her only hope that maybe, she could actually defy her parents. When he left, that's when she just went with the flow, made the best of what she had and just tried to make her parents happy.

Six years later, they crossed each other's paths. Fate seemed to have given them one more chance. Sawyer never wanted to let go ever again. But will Silver finally have the courage and make choices of her own? This was basically Silver's life story towards finding true happiness.

The story may seemed cliché. Believe me, I hate cliché stories. But this one was definitely not. The author made it refreshing. I checked on her and was surprised that this is her first story. She's really good. For sure, she's someone to watch out for...

Some may compare this to *Frigid* by J.Lynn. But it's totally different. The only similarity I've found was the winter weather. And Sawyer here was not a manwhore. Sure, he had his fair share of women. But who doesn't? He's single anyway. And what I really loved about him was he's such a well developed character. He's mature. He's sensible. He hated cheaters (that will be explained further in the book)... And now it's my cue to ramble...

Sawyer... Sawyer... Gosh!... As I'm writing this, I think I still have a hangover for him... No! I think I'm still drunk with his oozing yumminess! Lol! I've been reading so many books... I began to lose faith that I will find another book boyfriend ever again. And I have never thought that I could find this hidden treasure and be able to find my Top 4 Book Boyfriend!!!

Just to share, here's my Top 6 Book Boyfriend:

1. Christian Grey (50 Shades of Grey)
2. Gideon Cross (Crossfire Series)

3. Sebastian Stark (Surviving Raine)
4. Sawyer Carter ;)
5. Travis Maddox (Beautiful Disaster)
6. Jake Andrews (More Than This)

Sawyer definitely surged its way on my top list! It's freakin' unbelievable!!! He has his way with words, you know. Everytime he opens his mouth, I'm literally swooning!!! I'm just all over the place in giddy, butterflies in your stomach kind of way!!!

Yep! Obviously, he's so hot!!! He's a professional snowboarder at the top of his game. And he's about to compete in the Olympics 2014!!! But those are just one of the many cherries on top of a delectable ice cream, guys!!! You need to read this for you to know what exactly I'm talking about! But for sure, you will never look at a lime popsicle the same way ever again!

He's such a dirty talker in bed! But not "bed" in the literal sense, anyway. Lol! The steamy scenes were really hot!!! I've been reading sex scenes lately that were just BEH! But the scenes here were full of passion, lust, affection and love... Writers have been losing these essentials when they write these scenes. But Miss Victoria Green has her way that makes you connect with the characters and the story itself...

This book is not angsty. Sure, it has a few that made me shed a few tears. But the characters had an open communication and dealt with their issues right away. It's a feel good book. But NOT corny, sappy, mushy... It's just heartwarming. And most importantly, it's believable... relatable... realistic...

More than highly recommendable!!!

Mlpmom (Book Reviewer) says

Sawyer.

With that one word, that one name, I could be done with this review, simply because, he, Sawyer, makes this read so worth it and one you do not want to miss out on. Whether you love this genre or not. Whether you love romances or not, Sawyer is a man you need to meet. You must meet.

I read a lot of contemporaries, it is one of my favorite genres and because of that I have come across a lot of swoon worthy, lust inducing, leading men but none of them compare to the sweet hotness that is Sawyer. I think he stole my heart after the very first encounter with him. Glimpses of the sweet caring boy to the man that he becomes, makes him one hard man to resist.

I have always been (and will always be) a sucker for relationships that start off as friends. There is just something so pure and real about them. Your soul mate, the love of your life, should be your best friend, your confidant and the one person that you can't live without, the one person that grounds you but still catches you if you fall. That one person that makes your life whole for many reasons. When that bond happens naturally and over time, it just makes the relationship and that love so much more and that is exactly how it all begins for Dylan (Silver) and Sawyer.

To say that Green outdid her self would be saying too little. This book was so hard to put down. It flowed so nicely and naturally and Sawyer and Silver's relationship never felt forced or awkward, even years later with time and distance between them. I loved watching them both grow and become who they were really meant to be. The flashbacks of their start and their story were done perfectly and I loved seeing those glimpses of little Silver and Sawyer and the memories that they shared. It made them who they later became. The bond that they shared was true and it was easy to see from the start that they were destined to be together, even if they were star crossed lovers and never meant to be more than friends. His family, her family, their society and means were not going to stand in the way of their friendship.

