AUDRA

I'd never worked undercover. But I danced in the strip clubs before I joined the Army and I knew that world. I knew I could find the evidence Joss needed to stop the men using The Red Door Gentleman's Club to use and discard women who were desperate to bring their families to this country. The images of those poor women, beaten and abused, haunted my thoughts each time I looked at the men responsible. How could anyone be that cruel? How could anyone be that heartless? Yet, Xavier Damico was different from what I expected. Had Gray Wolf gotten it wrong this time?

SHAW

Joss Matthews was a badass and I wanted nothing more than to prove myself to be just as good as she was. Fresh out of the Marines, I thought I had it in the bag when Ash Grayson hired me himself. It didn't matter that my first operation turned out to be babysitting a drunk. It was still a chance to prove myself.

ERIN

I don't do well with intimacy. I don't like to be touched. I don't even like men to look at me. Then why was I in a bar, setting some guy up to see if he could be faithful to his wife? I was relieved when the assignment was over and he was out of my life. Yet, he wasn't. He kept showing up. First at a restaurant and then in my house. And the story he had to tell...either I was about to be a hero, or I was about to magnificently lose my job.

KARI

I walk into that room expecting a stranger, someone I can manipulate, maybe even drug. Instead, there stands my neighbor, but he's not the same, kind, gentle man I thought I knew. And we're caught up on this case together, both working toward a separate end, both aware of the consequences should our covers be blown. Can I trust him? Can trust even exist in this screwed up world?

JOSS

Eleven years ago, Joss Grant Hernandez Matthews lost her son and husband in a tragic accident after a drunk driver made the choice to get behind the wheel. Four years later, she found a good man who brought her out of her grief and gave her a new purpose. But that accident has come back to haunt her. The family of the drunk driver want her to pay for what they see as his tragic death by his own hand. Her daughter is missing and her husband has become a target of this same enemy. Joss is carrying the weight of it all on her own shoulders, unsure of who she can trust and unwilling to place anyone else she loves in danger. They've all lost so much. How can she ask them to risk more? However, Joss is forgetting one thing. Gray Wolf is a family. And family doesn't let family walk alone.

Gray wolf

What a great plot of should I say plots. Enjoyed every word once I knew the characters it became even more enjoyable. Interest enough I can usually figure out the plots, not this time not until it was spell rd out for me

ZETTER says

UNPREDICTABLE, SIZZLING AND ENGROSSING!!!

The series picked up after the incident in Wyoming where Carrington was blackmailed into working with the Mahoney cartel. Things between him and Joss haven't been better since. There was a lack of trust which was understandable considering what he did.

Ash gave Joss a new division to run, she was now the head of a new sex crimes task forces.

Audra

Audra Johnson, a former Army Captain now one of the newest members of the Gray Wolf Security branch in Santa Monica. She was working undercover at The Red Door Gentleman's Club to stop the men from abusing the women who were desperate to bring their loved ones into the US.

Xavier Damico didn't want the life he was now living, he never wanted to be a part of his father's bussiness. When he found out that his father left the club to him, he was about to refuse it until he found himself between a rovk and a hard place.

He lost everything he'd worked so hard to achieve in NYC. The club he ran wasn't even his, it was the Mahoney cartel's since the crime organization was still in business. And his father was one of their associates. Audra was a ray of hope for Xavier.

They liked each other but there was danger looming around Audra in the form of one of the Mahoney's men. When Xavier found out about Audra's secret, he did everything in his power to keep her safe.

Shaw

Shaw Knolls was fresh out the Marines, she thought she made it when Ash Grayson hired her himself. She didn't care what the assignment was, she just wanted to prove that she was worthy not only to Ash but to Joss Matthews as well. Shaw respected Joss.

She was assigned to look after an acquaintance of Xavier Damico's. A woman by the name of Alison Michaels. She needed protection from her soon to be ex-husband who happened to be one of the Mahoneys' lieutenants.

Malik Bailey, manager of the housekeeping staff at the Overton Visa Hotel. He was pleased about how smoothly things were running. So when one of his staff member had a problem with a guest, he took it upon himself to fix things.

When Malik and Shaw came face-to-face the pull between them was electrifying. They got to know each other better and things changed, they became intimate. When Shaw's target was taken from the hotel, they did everything in their power to get her back.

Even though he wanted her to call her Joss and let her what was going on, Shaw still decided to retrieve Alison without Gray Wolf's help. In the end Malik and Gray Wolf had Shaw's six.

The aftermath left some broken hearts but love prevailed.

Erin

Erin Brayden didn't do well with intimacy. She was assigned a case that tested her. She had to find out if one of their clients' husband was a cheater.

Francis Jackson Boone was helping a friend out. He passed himself of as the woman's husband. They had a plan which was well executed even though he did things differently.

Boone and Erin hit it off. He changed the game when he fell for her. She found out some things that put Joss' family in danger and decided to work with him to keep them all safe from whoever was behind the threats. The Mahoneys were the ones that were after Joss for something she had no part of.

Despite both their pasts, Erin and Boone were able to found happiness together.

