Book Review - HARBOUR FALLS (A Harbour Falls Mystery #1) – S.R. Grey

A crime mystery novel that compels the reader with its intricately woven detail, delivered with perfect execution.

I have read a few crime thrillers lately, all of them being totally unique in their own way, but I must say, S.R. Grey has done an incredible job with Harbour Falls. Not only is it a cleverly written crime/mystery/investigative novel, but also it incorporates a love story that rendered me, at times, totally and utterly speechless.

I read one of the most beautiful scenes in my life, in this book, and it didn't even contain sex – yeah, 'What the hell?' I hear you say. But, hear me out because it was still incredibly intimate and consisted of strawberries and champagne and a very HOT rich guy and an aeroplane... And it made me hungry, a little dizzy (sympathy altitude – or I forgot to breathe, not sure which) and totally envious, knowing that I could never write such a stunning scene, even if my life depended on it!

I'm not going to add a plot overview, simply because the synopsis is enough, and I am worried I will give too much away with regards to the premise. I will say however, that due to the character scale being a little on the limited side, you quickly have your suspicions - not only on what happened but who was the likely perpetrator, but that's all it is, suspicion! Be prepared for it to change at the drop of a hat, therefore keeping the reader on his or her toes, because in all honesty, it could involve any one of them!

Harbour Falls is a compelling read with a refreshing twist that still left me guessing, right until the end!

The author was right in taking this original work of fan fiction and embracing the self-published route to get her work 'out-there.' You can tell that S.R. Grey put everything into this story; it echoes within the pages that every word, every sentence and every paragraph contains remnants of her heart and soul and it was an absolute pleasure to read. I just wish I had taken the journey sooner!

Can't wait for Willow Point, the next book in the series. Great Job S.R.!

4.5 Stars.

Very excited for this release. I'm so proud of her for putting herself out there and writing this.

Update:

Let me start this review by saying that I am indeed friends with the author. I met her through Goodreads a

while back and we have become close since. That in no way changes my review. I take my ratings and review seriously. I know that my fellow goodreads friends and I as well, use reviews to gage whether or not a book is worth our time. So with that, I move on to my review:

After being teased with the first few chapters a few months back, and having to anxiously wait to get my hands on the rest, I couldn't wait to get started once it was finally published. The one benefit to having a friend with such similar tastes write a book is that the book has all the ingredients you love. This book contains everything to get a reader hooked. We get a dose of a sexy alpha Adam Ward, a relateable heroine in Maddie Fitch(even if you occasionally wanted to shake her for being reckless), and an array of side characters ranging from ones we love, and ones we just love to hate, as well as a mystery that leaves you guessing till the end.

The entire story left me on the edge of my seat. Every time I thought I had it figured out, we were thrown on to another trail. As the book progresses, you can't help but get immersed in these characters and their lives, you feel like you're experiencing everything with them. The writing is descriptive and authentic. It's one of those books you get so lost in it you don't even realize how much you read until you're on the last page. The ending left me begging for the next one and set up a sure to be amazing adventure. I have so many questions, 2013 can't come soon enough!

Mo says

Maybe 3.5.

I started this one a while back and stopped reading it for a while. In a bit of a book slump so went back to it again.... The pace picked up a bit and it was a good enough read.

Did not know who to trust and believe while reading it, right to to practically the very end.

Not sure if I would call the ending a "cliffhanger" – it obviously left it open for the next book but I don't know if I really cared enough about the characters to pick up the next installment ... maybe sometime in the future but definitely not straight away.

Serena says

This book will have you guessing till the end

This is a story told from Maddie Fitch's point of view. Maddie is a mystery novel writer living in LA. She comes to her home town in Maine to write a novel about a Non-Fiction mystery.

She wanted to get to the bottom of a cold case file of a disappearance. Chelsea was a beautiful young girl that

was engaged to be married to the town rich kid Adam Ward. Seeming to have everything everybody in the town wanted. Looks, wealth and Adam. No one could understand how one night she just up and disappeared. So Maddie takes on the case. She goes to stay on a isolated island owned by Adam Ward.