This might be Green's first jump in the NA genre but if this book is any indication, it will not be her last. She is one author I will continue to buy books from because they flow nicely, are well written and completely heart warming (not to mention hot!!).

Kristina says

There have been so many New Adult books that have come out in the last year. At first I was all about NA. I couldn't get enough of them. But lately I feel like I've been in a NA slump. Every book I read sounds exactly the same. Luckily that did not happen with Silver Heart. It is one of the best I have read, and it can definitely hold its place among some of the other well known NA stories!

Dylan has always done what her family expects of her, so she never got to be her own person. She graduated college pre-med because that is what her parents wanted her to do and she's even fake dating someone because of them. The amount of control her parents had on her life was sickening. I kept wanting her to stick up for herself and I hated every minute that she didn't!

While at a ski lodge she sees Sawyer, the boy she loved but hasn't seen in years. Sawyer is definitely on my top five book boyfriends. He was so sweet! For me, there is nothing sexier than a man whose been through a lot and is still a good person despite a hard life. I loved every single moment that the two of them were together. You can tell how much they loved and cared for each other and they shared a very hot and romantic connection! I really couldn't get enough of the two of them. I also enjoyed watching Dylan grow as a character. She definitely had a lot of growing up to do!

Sawyer and Dylan were not the only two characters written to perfection. Even the secondary characters were written beautifully. I especially loved Dylan's best friend Maddie. She was so much fun! Maddie found herself a hot Australian while on the ski trip and I would love to read a story about the two of them (hint, hint!). Every character was written in a way that made them realistic and relatable.

Victoria Green created a wonderful story with Silver Heart. The writing was fantastic and everything flowed so nicely together. I can not wait to read what Green comes out with next!

APRIL 2015: this was such a sweet story! a tale of choices, lost love, second chances and dreams. I loved it, and I loved the characters :)

Vi (the Vi3tBabe) says

Silver Heart has it all. Enthralling writing, memorable characters, a touching "second chance" love story, and whimsical moments that get you all giddy and warm inside. Not to mention quite a few strategically-placed sexy times that changed my view on snowboarding and certain frozen food items forever! I'm a sucker for "second chance" love stories, especially when it's done well, and readers, Silver Heart was fantastic. I think Victoria mixed a perfect blend of a rekindled romance with the inner struggles of the main character, and even some of the secondary characters. I really loved every minute of this book.

Dylan is our leading lady and I'm happy to say, she did not annoy me. Praise the Gods! Yes, she's struggling with breaking free from the chains of her parents expectations, but I think the way Victoria handled her character growth was done well. You see a lot internal battles Dylan has as she tries to re-discover her love of photography and decide if medicine is the right career path for her. I think I kind of related to her because I've been on the long and tedious medicine track for as long as I can remember, going along with what my mother expected from me and kept pushing at me. It's hard to stand up for yourself when it comes to your parents, but somewhere along the way, you have to figure out who you're doing this for and whether or not you enjoy living your life. Dylan's mom was pretty crazy and their relationship was stifling and Dylan never really had any support behind her and what she really wanted in life. Some might wonder why Dylan never stood up to her mom, but I think it took someone like Sawyer, not just because of the love, but because of the understanding and support, to make Dylan believe in herself and find her inner strength. I think this book had the right amount of self-discovery and romance with real substance. Seriously, it's like Green meticulously

measured each aspect of the story to make a perfect blend of all the things I love in a good romance novel.

With Sawyer, I do think she should've been more willing to give them a try as a couple, but I understood her reservations and doubts at making it work and believing that what they had was real. Green put in the right amount of drama to stir things up, but also to raise enough questions for the characters to face their problems and come to life-changing decisions. If I was in her place, I would probably have doubts and trust issues, especially if the guy I loved was particularly famous/popular. Hell, I have trust issues with guys no matter what, but I digress...

Sawyer. What can I say about this sexy beast?! He's a genuinely good guy, extremely hot, and ineptly skilled at certain things that will make your toes curl and a snow-capped mountain melt! Not to mention, he really tugged at my heart with his love and sincerity towards Dylan. His Silver medal! I loved that he challenged Dylan and brought her out of her comfort zone, made her realize that she can take risks in life and still be okay. He also supported her whole-heartedly and unconditionally. They share such a deep and meaningful history, going through the worst times of his life together, it's not hard to see how much of an impact they had on each other. Green scatters in glimpses of their past together throughout the book that gives you a deeper sense of their relationship and all the hardships Sawyer went through growing up. I soaked up every minute I could of Sawyer and I honestly fell for this guy with a quickness. You just can't resist him. Go ahead, read this book and see if you can! I dare you!

