Bigger and Badder is my first book by Jackson Kane. I really enjoyed this book. I mean, who doesn't love billionaire romances? Judy finds herself alone at the annual masquerade ball. She was looking forward to the ball and put a lot of thought into her costume. Too bad her date didn't take as much consideration and left Judy to gamble in the back room. Garrett, and up and coming football star, was also at the ball. Just finishing a fight with his wife, he finds himself saving Judy from a fall. To keep anonymity, they do not reveal their identities, but give themselves nicknames. Rocket and Grim enjoy the rest of the evening and leave with a longing for each other. In another life, they could have been something.

Several years later, Judy is working with her father in City politics when they need the aid of a ruthless billionaire to help save their city. The Grim Reaper of Wall Street is coming to help save their dying hamlet. When he and Judy meet, they have a sense that they know each other. Judy thinks Garrett is a pompous jerk and tells him as much. Garrett is intrigued by Judy and gives her 3 days to convince him to save her town.

Bigger and Badder was a fun read. Garrett and Judy were great characters. Despite Garrett being written with a bit of a cold demeanor, he also had soft spots where his daughter was concerned. I loved the interaction between Judy and Garrett as their 3 days ensued. The day at the arcade was great. Their scenes were funny, dramatic and sexy. Bigger and Badder was a feel good story that I could not put down until the very end.

This book finished at 52%. This book was just ok, I didn't get the link between the story and the title at all. I

struggled to believe the story and the characters so for me it didn't work.

They call him the Grim Reaper of Wall Street. And believe me he's earned it. Garret Walker has a plan to be the youngest man to hit 30 billion by the age of 30. All he has to do is keep making smart decisions and putting money toward a brand new stadium in a dying town is far from smart! But there's only one problem keeping him from turning away from the project..

Judy Sullivan

Judy works under the head of PR for the stadium. And also happens to be the chairman of the boards daughter. But Judy and Garret have met before , they shared one magical dance 5 years prior! A dance so memorable that both of them have thought of the other over the years. For Garret shes the one that got away!

The chemistry between these two just burn up the pages. There was scenes when the only thing i could do was put the book down and squeeze my legs shut!

Bigger and Badder is as hot as hell 5 omfg yummm and awww sweet read.

"Judy's eyes twinkled as she looked at me. It wasn't hard to see the admiration there. It wasn't famous in her eyes. I was special." ~Garret

I mean come on JEESUS! Swoon and swoon hard I did!
5+ Stars (Super Bitch)

Jackson Kane named this book right. Because he brings it Bigger and Badder with his newest book. He keeps you so drawn in that you've finished the book before you know it , and if you're anything like me stuck there staring into space with a big goofy smile on your face! And this my lovelies is what he means by "Romance that makes you sweat!" LOVED IT!

Holy hell I am in love with Jackson's writing style. This is his second book which is a standalone but you'll totally want to read Billionaire Takes All as well. Garrett is so damn swoon worthy and then when we get Judy mixed in with him I'm loving these characters. To see what happens years later will have you wanting to read faster than your eyes will go its such a great story. Of course we're given the ups and downs but that's what makes you ache for what's to come. This is a MUST READ! Absolutely loved this book and can't wait for what's to come next from Mr. Jackson Kane. This is my unbiased and voluntary review.

This sounds like it will be HAF and can't wait to check it out.

This is Jackson Kane's second novel. The first, Billionaire Take All, is available on Amazon. Check it out and you'll see how well Jackson writes and you will be wishing that Bigger and Badder was out now.

Wow!

OK so I'm not really great at reviews. But here's mine .

So Bugger and Bladder: A billionaire Romance popped up and I was instantly intrigued. The cover is very sexy and unlike all the other romance novels I read this one was written by a guy. So naturally I was curious how it would be. And I loved it!!!! It had a great story line which had me sucked right in. From the first meet to when they meet again, to saving the town and all the in betweens. And then there is the hott and steamy romance sceneswhich just knowing a guy wrote it made even that more hotter for me. It was a very great read. I couldn't stop and so now I have a nussy house to clean lol being my first book I read by him I have to say I'm defiantly going to read all his other books!!

Shannon Stuckey says

I loved Bigger and Badder! Garrett and Judy met at a time when neither one of them were available to pursue their instant attraction but a chance encounter 5 years later brings the two back together and makes Garrett question the goals he has set for himself. This is definitely a MUST one-click.

Another home run for Jackson Kane! I felt like I was part of the book while reading it. Garrett and Judy are two strong personalities with broken hearts. I loved how they challenged and complimented each other. He's the strong, dominant type. She's the smart, intuitive, I'm not taking your crap kind of woman! Unexpected surprises pull the pieces together. A must read!!!!

this is my first book by this author and surely won't be my last. I found the authors take on a billionaire romance very refreshing. Judy is going threw hell with her ex doug, and just suffered a miscarriage. Garrett's life is not going very well either he is trying to make his marriage work with his wife. Judy runs into Garrett literally on edge of the dance floor at the masquerade ball. Neither Judy or Garrett can forget about that night. Fast forward 5 years and Judy and Garrett meet up again, Garrett reconizes Judy by the birthmark on her hand. The town that Judy lives in needs Garretts help with the stadium that has been built but not finished. Garrett came of as a jerk at first after meeting one another a again after 5 years. Judy seem like she needs to build up some self confidence , Garrett will be the man to help her do that. You are guaranteed a HEA as well as no cliff hanger.

Two brothers in competition

Their billionaire father's dying wish is to have his legacy passed on to a grandchild. Richard and Lucas have been competitive all their life now each has to aquire a wife and impregnate her to win their father's money. Lucas has to win Molly back after abruptly leaving her at 17. Richard meets Gloria who is not impressed with his money. Will he forego the money and follow his heart? Nice story...

Emily says

Garrett is doing a favor by meeting with a town that is about to go under. He already knows what is answer will be, but he said he would meet to talk about the stadium that will never be finished. Everything is going as planned and he is leaving when a girl he only met once calls him out. Known as the Grim Reaper of business, Garrett should just walk away but he needs to see if Judy is all he had built her up to be. How does he convince the girl that he is making a business decision and it's nothing personal, when to her it is everything.

This was a fun treat. I liked both characters and thought Garrett was initially a jerk but he redeemed himself. Had a few twists that added to the story, look forward to seeing what else this author has to offer.
