## **The Mafia And His Angel Series (Tainted Hearts) Lylah James**

The Tainted Hearts box set brings you the dark tale of a ruthless mafia boss finding his angel...and then waging a war to keep her.

He was a man who wasn't put on this earth to be loved, but to kill. And she was a woman who was nothing more than an object to be used. They weren't meant to find each other in this dark, cruel world. But they did, and now it's war because there's no way in hell he'll let anyone take her from him.

He was feared.

She was hunted.

Together they will fight to win this war.

This box set includes Parts 1-3 in The Tainted Hearts series.

## **From Reader Review The Mafia And His Angel Series (Tainted Hearts) for online ebook**

**♥?Fantasy Land Book Reviewer♥? says**

I had been waiting to read these stories by Lalah James for a bit now. I couldn't tell you what the wait was but they had been on my TBR list for a while. So I finally found the time to read them and I have to say I am happy I read them, but there really wasn't anything hugely special about them. I hate to say that, but right from the beginning, I didn't feel any connection between the two main characters.

Alessio and Ayla have no feelings towards each other even when the author is trying to make you think they do. I really couldn't take it for very long. I did finish this story but it took me a few days to be honest. I am going to give the next book a try and see if those characters have a connection. Let's hope for the best.

---

**Sarahbash says**

**Awesome**

This book was absolutely incredible. The main characters and second characters made the book stand out. And the storyline was breathtakingly amazing. The pain they go through together and separately is heart breaking at times but together they are strong and prove that even when their broken they have the power inside each other to come out on top and finally get their HEA which they both deserve. Lylah James is an incredible author and i recommend this book to everyone.

---

**Melinda Bogue says**

**Great set**

The characters in this set really stand out because of the raw primal nature of the emotions. It's graphic but not to a grotesque scale. Aylas history is horrible and the mental scars are there front and center. The author didn't sugar coat Alessios nature either. Sometimes you were struck with how brutal he is and in the next scene he's tender and sweet. Unlike other books where it's a jekyle and Hyde on/off switch you seen in both main characters that the emotions bled through to the next scene. The supporting characters were so amazing I loved Nikolai and the scene with the little girl omg. He had me getting real upset with him for a bit there until we found out who the real traitor was. Which btw I hated that character from the start. All in all a fantastic read definitely a five star for me.

---

**Susanne Berglund says**

If you are sensitive, you should definitely not read these books! They describe very in-depth torture of both

women and men. There are sex and rough languages.

Nevertheless, it is a love story that cannot leave many untouched. There are some unforeseen events along the way. I thought it was very good. One of the best in a long time. It is worth every penny and second you put on it.

---

### **Lynn says**

\$0.99... I just couldn't resist. I have read these books before, I am going to re read them. It is a good deal. The writing is good. A good Mafia read. It is what you expect in a mafia read. They are not rushed. I would recommend this to all you Mafia lovers. It is free with kindle unlimited or one click \$0.99 cents.

---

### **Alba BookPics says**

#### **Absolute disaster**

Everything was going good and great and awesome until it wasn't. I honestly thought I'd read the end of the book by the 70% mark. The rest to me wasn't needed. At all. My reading dragged like you have no idea. And I just made myself finish it because of all the time I had spent and invested in the story. I needed to know what happened with the main characters and now I know more than I ever needed to know.

The trilogy was recommended to me years ago but I finally took the plunge this year and started it. And while I never quite liked the writing style (even though I hoped that it would change as the story progressed because of this being firstly published on whatpad or the editing that was done on the book I could still appreciate a nice quick read with a little too much of description but a lot of love.

I can definitely say that I liked the last half of the second book and the first part of this book the best.

Maddie's, Nina's and Nikolai's backgrounds would definitely be the ones that might make me come back to this world.

---

### **Jennifer Pierson says**

I've already read all three of these amazing books that totally drew me in & obsessed me completely, so I'm just adding my reviews to the the series box set, as I wished I had gotten to read them all at once!