Silver Heart just reminds me why I love New Adult and Victoria reminds why I love supporting Indie Authors. This book is truly a diamond in a sea of cubic zirconias. Honestly, if you want a sweet "second chance" love story with endearing characters and the right amount of sexy times, you'll want to get this book. If there's nothing else I can sell you on, it's the fact that once you meet Sawyer, you won't be able to put this book down!

Jessirae says

I was completely and utterly enchanted by Silver Heart. It made me smile and swoon all at once, dazzled me with its wintery setting, and hit me with a great amount of feels I wouldn't trade for in the world.

I have some serious love for Dylan because she was admirable in her self discovery, in her love for Sawyer and in her independence, strength, and devotion. She was not perfect though she strived to be. Dylan had her own fears and doubts that led her to realize what she truly wanted out of her life. She learned to let go of her inhibitions, to lose some control, and allowed herself to do and feel things out of her comfort zone. Even when she bruised and fell on her ass while trying to snowboard she kept trying no matter how discouraged she felt. I was more than inspired and proud of Silver for the decisions she made in the end. Also memorable was Silver's love for lime Popsicles and private lessons. They bring on a whole new meaning for me.

winks

So lets talk about a certain sexy snowboarder by the name of Sawyer Carter. Why on earth should you love, adore and worship Carter the Carver? Well, because he snowboards (duh), has light green eyes (swoons) and has several significant tattoos that makes me want to...(licks). But really, it's because Sawyer is charmingly sweet, ambitious, caring, daring, and accomplished. He's flirty and funny and says the most breathtaking lines that are genuine and sincere. He lights up the room, grabs attention but he is never arrogant in his success or superiority. He makes your heart melt, your knees weak, and makes you want to sigh in

contentment every time he is around. Most especially, he pushes Dylan to be true to herself. Sawyer Carter makes me want to jump his snowboard and ride on the slopes all day. *giggles*

I loved what Victoria Green created in Silver Heart because it was profoundly poignant, steamy hot, and clever all the way. Her writing gives off a strong, mature, and prominent voice in Dylan. She makes Dylan and everything she goes through to be connectable and relatable. The added humor, witty lines, and silly jokes make the book even more well rounded. Not only the romance was established and developed well, but the friendship between Silver and Sawyer that started it all was too. What I loved most about their relationship was the acceptance, support, and understanding they gave each other. The honesty, being able to admit their mistakes to one another, and how both refused to stand in the way of the other's dreams was truly beautiful. I also commend Victoria on her ability to write combustible sexual tension that climbed higher and higher. The make out scenes were sexy, the touching scenes were sensual, and the sex scenes were thoroughly seductive. I officially love ledges and horny forest rangers! They're best things in life. Victoria impressed me so much because she made Silver Heart truly realistic from the characters, to the romance, to whole storyline and everything in between.

I do have to mention another thing I love about Silver Heart and that's Dylan's brother, Adam Silver. Let's meet in an on-call room one day, my love.

Overall, Silver Heart was phenomenally written with the perfect balance of beauty, inspiration, wit and romantic love. The words just melt off the page and go straight to your heart.?

4 Silver Stars!!

I loved this book!

This is a story about Dylan and Silver. A story that wasn't supposed to end but circumstances and life came in their way...

Now 6years later Dylan is living a boring life, doing what her parents want her to do, in a fake relationship with someone she doesn't really like and who isn't really into her.

She is empty and boring, a shadow of what she envisioned her life to be...

On a week break to the mountains, Dylan Silver is reunited with her best friend, the boy who always had her

heart... Sawyer

"They say people go through various stages of grief when they lose a loved one. Seeing Sawyer made me experience something similar, only in reverse. Surprise was the first to hit me, then elation, but there were also feelings of guilt, anger, and pain over the way we'd parted and the years we'd lost."

He is an Olympic snow boarder and she is a pre med student.

They are different people but at the same time they are still Sawyer and Silver.