Who just happens to be the prime suspect in the crime. When Maddie starts to dig into the bottom of the mystery, that has haunted the town for so long. It seems everyone turns into a suspect or has a reason to hate Chelsea.

Adam and Maddie start up a romance that is knock your socks off hot. But has you wondering the whole time did he do it. The ending will blow you away!

The writing in this novel sets you up big time. The chapter will end with cliffhangers and little hints. It will have you pulling out your hair and trying your hardest not to "cheat" and read the end.

Lady Gabriella of Awesomeness (On Hiatus) says

HARBOUR FALLS basically revolves around *Adam Ward* aka stock market billionaire aka I.T extraordinaire and prime suspect to the island's most scandalous and leading mystery: *THE DISSAPERANCE OF Chelsea* , ward's high school sweetheart and rich fiance,who mysteriously disappers the night before their fairy tale wedding.

Maddy Fitch plays the intruded best selling mystery novelist, whose interest's peak up while coming across the unresolved dissapearance and murder mystery, which could, potently be the plot to her next big murder bestseller.

S.R grey developed the story line immaculately from the beginning to the very end.

at one point of the chapter ,when you think you had the whole plot figured out and u begin to crumpled the suspect list you jolted down by hand , *grey* goes around and changes the whole freaking dynamics that leave you gaping when **your** prime suspect ends up being blackmailed,kidnapped or even worse **DEAD..**

this novel is highly recommend to ANYBODY searching for a good mystery read, with strong leading characters and a twisted end...i don't really want to elaborate on the novel too much since basically almost EVERYTHING is connected to the case or the acknowledged suspect that builds up to its end.

a definite 4 stars from me ! and trust me its deserved !

"Much like the Harbour Falls Mystery itself, the man at the center was a puzzle. And I longed to solve him piece by piece."

It's been five years since Madeleine Fitch returned to **Harbour Falls**. As a famous mystery-crime novelist claiming to get away due to "writers block" Maddy doesn't want anyone to know why she's really staying at Fade Island. She's doing some investigation and research for some inspiration for her next mystery book and what better research then to study a man who was the number one suspect of the Harbour Falls Mystery. Adam Ward and one time high school crush. His ex-fiance went missing four years ago, the day before they were to be married and the case has never been solved. Only Maddy might be a little to curious for her own good as she dives deeper into this mystery. She could be facing some real danger. Possibly loosing her life or maybe even her heart.

Well now! This turned out to be such a pleasant surprise! I'll admit, I don't read to many mystery novels since nine-out of-ten times they're more disturbing then anything else, but I still find them so intriguing. I like trying to figure out the whole whodunit thing and I like the unpredictability of it all. So I'm happy to say that not only did this book appease my curiosity, it also gave me so much more. It was easy to lose myself within these pages. In the memories, the mystery and the romance, captivating me from start to finish.

S.R Grey's writing is strong and confident. She creates such a delicious lively and haunting atmosphere, inviting readers further into her world. I loved how complex and solid all these character seem to be, but at the same time they have a vulnerable side to them making them feel even more real.

Maddy is a curious little thing. Maybe a little to curious, but I still found her determination to seek out the truth to be both stupid and courageous. Anyone could see how dangerous her 'questions' were and while it may have started out to be about her work, it didn't take long for it to be about something else altogether. I have to respect the measures she went through to protect the people she cared about and to do the right thing. But I think it was Adam who really owned this book for me. Ahh Adam Ward. Now here's one helluva complex man. Adam has a lot of colors that make him a rarity, but mmmm, what a delicious being. He's calculatingly seductive, amusingly playful and a cunning tease. But he's also intelligent, powerful, controlling and connected. He's the kind of character that you can't help want to push away and pull closer in the same breath.

I liked all the secondary characters as well. Each has a role to play in this well thought out plot and it was fun to try to make out who was friend and who was a suspect.

