Endless: The choices Tasmyn had to make to finally help her come to the conclusion that, you just can't help everyone. Sometimes though the outcome may seem bad you just hope and pray things will come out for the best. I was hoping to hear more about Nell and if she would ever wake up. I have a good feeling that her and Tasmyn may be good friends. This was a very entertaining series. I enjoyed every book, and wish I had the next series where all of them come back and meet again. That's ok I'll be keeping my eye out for it.

Riveting

This was another series that I couldn't put down. It kept me guessing. I even talked to the characters as if they could hear me. It was that good. I loved Tasmin & Michael's romance. Although I felt her & Rafe could be a good match too. All in all I really got into it & felt like I was part of the story. Great writing by Tawdra Kandle. I won't hesitate to read her other books. Thanks Tawdra for a great series.

The King Series

Michelle Larson says

OK for teenage fantasy

If you can get past all the typos, missing words, and questionable grammar it's a fairly decent fantasy for teens. More mature audience might find it mundane or not truly believable.

Judy says

Awesome

Truly a wonderful series! Lots of drama, pain, and love. You will fall in love with Tasmyn and Michael and their story!

Laurie Hopkins says

Wonderful

Tags and Michael are just the perfect couple to fall in love with. I cried and asked Tas what the check she was thinking during restless, good thing she got herself straight, even if it was the incident with Amber that made her think things through properly.

Yassemin says

What can I say? I think my rating speaks for itself.

This was an amazing paranormal series. I absolutely loved it and have no criticisms whatsoever.

One of my favourite books /series of the year!

Teena says

The first was good. The second and so on were more difficult because it was like reading the same book over and over.

J.L. Leslie says

This is a really good YA series. There are parts between the two main characters that were a little unbelievable to me - like how fast they fell in love - but it's high school so I guess it was possible. I liked the heroine and felt that she matured throughout the series and enjoyed watching the two main characters grow together.

Nicole Henderson says

Definitely Young Adult

Very surprising throughout. Unfortunately, there were a few more editing and spelling issues than I would have liked. It almost seemed like the end of the book was rushed. I have read The One Trilogy. Those books made me buy this series without any real thought and no hesitation. If you are looking for a mystical, young adult, love story, this book is definitely for you.

Ellen White says

Tags and Michael perfect couple. Was nice to have the complete story in one box. Goes from a new school, to being an adult. Good story line

B says

Good YA fantasy series

I read this series over the course of about 2 weeks. Very good characters with some interesting abilities that develop over the years this story goes thru. This is G rated for those that are interested in that.

Robin Clemons says

Unusual

This boxed set was one of the best that I've had the pleasure of reading. The storyline was believable and based on fact with some of the pertinent names and locations changed to protect those still living.

I will definitely read others by this offer.

The characters were easy to fall in love with and follow, along with the story. the author made the mental visions so easy and vivid of the surroundings and the characters actions felt so real.

i would highly recommend this author and this book.