Kari

Kari Reyes was in a friends with benefits relationship with her handsome neighbor Thomas "Tommy" Roberts. They were both working undercover on a same case so when they came face-to-face to say it was a shock was an understatement.

Thomas "Tommy" Roberts, a FBI Agent took it upon himself to infiltrate an organization that took away someone dear to him. He never imagined that the woman he'd come to care about could meet the same faith.

They worked together to make sure the bad guys got what was coming to them. At the same time Tommy and Kari fell madly in love with each other. I admire the way Kari stood up for Tommy when everything was against him.

Great story!

Joss

Joss Grant Hernandez Matthews lost her first husband and son in a car accident thanks to a drunk driver eleven years ago. She fell into a silent world until she met and fell in love with her current husband, Carrington Matthews and his daughter McKelty (**JOSS**) years later. They saved her from the darkness she was in.

Now the man's family's wanted her to pay for what they saw as his tragic death (such denials people). Her daughter Aidan was missing and Carrington was a target. Joss felt as the world of troubles were resting on her shoulders. She didn't want to call Ash, David, Kirkland, Donovan nor any of the other Gray Wolf Security members.

She knew they all had their own problems to handle but what Joss forgot was that Gray Wolf was family once you're in there's a lifetime commitment, protectiveness and unconditional love, no matter what.

GRAY WOLF SECURITY, BACK HOME is the fourth boxset in Glenna Sinclair's ***GRAY WOLF SECURITY*** series. It was mind-blowing, full throttle, heartwarming and fascinating. Another magnificent job by Glenna Sinclair. Love the Gray Wolf Security series.

P. S. Hope this isn't the end of an incredible series ;).

S. R. Lewis says

Suspenseful but long....

I enjoy the Gray Wolf Security books with their great characters and stories but this group was just too long to get to the end of the story. Still, it was good but not my favorite.

Leasa G says

I love all of Glenna Sinclair's books! This one is a great read as are all the series books. Take a trip down an exciting and dangerous road to understand the workings and mechanisms that create each link in this fabulous family of veterans and security members. Each member building a web of excitement and self fulfillment that challenges their very core. The core of a family destined for adventure and intrigue. Cannot wait for the next adventure to begin.

Kimberly says

Wow!!

Although I LOVED reading this book, I'm sorry that this was the end of the Gray Wolf stories.

Other than some minor things that were a bit redundant, like everyone who was from Illinois, just happened to live in Virden? Even one of the operatives, was from the same farm town. We learned back in GW book 1 that Joss is from there. In GWS book 2, Knox' client-turned-boyfriend, Dunlap is from there as well. As is Kipling McKay. Their stories didn't overlap like Joss' did with the whole Mahoney family, but it was a bit too much of a coincidence for all of these people to be from a small farm town. That's all I'm saying here.

In this book, Ash has Joss open up a branch within GWS focusing on human trafficking. She hires 4 women operatives to work with her on this mission, only to realize that the Mahoney Cartel is trying to finish what they started 11 years ago when her husband and baby boy were killed by a drunk driver, who was their

nephew. He was sent to jail and Ash had him beaten so severely, that he ended up in a wheelchair; years later he killed himself. They are going after Joss with guns blazing and she is trying to stop the madness of Jack Mahoney all by herself, without any help from her Gray Wolf family.

When everyone realizes what she's doing, they all step in to help her end this nightmare.

I hated what Carrington did to her and their family with his infidelity and betraying Ash, but when he finally realizes how amazing his wife is, he gets his act together.

A great story, sorry to see it end.

Joss and Carrington

I don't like secrets and lies in any relationship. So if I could I would have given this book only 3 1/2 stars. Carrington and Joss lied so much in these books. Then they wondered why so much went wrong. I loved all the other books way more than these. Only grouping them together because that's how I read them. I do love the ending though.

Grey Wolf Security- Back Home

This was the conclusion to the Grey Wolf Security series and it was filled with non-stop action, suspense, intrigue, drama and plenty of romance. These books follow the women of Grey Wolf on their difficult assignments and actually find the love of their lives somehow. Even Jossie years ago saved Carrington and his daughter's lives falling in love and marrying. Now the remaining Mahoney cartel was out to make Jossie and her family suffer since Lilith Mahoney Runion's son, Carl, killed himself in prison. He was incarcerated after drunk driving and killing Joss's first husband and son. They were out for revenge even going so far as to kidnap Carrington and Joss youngest daughter Aidan. How the whole Grey Wolf organization came together to take down the Mahoney's was super exciting and very complicated. All the while Joss was working on her damaged relationship with her husband and ironically getting pregnant after thinking it was not possible. This was an amazing series and ended on a high note that was very satisfying. I highly recommend this whole series of books.

Erika says

In this new Gray Wolf Security bundle we go back to Joss and have a new, all girl, team. I like how badass the girls were, and how they admired Joss, but I hated Joss and her relationship. The first time I read about her I felt like she had her happy ending, then her husband screwed her over, and she stayed with him, and that's what I don't get. In this new bundle we see more about her story and her relationship and I just don't get it, how someone like her could stay with someone like him. I didn't like her relationship and I also felt like the whole bad guys after them is getting kind of forced, a new enemy would have been better.