Part 1:

Alessio has grown up to be a powerful leader in the Russian Bratva, who has one huge goal, which is to get rid of every member of Abandonato mafia, after they killed his mother when he was a child. He has no time for love, or distractions, until he finds a beaten girl under his bed, shaking up his controlled world. Instead of

letting her go, he gives her the choice to work for him, while he tries to find out who she really is. Ayla has been through the ringer in her short existence, and has suffered immensely, so she's sure that Alessio will be another man who will use, and hurt her. And while she's under his roof, she starts to learn that there's a heart under the fearsome exterior. But will his ruthlessness, or his heart win out when he learns who she truly is?! **OMG I'M SO JACKED UP** after finishing this book, that my mind is blown! Every insane emotion that I possess is out in full force, and running amok now. I **LOVED** Ayla, but Alessio still has me pissed off completely. I'm so tired of men thinking they can do anything they want no matter who it hurts, and I just want to junk punch him over and over again. I know he's yummy and all, but still, his douche decisions still have me enraged. This story is heart pounding from cover to cover, and I'm still dropping loud f-bombs hours after finishing. Lylah James' talented writing style had me instantly captivated from the very beginning, and I didn't move until I finished every page including the credits. Now the other thing that has me insane was that ending...the cliffy that I was left with has me adding her to the list of author's trying **TO KILL ME DEAD**, and so she shall forevermore be hash tagged **#EVILWHORE!** I **CANNOT WAIT** to get my hands on the next part two parts, and I may or may not be stalking her social media now! **HIGHLY HIGHLY HIGHLY RECOMMEND!**

#### Part 2:

I was super excited to get this story, as Part 1 left me hanging, but while I knew that the Tainted Heart series was 3 parts, I'm still **MAD AS HELL!** Especially since I'm hanging off the side of a cliff by my last finger, with the wind blowing hard, after that ending! Before I go off the deep end with my insane emotions, let me say **YOU HAVE TO** (let me reiterate, **HAVE TO**) **READ PART 1 FIRST!** Back to my insanity I go. Lylah James, with her brilliant writing style just upped her own ante with Part 2, and while I adore my new addiction, I called her all kinds of colorful metaphors during this one. And I added her to my list of authors trying to **KILL ME DEAD**, after Part 1, with a new hashtag of **#EVILWHORE**, she's gotten promoted to **#EVILWHOREQUEEN** now. Anyone who reads this review may wonder why I'm not giving an actual description of the story, but see here's the thing, if I try to do so, I will give things away, as I'm still very very very jacked up, but I don't believe in spoiler douchery. But I will give this, it's the continuing story of the powerful & dangerous Alessio, and his Angel Ayla, and boy is it a doozie! Twists and turns were around every corner which had loud f-bombs dropping out of my mouth, while waiting on secrets to be revealed had me on the edge of my seat with heart racing. And that's all I'm giving, so if you want more, I suggest you board the crazy train with me! Part 3 **CANNOT COME SOON ENOUGH**, like I will snap if I have to wait, **SOON ENOUGH**, and I **HIGHLY HIGHLY HIGHLY RECOMMEND** you take this exciting ride with me!

#### Part 3:

Oh Layla James, you brilliant genius! I wasn't sure how she was going to get out of Book 2 to a great conclusion, but she did it in **SPECTACULAR FASHION!** Oh and guess what? This is Part 3, so **YOU MUST READ** Parts 1&2 **FIRST!** I'm not going to go into details because no spoiler douchery happening here, so going to just post my dramatic feelings, and they are many! First of all, the author did a brilliant job at not having something so traumatic happening, and all of a sudden everything is okay. No it was a journey at it's finest, written with true emotion, which nearly brought me to my knees. The twists that have been around every corner, are ever present again, which still have me dropping f-bombs but also answering all the questions that led to said f-bombs. Ayla & Alessio are forever in my heart, while the entertaining cast of secondaries had me laughing and/or shedding a tear or two. Then when my heart was full, and yet, saddened by the end, when those magic words appeared, "The End. Or is it?" So now I'm filled with excitement & impatience to read more of these characters that I'll **NEVER EVER** get enough of! **HIGHLY HIGHLY HIGHLY RECOMMEND** Part 3, Lylah James, and the Tainted Hearts series to **ALL!** (Oh and **#SorryNotSorry** for a short review, because I don't want to waste the time it will take you to **JUST READ IT YOURSELVES!**)

I have to say it again, I wished that I had them all at once, so I HIGHLY HIGHLY HIGHLY HIGHLY and YES, HIGHLY RECOMMEND TO ALL!