The romance was slightly fast, but given the fact that Adam and Maddy already knew each other in high school and are obviously attracted to one another, I didn't see the point in waiting for the inevitable. The chemistry was crazy intense and passionate but it was also quite frustrating how long Grey-the true minx that she is- choose to tease her readers with sheer madness. Lets just say there were a lot of head-desk moments, but totally worth the wait;)

As for the plot, I loved how Grey created such a thoroughly structured mystery. It's sharp and clever and unpredictable. It was a lot of fun trying to solve the whodunit mystery of Harbour Falls along with Maddy. I couldn't for the life of me figure out who was behind it all and was very impressed with the way it ended. Great heart-pounding twist!

All in all, I really enjoyed myself with this book. It has a little bit of everything any reader would want in an escape.

Mystery, intrigue, lies, blackmail, deception and last but not least sweet and spicy romance with some of the best sexual tension between two characters I ever did read! I'm greatly looking forward to reading the next book in this series; Willow Point

Special thanks to S.R Grey for providing me a copy of this book in exchange for an honest review. Loved it!

From the first page Grey engulfs you in the mystery that has haunted Harbour Falls. Maddy is determined to figure it out once and for all. The chemistry between Adam and Maddy is undeniable. I absolutely loved it and could not get enough. You are left in the dark about what is really going on through most of the book. Between the mystery, the suspicious acting people, and the sexual tension of Adam and Maddy, Grey keeps you on the edge of your seat and flipping pages. As for the end....I cannot wait for the second book!!! Talk about a cliff hanger to end all cliff hangers! What a great set up for book two!

Just what I needed, a romance suspense! This story was a mystery begging to be solved and had me acting all Nancy Drew. There were so many key players in this game, everyone was a suspect, and I thoroughly enjoyed attempting to put the pieces of the puzzle together. The story was tangle of lies, secrets and deception, and I just *needed* to know how it would all end. The romance aspect was missing something, and that's where the story fell a little short for me. The intense build up of the romance scenes was evidently there, but there was something a little off about the dialogue exchanged in those moments. Perhaps it felt a little rushed? I felt that those moments lacked a little depth and smoothness. In saying that, this was more of suspense than a romance novel, and I can understand why the romance aspect was not emphasized. I just think had the romance aspect been not as rushed, it could have easily been a 4.5- 5 Star read. Overall, this was a great suspenseful read and I'll definitely be moving onto Book Two in the series!

I needed a change. Something to cleanse the angst-ridden palate I've had riding me of recent. This was the answer. Romantic suspense is a great sub-genre if you haven't delved into it before.

It combines my essential demand for romance with an air of mystery--you can't go wrong. With the right book that is!

Harbour Falls has been on my list for awhile. Finally getting into the mood, I fell into this book and fell in love with it's atmospheric presence.

Madeleine Fitch is a successful mystery novelist who has come back to her home town, Harbour Falls, to gather research for her upcoming true crime novel. No one knows that except her father, the mayor of Harbour Falls, and her publicist. Maddie is claiming readers block to everyone else--why?--the real crime novel she wants to write is about the mysterious disappearance of a woman the night before her wedding.

The groom-that-was-to-be, Adam Ward, a man Maddie knew from highschool and secretly crushed over, was the lone suspect in a case eventually dropped due to circumstantial evidence. The mysterious Adam Ward now lives on Fade Island, just off the mainland of Harbour Falls--and that is where Maddie plans to camp out for the next 3 months. He is an enigma: Hot, intelligent and a billionaire to boot.

However, once Maddie starts digging up old graves and asking questions, she soon finds herself in danger and questioning everything she's ever believed. Not to mention the growing attraction and relationship with Adam that is also wrecking havoc on her secret investigation.

This book was really good! It was very atmospheric and I always felt apprehensive with every new chapter. There was developments galore and I was never bored. The book contains a bevy of secondary characters, each one adding significance to the suspenseful storyline.

I liked Maddie for the most part. She had an inquisitive mind that often landed her in trouble. She was smart, resourceful and vulnerable. The thing I didn't like about her, although tried to understand, was her over-suspicious tendency to mistrust Adam. I understood that with him having been the prime suspect in a now cold case, she held reservations about his truthfulness. But she didn't try and hold back the movement of their relationship. Trust is part and parcel in loving a person so I couldn't comprehend all the breaches she pulled on Adam's trust. But at the same time one could argue it was head vs. heart.