The team of badass girls was interesting and I appreciated that, and unlike other bundles, this time all the stories are directly related to the main theme, which is good. Still, the main plot bothered me a lot because of how forced some things looked, and how unfair her relationship was. I think some would think that she was strong because she made it work, I think she would have been stronger if she had faced the problem and moved on.

Audra

Audra is one of the new recruits, and she is sent to work on a human trafficking case because of her previous experience as a stripper. It is hard for her to go back to that life, even if it is just as an undercover agent. The fact that she is attracted to the bad guy, and that he is attracted to her only complicates matters, but at the end, everything works out.

(view spoiler)

Shaw

Another new recruit, she is a badass that is determined to prove herself, but they realize that she needs to learn that not all jobs are about fighting and put her on babysitting duty. While working as a bodyguard, she meets a guy and starts a fling. Malik is a very controlled guy, but with Shaw he loses control. They start an unlikely relationship, and despite being attracted to each other they realize they don't know enough about each other for a real relationship. Their problems and relationship are interesting and the real issues they face are well described and interesting to read.

(view spoiler)

Erin

Of all the books in the bundle, this is the most idiotic of all. The relationship doesn't make sense, we have Erin, a girl with trust and intimacy issues that falls for a con artist, knowing exactly who he is. The whole thing works in the end, because, of course, it's a book and has to work out, but I felt like the whole thing didn't make sense and it was very idiotic. Again, we have a badass that can hold her own on a fight, but that is really stupid with relationships.

(view spoiler)

Kari

This one was very complicated, first because of the main character's connection and how things happened between them. In general, I liked how they faced their problems and managed to make it work despite the problems. Kari is thrown into a very complicated and very dangerous situation, and despite the problems she faced and the problems between them, having Thomas as part of the equation helped her a lot, and basically the mission worked only because they were together.

(view spoiler)

Joss

The end of the saga is rather complicated and not entirely my taste, the way Joss handled things and how things happened bothered me a lot. I felt like she was strong in everything but her personal relationship, she let her husband walk all over her and hurt her again and again, and still took the blame and worked to solve the problem. I wasn't satisfied with the resolution, even if at the end everything worked out, I felt like again, she had to sacrifice everything for her family.

In the matter of the people after them, they finally solve things, but again, it felt forced, for several books now they have been fighting the same enemy, and it turns out that everything was even more connected than they originally believed, and there are just too many coincidences to be natural, which makes it feel forced and way too complicated.

Wow...

Heart pounding series this was. Another one I wasn't able to put my phone down. Always kept me at the edge of the seat. Unfortunately, I hadn't notice the Wyoming chapter (ugh) but I will go back to read it, although I know how this series ends... I love reading these family oriented stories, especially when they're not blood related. All the individual stories these characters portrayed was amazing. And when they end up happily ever after, I fall in love with the book and the author even more!

Lesley Moulton says

Brilliant fead

I have now read all the series all the sets and would highly recommend these books. The characters and story lines follow through brilliantly through all the box sets. Fantastic.

Whitney Lawrence Morehead says

Great, great read!! I love the Gray Wolf security crew! I love that Joss got her HEA and everyone seems content at the end of this series. I only gave four stars because in Audra's story the male character's name is Xavier in Kari's story his name is Xander. I really hope this isn't the end of this series. I would love to read more about Tony and Mike Spencer.

Paula Lindsey says

Wonderful series!

I've just completed the Gray Wolf Security series and what an awesome experience it has been. This was my first time to read Glenna Sinclair but I cannot wait to begin my next new adventure with her. There is such detailed development of each character (and there are many) . I loved the strength, tenderness, vulnerability, focus, integrity, patriotism and sense of family values of the characters! The various stories are complex, exciting and with many surprises! I highly recommend this series!

Ginny says

I love the Grey Wolf Series and was glad to see that this collection not only focused on new characters but also brought back some of our favorites. I enjoyed how Glenna introduced more strong and independent woman in this series and men that could complement them and not over power them. I struggled initially with Joss and how she could still want to be with her husband after he made the mistakes he did but grew to understand her drive and love for him. In the end I was glad that she did not give up on him and they could both get past their insecurities. I enjoy the fact that Glenna brings us romance along with action and adventure it is the perfect reading combination for me.

Barbara says

Awesome ending to the Gray Wolf Saga!

I love the consistency on the characters and storylines, sexy scenes, also the introduction of secondary

characters having lovers from the same gender. They can be very much of a renegade and have a lover, and Jules having a girlfriend was interesting how that came swiftly into the storyline. I would miss this Grey Wolf family.

Grammar

I've been reading these books as a filler in between murder mysteries. If you want to be taken seriously as an author, let's use basic spell check, grammar, and have someone (ARC) read your work for errors, grammar, and missed words.

The Wyoming series had more than dozen errors. This one didn't start off well.

Btw, COLOMBIA is a country in South America. Columbia is a city in South Carolina. Huge difference.

And this is my last Book. Your readers deserve your best.