"Happiness—and unhappiness for that matter—isn't black and white," he said. "It's not the same for everyone and it isn't an emotion you can be objective about." His body shifted beneath the steam. "You don't think happy or force yourself to be happy. You feel happy"

As we get little pieces of their past, we see the strong connection which they had, which is still there...

"I want to lose myself in you, but I want to be the one calling the shots this time"

"After all, you'll always be my favorite medal, Silver."

A beautiful friendship which started since they were kids never went away, was never forgotten.

The problem is, life is still in the way...

Facing problems and taking the big step is what they need to do.

"You're not a nobody, Sawyer. You're my..."

"What?"

"You're my everything."

This is such a sweet story which will literally melt your heart and your panties!

"Heat spread through me like wildfire, touching long forgotten places, waking desires that had been dormant for what seemed like forever."

"With each touch, I wanted to come undone for him, bear my body, mind, and soul for him. Even after all these years, I trusted him with my whole heart. He'd always been my second half—the only person who could ever make me feel whole."

I know it melted mine...

Ashley - Book Labyrinth says

A lot of people on Twitter had been raving about this one, so maybe I was expecting too much. The book started out promising, but it quickly turned cliché and lost a lot of its depth.

Considering Dylan's future plans were of such huge importance I would have liked her to grapple with it more and make up her own mind, rather than still planning for most of the book to go back to her own life. Parental expectations are hard, but I like my MC's to have more of a spine.

The romance was also lacking. I loved the history and friendship that "Silver" and Sawyer had, but I was so disappointed when all of that turned to pure lust in the present. Sexy scenes can be fun, but this book had way too many of them and not enough of them rediscovering each other with actual words.

Not terrible, but overall a disappointment.

Probably nothing, other than finally realizing you are falling in love with your best friend and finally having the second chance to be with him even for just a week. But will it ever be enough?

We're going to have the best time ever!

Her best friend could have been a fortune teller for predicting that she and Dylan would have the best time

ever! Catching a break before getting into the busy world of med school, Dylan decided to go with her best friend Maddie into a winter get-away. She would try to have fun, relinquish control (if she can) and really, make the best out of it.

Dylan Silver had done everything her parents wanted her to do. She left her camera, the only possession she hold dear, to gather dust while she finished her pre-med with flying colors. She got into a relationship with someone her parents approved of and is about to go to med school. She is crazy over things that she can control – because her whole life, it has been in the hands of her parents.

Then Sawyer Carter reappeared into her life – her past, her best friend, the only one she truly cared about. Six years ago, Dylan said goodbye to him, how he's here, in the flesh. He takes her into the ride of her life, coaxing her to do things she wouldn't normally do – letting go, give up control and have fun. He wanted her to be happy and be the person that she wanted to be.

This is their second chance – a new beginning for both of them. But will Dylan be able to take risk and overcome her fears and finally give a chance on the life that she truly wants before its too late for the both of them?

I adore Sawyer – he's not just good in snowboarding, but also with his mouth. He could say the words that would make your heart race a bit, and have you swoon in delight, or the words that could instantly bring you to orgasms. Oh he has that kind of talent. His love for Dylan is just astonishing – and just when I thought he would give up on it again, his actions caught me by surprise. Dylan is one lucky girl, and I prayed that she would see that before someone else does.

Maddie is Dylan's exact opposite – she's a free spirit who wanted Dylan to live her life. She was exactly what Dylan needed – someone who would cajole her into doing the unimaginable.

Silver Heart was incredibly sweet, heart-melting, and touching story about love, fate, and following your dreams. Silver Heart can melt your senses with its steamy scenes, intense dialogue and amazing characters. Achieving your dream doesn't mean you just have to work hard for it. You also need to fight for it to get what you really want out of life. You will never be truly happy unless you give it a shot – and if doesn't work out in the end, at least you took the risk and give it a try. But once you finally have it in your hands – the battle, every scar and every bruises will just vanish and it will give you a sense of peace and contentment.

Justin says

Silver Heart is without a doubt the best New Adult book that I have read this year. There is really no way for a book to be perfect, and there were definitely a few things I had very slight issues with when I was reading Silver Heart; however, when it comes to New Adult books, even with the slight issues I came across, I was extremely impressed with Victoria's work. To jump into the genre with a debut, and make it stand out so much is quite a feat. Especially since New Adult is starting to become really popular now.