Adam was very mysterious, even at the end of the book I felt I didn't know him much more than at the beginning. He was however, sexy, alpha and charming, so he won me over easily! The few times he was sexually aggressive was HAWT! I'm looking forward to more of Mr. Ward with Willow Point, the second in this series.

This was very much a who-dunnit story and I was glad to find out my suspicions held some merit. There wasn't a cliffy per se, and up until the last chapter it seemed all wrapped up until the epilogue of course, then BANG! we're given a thread almost forgotten with the resolution of the Harbour Falls disappearance. This thread is the segue to Willow Point.

Great story and great romantic suspense!

This sexy, romantic and suspenseful mystery story helded my attention from the beginning to the end and I loved it!

My Maddy and Adam:

***Maddy Fitch** is a best-selling author who comes back to her home town. She is the woman on a secret mission. Maddy plans to do a research on the subject matter for her next book and rents cottage on Fade Island next to **Adam Ward** - wealthy and successful entrepreneur, her high-school schoolmate she had crush on and most importantly, n.1 suspect in disappearance of his fiancé night before their wedding. Maddy is determined to solve this mystery but she has no idea what is she getting herself into...*

The more Maddy digged into this mystery, the more suspects were revealed. And when her feelings towards Adam changed from professional to romantic, things got very interesting. Will her attraction towards Adam jeopardize her research and ruin the possibility of solving Harbour Falls Mystery once and for all?

It has been long since I read crimi-novel and this book reminded me how much fun they are. **Suspense, drama, secrets and danger.** From the beginning it was clear that almost every character was hiding something. With every new chapter, with every shocking revelation, I was changing my ideas about who was good and who was bad character. I do not want to give any spoilers so you will have to believe me that this book will leave you guessing and questioning everything till the last chapters!

I really liked **Maddy**. She is extremely stubborn but otherwise ordinary woman with ups and downs. It was very easy to connect with her character. **Adam** was mystery himself. Romantic but never cheesy. Sensual, charming, sexy but full of secrets. But is he really such an awesome man he seems to be? What is his secret? Is he playing Maddy? **This story will definitely keep you on edge of your seat!**

Moreover, I really loved well-crafted writing style which had this personal touch that made me feel connected with narrator. I cannot wait to read more from this series!

Lies, blackmail, affairs and deceit

Oh, WOW! The romantic suspense genre is alive and kicking! It's been ages since I enjoyed a mystery/romance so much... It reminded of the tons of Nora Roberts, Linda Howard and Beverly Barton's books, I devoured in my late teens. Sexual tension, chemistry, a classic whodunit and so many details, turns and suspense to leave you breathless.

So...

What happened to Chelsea Hannigan?

Six years ago Harbour Falls' socialité disappeared the night before her wedding. No one ever heard from her again. No one ever learned what happened to her. But really who had a reason to harm her?

- ◆ Adam Ward, her fiancé. Rumours are still circulating of their relationship being a façade.
- ◆ Trina, Adam's sister. Her despise of Chelsea was well-known.
- ◆ J.T. Was he involved in this case?
- ◆ Jennifer. She did marry J.T in a hurry.
- ◆ Helena. Her alibi isn't ironclad for that night.
- ◆ Nate. Would he kill to protect his best friend?
- ◆ Max. Who is Adam's security guy?
- ◆ Or is there another, more sinister culprit?

A random act of violence? Or a well-executed plan? Some secrets are meant to remain hidden..

Madeleine "Maddy" Fitch another Harbour Falls' own and an accomplished mystery writer, she is set on solving this mystery. She returns home determined to find out the truth and write her real crime novel. To cheat, lie and con her way to the truth. She didn't count on falling for the main suspect and that there are still people willing to keep their secrets hidden, at any cost.

Maddy is a frustrating female lead. Stubborn and hard-headed, a liar and deceiver she certainly is no better than all her suspects. But deep down where it counts she is just a girl that still nurses a huge crush on the seductive Mr. Ward.

Adam Ward is an enigma. The puppet master or a puppet himself? The powerful and secretive businessman protects his privacy but under his many layers, his beating heart is still alive and has a soft spot for curious Maddy.

