I was sad to see the Moretti Novels end, but I was very excited for the new series!! We meet Damien in Untamed, Moretti Novel 5. Damien is Steve's cousin and briefly dates Lily until he is introduced to Mia, Lily's sister.

Damien is attracted to Mia but knows he is starting a tour with his band Liquid Regret.

Liquid Regret start shortly after Moretti Novel 5 ends but you don't need to read the Moretti Novel(but you really should..they are great). Damien is out of control, drinking, womanizing and getting into fights. The label wants to drop him and the band if he doesn't get his act together. They make up a rumor that he is engaged to a super model who also needs the publicity.

One night the band goes to a bar and Mia and her friend are there. They rekindle their attraction and start a relationship but have to keep it a secret because of his bad publicity.

Have your tissues ready because a tragedy affects the band and Damien comes clean to the public and fans about his love for Mia. I can't wait for the next book in this series. You will fall for Damien and his band mates!!

Oh my freaking god! I don't even know where to start this review!

I adored this book! Like I can't gush about it enough! Let me try to explain my feelings without giving anything away!!

I always wanted Damien and Mia to get together, I knew there would be a story I wanted to read but I didn't realise what an epic story it would be! I loved the sexual tension between them, the longing that they had for each other, but god there were points I wanted to knock some sense into them!!

And then....well then something happens and there was my 'Oh fuck' moment! I swear MJ is trying to destroy my heart! I ugly cried...that's all I will say! She destroyed me!

This book was amazingly written, there was a bit of everything in it. Drama, sexual tension and a lot of hotness, but more than that there were real emotions, real fears and real characters. I could have sat and read the full series in one sitting.

I am waiting very impatiently for the next part in the series....but I demand it now!! <3

ARC provided in exchange for an honest review ~ Sanne - Scandalous Book Blog

Damn you, damn you woman! ;-)

If you even have an inkling that you know what this story will be about, think again! You will be completely and utterly mesmerized when you finish this book and finish it you will; fast!

I have got quite a few arc's to get through and this was supposed to be just "the next one" on my list... Yeah right! I just knew the moment I read the blurb just before starting to read that I would be in for something special.

And here I am, in my bed at almost 3 am in the morning, crying my eyeballs out, writing my review after finishing the book in about 2/3 hours!

I could just keep writing and writing but I can tell you that it won't do justice to this incredible story and yes I do realize that I told you nada! But you just have to experience this on your own. Just a few more sleeps and this will be yours to cherish as well, get one-clicking people!

Amazing!

Okay, this book had me all kinds of emotional. I love the characters and stories. It is hard for me to express how much I really love this book. You have to read it for yourself to get it.

I am so excited to read the rest of the series and have MJ's entire collection now. I can't wait to see what she comes up with next.

Thank you MJ for introducing me to your work.
You rock lady!

Damien you can tell right off this boy is head over heels for Mia, "do I hug her? I'm not sure. Eff it. I pull her into my chest, burying my nose in her hair. Every nerve ending in my body is instantly alive." He's also the voice of reason when Mia can't be reached, "Damien puts his hands on my cheeks. "Breathe. It's ok. I'm here with you. It's just a power outage or something. You're safe." His chuckle makes me furious. "Baby, you need to breathe." Damien is always hungry, well for something that only Mia can provide, "I'm hungry, baby. You're going to come over and over again until I've had my fill." He's always in a constant state of horniness when around her as well, "her nails scratch my chest as she bites my nipple. I'm instantly hard. It doesn't take much with her. My c*** has a mind of it's own. She's cooking? Yep, that's hot. She's painting her toes? Damien Jr really likes that." I think this is another series that MJ will excel in.

[The heroine is in love after only spending a week with the guy over a year ago? The hero has been bedding every girl that looks like the heroine because he wants to "fuck her out of his system"...**Puhlease**.

Then after randomly meeting again in a bar he wants to be with her even though his manager has come up with the most ridiculous story of him being engaged to a model

Freaking devoured this book

I've had this on my kindle for a while, don't know why I hadn't read it yet!! Absolutely freaking loved it. I am crushing on these characters hard, I mean who wouldn't?? Sexy rock stars, hot sex and a intriguing storyline. So check this book and series out!

I am not a fan of stories where there are baby mamas. I wish the synopsis would have indicted that the hero had a kid with OW. Not in the mood for that type of drama.

Not for me, but may work for you.

I have to say that I'm a bit surprised by the really high reviews for this book. The characters didn't suck me in at all, and weirdly, the supporting cast was much more interesting than the main couple.

Scandalous Book Blog says

I had no clue about this book because Sanne (Co-Blogger & Partner In Crime) was the one who signed up to review, but it was my week to set up post and you would never guess what I came across.....Yep, once I read the Blurb I had to read. It felt like a magnet just pulling me in.

Oh Wow.....MJ Carnal did not take this one easy or fun loving. Right from the get go this book took off like a stallion on a mission to win and by God I was going to hold on for one hell of a ride.

A few things in this story shock the hell out of me and left me in completely mess.

I am going to take a page from Sanne's book and not give one single thing away about the plot apart from

that its a fantastic one and its sooooo worth a read.

GIVE THIS STORY A CHANCE it will hit you true and hit you hard.

I have being a big fan of MJ Carnal for a while now and I could not pass up the opportunity to read her latest offering and you should not either.

This is a wonderful story of Love, Lost, Regrets and Love concurring all with a ton of challenges thorn in of course.

I highly recommend.

5/5 Stars

Well what can I say about Liquid Regret? M.J.Carnal has given us a fantastic story that mesmerises you from the start.

Liquid Regret are the hottest band on the circuit, led by Damien "D Rey" Reynolds. He is super sexy, but he is living a life of regret. He regrets leaving Mia Lee behind. They only spent a week together over a year ago, but neither of them can forget it.

All the characters have their own special traits & blend together wonderfully.

This story will have you feeling every emotion possible. I absolutely loved it & did not want to put it down.

I am so very glad that there will be more books in this series.

First off. That cover. Sigh, that cover.

I really wanted to like this book. Like REALLY like it. I just couldn't connect to it. I found myself at 50% still thinking it lacked something but I couldn't say what it was missing. I just never connected to the characters and didn't really care when one died. Now that's sad. Being as I bought six books by this author I'll obviously try another. The damn cover drew me in.

Bookish Addict says

Great writing but the story line is ok. I didn't care for either characters and their second chance love story. I thought it was weird with too many lies, but hardly any drama other than the murder mystery side story that was never resolved in this book. I assume will have closure at some point in the other books. Not a bad story, just not to my liking. I thought the side characters were more interesting.

You're not my secret. You're my life...

OMG!!! I fell into cover lust when I saw this book...those tats...those eyes...sigh. Wait until you meet him in

the pages of Liquid Regret, you will fall even deeper. If that's not enough, the song lyrics will take you the rest of the way under. Just imagine him singing this, "You'll call me sir as you shatter on cue. A flick of my tongue, I'll own you". You will fall in love with all the band members in Liquid Regret. They are brothers, a family that stands together through anything. I know this because, they have been through everything...painful pasts...addictions...loss. I went through so many emotions while reading this book, at one point I was tempted to look up Rachel's phone number, I needed some counseling too. The story is told in multiple POV so you can really get into their heads. I had a giggle snort moment when I read, "I need to stop with all the Criminal Minds marathons. My imagination is working overtime". I am really looking forward to more in this series, I can't wait to get my hands on Liquid Courage.