Victoria makes sure to give her readers something to enjoy while they read Silver Heart. While it is fairly heavy on the romance, you really do get to see some other great aspects of the story. Some of my favorite parts were learning about Dylan's family, and even though I do not really agree with a lot of the choices her parents tried to make for her it really does help to add that in-depth backstory that allows you to connect with Dylan and really understand what she has gone through, and how a lot of the moments she will experience throughout the book will impact her life.

It isn't just her family that you get to learn about though. You also have her brother Adam, and her best friend Maddie. And let me tell you, there are a lot of moments between Dylan and these two. Dylan and Adam have a fairly large backstory, obviously. But once you get into the story, there is a lot that comes out that really threatens to build a lot of tension between the two siblings. On the other hand, you have Dylan and Maddie. Maddie is such a loveable character! She is one of those characters that you really get attached to, and will make you laugh as you're reading a lot of her dialogue. Especially earlier on in the story.

There is a surprising amount of build up for this story. It starts off fairly straight forward, but then you are introduced to the issues surrounding Dylan and her family situation. You also have a guy named Preston that comes into play. I won't go into much detail about Preston simply because he is involved in a certain part of the story that is best left for your own reading. I will; however, say that he has an impact on Dylan's life. You really have to pay attention to a lot of the smaller details surrounding Dylan and her family. Her family has had a major impact on her life, and while it really isn't the most positive impact it still helps to build a heavy foundation for what you will experience in the books. As things build, as readers you will really start to build bonds with these characters and experience what they are going through with them as it unfolds.

Enough about the backstory. I am sure a lot of you will be excited to hear about all the romance packed into these pages, especially all the ladies out there. There is a TON of romance in this book. Quite steamy romance at that, so for all you people that love romance you will not be disappointed. The romance really doesn't start until Sawyer comes into the picture. Sawyer is that character that I am sure all you ladies are going to end up falling in love with as you read through this book.

While there is quite a few steamy scenes throughout the book, it is done in a really tasteful manner which I really liked. There are even a few of the scenes that are quite funny. Although, once all you ladies get to one scene it might leaving you wanting to take up a new sport, especially with the instructor in this book. ;) But I will leave that for you to find out about as you read the book.

There are a ton of great quotes from the book pertaining to the romance in particular. I will share with you a little teaser with some of the better quotes, just to give you a little glimpse at what you can expect to get yourself into as far as the romance, and even some of the funny moments throughout the book! Trust me, it is worth it!

"You ruined me for everyone who came after you, and you did it by simply existing." – Sawyer

“He’s my everything. We need each other now, and we’ll never stop needing each other.” – Dylan (Silver)

“I wasn’t some romance novel heroine who was unable to keep my legs closed as I drooled over anything with a heartbeat.” – Dylan (Silver)

“There’s never been anyone else, Silver. All these years, there’s never been another girl who could measure up to you.” – Sawyer

“I’m going to read every detail of our book, I promise. Especially the dirty scenes. I am going to read those over and over again.” – Sawyer

“One single glance claimed all of me. His hands stayed still, but I could feel him exploring my body. He was ripping off my sweater, pulling on my hair, rocking my hips, digging his nails into my skin... Without actually touching me.” – Dylan (Silver)

“You’re not just any girl,” Sawyer said. “Right now, I need to feel like one,” I told him as I ran my hands up the hard ridges of his abdominal muscles and over his chest, finally wrapping them around his neck. “I need to feel wanted. For me. All of me.” – Scene with Sawyer and Dylan (Silver)

“Then I propose we keep all future hangouts contained to a public area.” His eyebrow ring shot up and his naughty grin reappeared. “You think I’ll be able to restrain myself around you in public?” “I guess we’ll have to wait and see.” – Sawyer and Dylan (Silver)

And for a slightly more steamy romance scene teaser..