---

## **Beyond The Covers Blog says**

### Part 1

Okay I have been wanting a really great mafia book lately after reading blood and secrets that book left me with a book hangover for weeks and all the other mafia books fall flat but Omg! This book is everything mafia book should be and then more. Poor Ayla she had such a horrible life before she found her way into Alessio life and home. Everyone needs to read this book.

### Part 2

These books just keep getting better and better when I first started this series I thought what couple needs three books and I was kinda worry that it would become repetitive but honestly book two is better than book one if you havent read this series what are you waiting for.

### Part 3

Omg you need tissue, and you need to be ready to have your heart rip out and by the end have it be put back together slowly. Omg my heart hurts reading this one. This author has become one of my favorite authors I cant wait to see what she does next

---

## **Bookaholics says**

This is the story of Alessio and Ayla. Alessio is the Russian mob royalty who has sworn to wipe out every Abandanato, but he never would have thought that his Italian enemy's daughter would become his lifeline. This story is grittyand yet has it romantic elementary. It was a very entertaining read and I kept wanting to know what happens next. Alessio's father, Lyov already owns my heart (go and read his story) and I really enjoyed how ruthless, yet romantic Alessio can be Lylah James has her mafia facts all correct, she gives us a ruthless hero who isn't afraid to show his softer side without undergoing a lobotomy. Go and grab this series, it's totally worth it.

---

## **Eliza says**

Let me first compliment Lylah for her writing. When starting with book 1 I couldn't stop. I had to read all 3 books after each other about Alessio ans Alya. It was really a heartbreaking romance. So sad and a lot of painfullstoryline moments for me. I have stored these series to reread again and again. If it was possible to give a 10\* rate, them i would have done it. You will not be able to stop after book 1 and will make you addicted to go straight to book 2and finish with book 3!♥?♥?♥?♥?♥?♥?

---

## **Maria Di Pasqua says**

Unbelievably heartbreaking. It took me a while to read all three books but it was really worth it. After reading these books, I am now convinced that soul mates really exist. I admit I skipped some pages because of some gruesome moments but they absolutely needed to be there. If you are looking for a unique love them I highly recommend this box set.

## **Jessica Laws says**

### **Love this series**

This is my first book by Lylah and it won't be the last. It was an amazing read. This is the start to the story of Ayla and Alessio. Alessio is the king of the mafia and feared by all. No one cares disobey because if they do they know it means almost certain death. Ayla is the daughter of the rival mafia boss. She is running from her abusive fiancée that has been abusing her since she was sixteen. She ends up hiding in his car. When they stop and she's sure she won't get caught she gets out. Only to realise she can't get out the gate. She is seen and runs in Alessio's house to hide. She hides under his bed. When he finds her she's brushed dirty beaten and scared. He lets her live but only to be his plaything. But he never intends to fall for her. What ensues is a dark romance tale full of angst, love and heartbreak. Warning this story ends in a cliffhanger!!!

## Book 2

This is a continuation of book 1. You must read the first in order to read the second. In the second book we continue to see how Alessio and Aylas story and feelings continue to grow. We see how Ayla is becoming stronger and we also see how Alessio falls more in love with her. Some see this as his weakness and they strike and take Alyah to a part of her past she was running from. Does he find out who this traitor is and find his Angel? Or is Aylah lost forever? This story had my emotions all over the place. By the end of the book I was in tears and heartbroken.

## Book 3

This is the conclusion to Alessio and Aylas story.

They say the path to love can be hard and these two characters have had it rough. From the first page to the last the story captured me and I could not put it down. This story is full of pain, obstacles, hate, fear, and love. I can only hope we will see more of Alessio!

---

## **Carmen Meza says**

### **Ive been here since the beginning**

This book for sure has to be #1 in my forever favorite books because its an amazing book and has an amazing plot and drama and romance and some hardcore smut for all you freaks out there ? Ive been following her ever since her days on Wattpad and I honestly am so effing proud of how far she has gone and although I was kinda sad when she Removed the book from Wattpad but so proud when she was getting it published. This is the first time im reading the published version and i feel like a fucking proud mother even though she is older than me and could maybe be my mother ?