Their chemistry is explosive but you can't run forever from your past and you can't escape the future.

In the secluded Fade Island no one is safe and everyone is hiding a secret. Some more than one...

The setting of the novel adds to the despair and the feeling that you can't escape. The island isolates people and emotions. It suffocates you and makes you helpless. It adds to the general mystery and leaves you craving for some sunlight.

The heroes are the same. Exasperating and frustrating, pull your hair out and beat them up until they confess. EVERYTHING.

My heart was pounding and then at the end...

You are gonna rant, you are gonna despair and really...

A job well done for S.R. Grey! Bravo!

I have a ton of unanswered questions and I can't stress enough how much I need the 2nd book!

4.25-4.5 suspenseful stars!

What a ride. After being in a book funk for quite a while and having little time to actually indulge myself in a book, Harbour Falls proved the perfect ingredient in helping me to get that spark back. And WOW, what an ingredient it was!

This book really had everything I was looking for in the moment: a likable (yet sometimes frustrating--aren't they all?) heroine, a powerful, secretive hero, and an intricate storyline with enough clues to keep me guessing yet never knowing. Based on my recent reading pace lately, I FLEW through this. I couldn't get enough, and the suspense was honestly killing me the whole way through.

While I had no complaints with the story, the writing style irked me occasionally. It wasn't bad writing--more so I just wasn't fond of the overall style. Something about the verb tense (especially to start) just seemed a bit off. I'm also not a fan of ominous chapter ending sentences that seem to disrupt the POV like "Little did I realize what was to come." Nothing that ruined the book, but just enough to rate it a tiny bit lower based on my own personal preference.

I knew going in that this was a series. Once I found out the twist (which was kind of one of my theories) I decided I wasn't going to continue reading only because the ending just seemed so perfect--why rock the boat? Especially because I've been having bad luck with sequels that introduce unneeded drama...

BUT THAT EPILOGUE.

What a twist.

I need to know.

I NEED TO KNOW.

An unsolved mystery brings an author back to her hometown with hopes of solving the crime that will become the story for her next best seller. What happens when your prime suspect is a gorgeous and hot billionaire who steals your heart?

This debut romantic suspense included all the elements that make a challenging read and keeps readers on the edge of their seats. I especially loved the setting on a small remote island -- where there are some strange characters roaming around.

Well-written plot filled with dark secrets and heartache, marvelously multi-dimensional characters, and just an all-around fantastic romantic suspense.

Favorite quote from this book:

"Propping himself up on an elbow, he leaned over to press his lips to mine. We kissed-oh so slowly and gently- until I was positively dizzy. Pulling back, Adam said in a low voice, "Oh, Maddy, the things I'm going to do to you."

What I liked about this book:

1. Maddy- she never did what I thought she would do. She also never reacted as to how I thought she would.
2. Adam- broody, sexy, playful, flirty, control freak.... and the list can go on and on and on ;o)
3. I loved that this book kept me on my toes until close to the end. As every one was shady and always seemed very suspicious.
4. I loved that there was a mystery to solve.

Quick synopsis about the book:

****Adam and Maddy had secret crushes on each other in high school. Who knew years later they would end up sharing that secret with each other. When these two meet up with each other again, they fall for each other pretty quickly. Will their relationship survive all that the Harbour Falls Mystery throws at them?*****

Maddy is a murder mystery fiction writer. She's looking to start a new book and what better idea to use for her next novel than the very mystery that plagues her home town and the very boy she crushed on in high school. However, this book is going to be her very first piece of non-fiction. As Maddy researches this mystery and tries to solve it, she will find her self in hot water more than once. Has Maddy bitten off more than she can chew with this mystery?

Adam lives on an island outside of the town he grew up in living under suspicion for years of the towns folk due to his ex-fiancee's disappearance. He's a very rich and successful business man with the need to have control not only in his business affairs but in his personal life as well. Can Adam hold on to the one girl he has always wanted, or will she befall the same fate as his ex-fiancee Chelsea did years earlier, as she unravels this web of lies, betrayal & blackmail?