“He was omnipotent, fusing himself into every crevice of my being, holding my release hostage until I soared into the highest state of arousal and was reduced to a quivering, moaning bundle of delirious ecstasy. I was suddenly weightless, desperately digging my heels into the snow, grasping for something to ground me before I floated away.” – Dylan (Silver)

Now that I have left you with quite a few quotes and scene teasers, I think it is about time to try and start wrapping up this review. I am pretty sure I covered everything that is extremely important to the book, I am sure there are a few minor details that I really did not go into. But I wanted to make sure that everything I shared was just enough to get you all interested in reading the book, without being a spoiler. There is a lot that goes on in this book between the romance, drama and everything in-between. Victoria definitely takes you on a wild ride with this book, but I can assure you it is well worth the trip! So make sure to pick yourself up a copy of this book and hopefully you will enjoy it as much as I did.

Anna says

This novel was so heavy on the romance side, though I lost count on how many times they'd done it - any manner in any way - I thought the story was good. I managed to hold on to it because I liked how it started, and in all fairness the Girl was at least sensible (but only in a matter of time when she's not melting in a puddle of lust). Ofcourse, unarguably, the guy was sex on a stick. When he wants it, he gets it. Every.Freaking.Time.

Sawyer Carter was definitely no longer a cute boy. He was a man. And an incredibly sexy one at that. The kind of man I apparently had no immunity to. ~Dylan, Loc 447

Well honey, that makes two of us!! Good lord, my Sawyer Carter just became a new weakness for me; this man was a delectable dish of sexy with a side of sweet and devoted that I couldn't get enough of!! I don't usually start out my reviews drooling over the hottie love interest, but I just can't help myself when it comes to Sawyer...maybe it's the fact that he's a snowboarder, because yeah, that was hot! But seriously, Sawyer sauntered into this story with all the confidence and sexiness of a bad boy, but the unspoken love he had shared with Dylan for so many years of their past made him so much more. They'd been there for each other for nine years of their childhood, only to be torn apart by family and life choices, and a case of sheer luck (fate??) found them face-to-face again in the snow of Whistler. Sparks were flying the moment they were within reach of each other, and I enjoyed every moment of them getting reacquainted!!

I touched my fingers to my lips and tried to push away the sudden emptiness that had descended upon me. The heat of Sawyer's mouth was replaced by an empty chill that covered my entire body. ~Dylan, Loc 771

Poor Sawyer, he was the boy who had Dylan's heart from the very beginning but he just never measured up when it came to her parents. He may be a hot-shot snowboarder who everyone wants a piece of now, but he had a rough road to get there. He had such a tortured childhood, and Dylan was a lifeline for him through the worst of it. What they had in their youth was so sweet and tender, and their reunion allowed them to finally give in to the lust that was always there but never acted on. There was never any doubt about the love they shared, because it was clear they had belonged to each other all along, and it was beautiful.

Dylan and her brother were bot products of VERY over-involved parents, and they both were suffering from the demanding life that had essentially been chosen for them. Dylan, however, had gone against everything she wanted in order to go along with it. I really felt for her, because her parents were so overbearing and she was just trying to please them. I definitely wanted her to have more of a backbone when push came to shove, because there were moments where the meddling became infuriating, but I was so glad when she stood her ground. I loved how Sawyer and her friend Maddie made Dylan more alive and let her release that wild side to her, though, and there were some great moments between them that had me laughing!

"I dress like this all the time." There was no way I was going to tell her that this outfit had spent the past three years stuffed in the back of my closet.

"Sure you do," she teased. "Every time we Skype your cat sweaters are such a turn-on. You have no idea how hot and bothered I get." ~Dylan and Maddie, Loc 264

Between the smoking-hot scenes when Sawyer and Dylan gave into their intense passion, the beautiful words he spoke to prove just how much she meant to him, and the captivating story surrounding their romance, Silver Heart has all the elements of a great romance that readers will love!!

"I want you, Silver. I want to own you. I want to make you mine in every way possible. In all the ways I was too afraid to do before. I've never loved anyone else in the world the way I love you," he said as I struggled not to cry. ~Sawyer, Loc 3382

Talltree says

Sweet, sexy separated-childhood-friends-find-each-other-again-and-get HEA story. h was adorable, she was brainwashed by her parents into fitting a mould. H had a horrid family life and escaped to become an Olympic snowboarder. Meeting H again helped h find herself and get free from the conditioning her parents did on her. And it gave an opportunity for H to get the girl he always wanted.

The flashbacks of h with H in childhood: even while small the h was so good to H and she was all H had left, it was heartbreaking, innocent and magical. The H adored her so much, she was everything to him.

A touching 4.25 stars!
