The Secret Raven Black

Weather worn missing posters cover the local bulletin board at the diner in the next town. Collins however, sits vacant, crumbling away under the assault of mother nature. People seem to have forgotten the place ever existed or that its population of over one thousand, suddenly disappeared in a night.

Now, Collins has lured another woman into its clutches. She was only one, in a line of uncountable victims that entered and never left. But this time, things are a little different. The odds are against the town...little does it know...she is about to bring it crashing down.

There is a very dark secret, hidden among the buildings, thriving in its large brick factory. Some secrets come at a great cost and should remain hidden. Sara King will discover what sort of monsters inhabit the town of Collins and what has happened to the missing women.