My thoughts about the book:

This story will have you guessing for most of the book as to who the culprit(s) is/are. This book is full of shady characters and even the two closest people to Maddy on Fade Island will have you guessing as to what they are up to. No one is left out of the suspicion pool or should they even be forgotten about for even a minute.

This book still left me with some questions mainly regarding Adam, the blackmail and what in the world does this man do for a living? I still believe his job has many shady dealings. I hope these will be solved in the next mystery of Willow Point.

Review

'The Harbour Falls Mystery was the real reason I was here. I had every intention of basing my next novel on the facts of the case. I was tired of fiction; I wanted to write a true crime novel. Plus there was a little part of me— the detective that lurks in all of us— that dreamed of solving this case.'

Maddy Fitch is a Best selling mystery author living in L.A. which is a long way from her hometown of Harbour Falls, Maine. Until now all of her stories have been literary fiction... Maddy recently decided to go home in order to research the mystery surrounding the disappearance of Chelsea Hannigan. A wealthy social lite in Maine.

The facts surrounding the case are not well known. What Maddy does know is that four years ago at the time of her disappearance Chelsea was engaged to marry the mega rich and extremely sexy Adam Ward. Adam

became suspect numero uno in her disappearance. Eventually the case trail went cold... Maddy plans to rectify that, hoping her research will in turn solve the case as well.

Maddy is greeted by the **unwelcome** home party fairly quick.. Prompting her suspicions and fueling her need to solve the case.

“Go back to California where you belong, Fitch, before you end up getting hurt. Or worse.”

Yup, she catches heat on day one of her arrival. But, you know what they say. *If you can't take the heat then get the fuck out of the kitchen.* Well, let's just say Maddy can take the heat and then some...

After her arrival Maddy meets with Ami, her former best-friend from high school and current realtor/escort to her newly rented cottage. They catch the ferry from Harbour Falls to Fade Island where she will be staying. Upon arrival Ami explains how this is the off season which means the island's only occupants are far from many. But it's the name of one neighbor that has piqued Maddy's interest. Adam Ward.

Maddy remembers Adam from high school, in fact she had a crush on him. Ami remembers this tid bit as well and is quick to point it out.

All it takes is one look. Yes, one look at Ward has Maddy wanting him more than ever in every way that counts, up close and personal. It doesn't take long for Maddy to realize that there is more to Adam than what meets the eye.. In fact it takes her less than 24hrs to draw that conclusion...

'Much like the Harbour Falls Mystery itself, the man at the center was a puzzle. And I longed to solve him, piece by piece.'

Maddy jumps head first in to research; she catches a lead and follows it but comes up just short. Or so she thinks. Meanwhile things heat up fast between her and Adam.

“Do you think I just want to fuck you, Madeleine?” I stifled a moan, and he laughed softly.
“Or is that what you're looking for? A good, hard”— Adam rocked against my hips— ***“fuck.”***

'I wanted Adam in every way imaginable. I was sure he knew his words made my body ache for his touch. But it was more than that. Despite everything I was clearly falling for Adam a little more with each passing day.'

Slowly more pieces of the dark case come to light, causing Adam to look guilty.

“Wouldn't it be poetic if you found out you were sleeping with the enemy, so to speak, in this little scenario?” ~Jennifer

She's in too deep...

'It was, but it was no longer the only reason. Yes, I was here to research the mystery so I could write my next novel. But now that I was involved with Adam, I knew adjustments would have to be made. I wouldn't be able to just recklessly recount everything I'd discovered.' ~Inner monologue of Maddy

But he is not the only one. More people start to become suspects.

Some say the truth shall set you free, in this case the truth may just get you killed... Soon Maddy's life is in peril when she digs too close to the truth.

Did Adam kill her or not?

“No more games, OK? There’s one thing you have yet to ask. So just get it over with, ask me.”

“Are you serious?” My voice was incredulous. I hadn't expected this. Adam's eyes, dark as cobalt today, met mine.

“Deadly,” he replied coolly.

This Suspenseful romance will leave you guessing til the very end as the twist and turns lead you on a treacherous path of

And a jaw dropping conclusion.
