## Behind the Green Mask Rosa Koire

Rosa Koire, ASA, is the executive director of the Post Sustainability Institute. She is a forensic commercial real estate appraiser specializing in eminent domain valuation. Her nearly 30 years of experience analyzing land use and property value enabled her to recognize the planning revolution sweeping the country. While fighting to stop a huge redevelopment project in her city she researched the corporate, political, and financial interests behind it and found UN Agenda 21. Impacting every aspect of our lives, UN Agenda 21/Sustainable Development is a corporate manipulation using the Green Mask of environmental concern to forward a globalist plan.

I love that this book was written by a Democrat. It shows that the author is not just biased in what she is saying. If it was written by a Republican, then democrats would be thinking, "Oh, OF COURSE the author would be saying these things." Being a democrat and yet speaking against something that most democrats are in favor of shows the author's objectivity and independent thought. Protecting the environment is important, but not at the expense of our freedoms. Everyone should read this book, because this stuff affects all of us. Unless you're one of the rich 1%, you're going to lose if the United Nations has its way.

The more I read, the more I thought the author is demonstrating a "sour grapes" attitude. I was not able to sympathize with her battle against the municipality and in some cases felt that she created the difficult situation herself. I had a very difficult time finishing the book because of her intense negativity.

Must read absolutely essential if you want to understand the way the world is run and why it seems so crazy. Throw the light of day upon the reasons your local newspaper and TV news is full of odd complaints and proposals for restricting your everyday use of your property, your right to travel, your right to be armed, your right to even leave your dog in your own house with the windows open.

Yes, that last one was tried in my home county, also they wanted to pass a noise ordinance so low that you would not have been able to crank your SUV, or allow your children to romp in the park. Those also were

denied for now.....How many ways can Agenda 21 affect you? All ways, just think of an activity, it will be included if Agenda 21 is fully accepted by your local government. Reading Rosa Koire's Behind the Green Mask, is in your best interest if you want to have any choice of any sort over your life.

... This book is perhaps the only one of its kind on the market. Whereas the underground media has been competent at covering Globalist posturing at the national level, little attention has been given to NWO tentacles now ensnaring local political processes. Koire's book exposes this and packs priceless information that cannot be found elsewhere. The book could be more streamlined in its organization of ideas. The arguments appeal to both pathos and logos, are succinct and poignant, and cover the issues from several angles. Combined, these attributes ultimately make this book one of the tastiest reads of the year.

Rosa Koire's book, Behind the Green Mask: U.N. Agenda 21, is the best reading I have found on the subject to date. It is a fascinating read, meticulously researched, loaded with real-life local examples, easy to read and understand, totally riveting, and eye-opening. Her credibility and credentials for writing on the subject are impeccable. Rosa is a liberal feminist, and while I am certain she I do not share the same perspectives on many issues, I am happy to link arms and co-belligerate together with her on the issue of U.N. Agenda 21--an agenda that is designed to steal freedom, prosperity, and personal autonomy from the lives of all Americans.

One of many movements to expose UN Agenda 21 was originally posted on the web under Democrats Against UN Agenda 21 (no spaces, add www.), but don't let that deter you from reading Behind the Green Mask- excellent information on the frightening plan for the 21st century, already in place, and our government continues to implement. This year marks the 20th anniversary of the Rio Summit, where they shall meet again and continue planning the overthrow of liberty in America and the world. If you were frightened by the Holocaust in Germany, read what they are working towards for the WORLD.

If you can look past Rosa being a lesbian, a self-professed liberal and a Democrat, then you have a powerful expose on Agenda 21 which is in large measure the operational plan of the New World Order. It is good to know that stopping Agenda 21 and fighting The Great and Abominable Church of the Devil is something that can unite ALL human beings and this author does a great job of tying it all together.

This is an excellent, must-read book for anyone who wants to understand what Smart Growth and Sustainable Development really mean and what the Green movement in this country is really about.

I downloaded this book onto my PC using Amazon's free Kindle app in preparation for a talk I gave at my church this spring. The information was so excellent that I recommend it to everyone. Although Rosa's political views are very different from my own, her amazing work in raising awareness on the green movement is a reminder that when our Constitutional liberties are being threatened, we must not let political squabbling divide us.

Read this book--it is time well spent and it just might change your perspective on the 21st century environmental movement.

My wife and I happened to be listening to Coast to Coast AM while driving. The guest was Rosa Koire. While listening to this well-spoken, professional, real-estate appraiser speak about UN Agenda 21 my eyes were opened. Rosa is a fantastic speaker who is clear, concise, and gets to the bones of the matter. And that is exactly what she does with her book, Behind the Green Mask.

Rosa's speaking ability and knowledge was so profound (not some ridiculous gibberish by some conspiracy nut) that both my wife and I decided to order her book. And we weren't disappointed in her ability to write about what she knows.

The book itself isn't too long which is perfect. I think this is because Rosa knows how to get her message across, substantiated with amazing facts that you and I can verify online, with clear writing. We learned about how government (Federal, State, and local) are instituting Agenda 21 (Agenda for the 21st century) across America. It has to do with control of where and how we live via the manipulation of zoning laws, property taxes, real-estate developers (big money), and ultimately squeezing citizens into "smart" communities with no recourse of the constitutional freedoms to live our lives the way we see fit.

This is real. Her depth of understanding is unparalleled and it is that strength that has made powerful people come after her. No joke. I urge anyone who cares about freedom to read, Behind the Green Mask. If you wish to understand why malls go in with the same corporate stores ALL THE TIME and why these condos are popping up all the time above corporate storefronts and near transportation corridors, read this book and

get active in fighting the power of the globalists. Don't be a space occupier, a clock watcher, and a consumer.

A handbook for becoming politically active and engaging entrenched power enclaves. The author is on the opposite side of the political spectrum from this reader, but kept me engaged because, in this situation, we are absolutely allies, allied against a common enemy. This is a battle against an enemy within recruited by an enemy without. There are fellow travelers and useful idiots to frustrate and defeat at every turn, and the author demonstrates a thorough knowledge of the battlefield.

Want a good glimpse at the games our government plays in order to control us. This book is written by a Democrat who is a commercial appraiser and gets a first hand glimpse into how local city/county governments all have a master plan to get people where they can be controlled. She gives examples of how city councils are nothing but a bunch of games and gives tips on how to maneuver the meetings in order to push what the citizens really want.

If you do not know what U.N. Agenda 21 is find out. It's very scary what the U.N. wants for U.S. citizens and it's lurking in every legislation passed these days.

### **Joe Rizoli says**

Great book, exposing another world wide scam by the puppet masters through clever political maneuvering of local government. This is happening in all our towns and cities now. My town recently bit the bullet, and drank the koolaid, even though through town meeting and public post how I tried to educate the masses.
