The Billionaire's Unwanted Baby

Lacey Legend

The Billionaire's Unwanted Baby Lacey Legend
An Amazon.com #1 Bestseller!

THIS IS A COMPLETE ROMANCE NOVEL, NO CLIFFHANGERS

A one night stand with womanizing billionaire Lance Carter was never going to end well for Grace Jordan.

But she didn't think it would ever get as bad as this.

A few months on from their night of passion, Grace has discovered she is pregnant. Having lost her job and on the verge of losing her apartment, the timing could not be worse.

So she goes to Lance for help.

However, the young playboy barely remembers her name and makes it clear he has no interest in helping her or the baby.

Now Grace is all alone with no one to turn to but just when she is on the verge of giving everything up she is about to find the help she needs from the most unexpected of sources...

If you love a billionaire romance that is different from the norm and will keep you guessing to the end then this is it, scroll back up and start reading this now! (also FREE for Kindle Unlimited Users)

Amanda says

Good

Brother Lance was a manipulator. All he cared about was money and his selfish ways. Well we do eat the fruit of what we sow. He losted it all because of it.

Tonileg says

Contemporary rich guy that you never see working finds love with the pregnant one night stand cast off from his brother.

I've read a lot of fluff etc... in my many years, but this was particularly silly. The evil brother had nothing but evil and selfishness which almost put him into the fantastic because it was too crazy for reality. I liked the lost little preggers lady, but she was run over so many times by everyone but Henry (and only because Henry wasn't really paying attention).

Didn't like any of the character or the crazy situations like moving in a total stranger into your home and life only because she says that she is pregnant with someone's child. Too crazy!

200ish pages and kindle freebie (I wouldn't pay for this silliness!)

2 stars

Lorice DeBlanc-Brim says

It deserved ten stars

Rose Baker says

Way to repetitive

This book was almost painful to read. The dialog between Grace and Oliver was way to repetitive. T h eyes would say the same thing to each other two or three times in the same paragraph. Oliver's brother, Lance, was an A1 a** and I could not believe how Grace and Oliver put up with him. Main characters are pretty well developed, but very weak. Story is okay, but I wanted to slap Oliver and Grace at times for letting Lance get the better of them and for being so sappy. Not a fan. Will not be looking for more from this author.

Mia Smith says

Sorry *Spoilers*

I realize that not every writer will be a NYT Bestseller, therefore I was not expecting a whole lot when I began reading this book. While everyone can appreciate a Cinderella love story, it was beyond unbelievable. The book moved at such a fast pace at times that I don't see how we were supposed to believe what we were being told. I for one couldn't imagine as a Black woman deciding to move in with two white strangers just because I was pregnant by the third. Lance's ability to stay hidden from the action throughout the majority of the story made it impossible to believe that Oliver's love for Grace was real. How could you let the woman you love deeply, quickly become one with the brother you knew for a fact was beyond irresponsible and just overall mean. I gave the book two stars because it was easy to follow and it sparked my attention.

Sonya says

This was so sweet and romantic. A tale of two brothers one a jerk and one who was an amazing man, husband and father. I really enjoyed this book!

Victoria says

It is a great book to read

Mardi Sauve says

Thank goodness for family!

I loved this romance and the story would probably not be in my all-time favorite tales, but I really enjoyed it from start to finish and would recommend it.

teoshia smith-bey says

Ehh...

The story was kind of unrealistic in my opinion, the progression of Oliver and Grace's relationship was laughable. How easy they were fooled by Lance was downright unbelievable. Just a mediocre read.

Laverne Brewster says

3.00 stars. My first book of this author and I found the book to be an okay read. The opening scenes of the book revealed that the primary focus of the story would be to establish the differences between the brother's morality, integrity and disposition, Lance Carter is an irresponsible entitled womanizer, while Oliver Carter is dependable restrained and resourceful. The brother's moral compasses did not seem to be polarized by sibling rivalry, so I was not expecting a love triangle involving the brothers and the heroine, Grace Jordan. Although the act of impregnating Grace as described in the story is called a one night stand, it read like rape.

To move the storyline to its ultimate conclusion, the author told readers that there was an immediate and mutual attraction between Oliver and Grace; to further move the plot and get Grace living in the Carter Estate where Grace's and Oliver's love is to bloom, the author diminished the story's heroine. Grace came across as an addlepated nin-com-poot, a young woman with little education, no goals, ambitions or plans. In the end, Grace and Oliver prevailed and were celebrating 25 years of married bliss with their 4 children. They limped and struggled through the pit falls of Lance's efforts to separate them and to capture the bulk of his father's fortune.

Roshawnda Simpson says

This story only gets 1 star

I give this story one star and that is only because I can't write a review without any stars the main character grades with an idiot a complete idiot from the beginning it showed how Lance was selfish. But I continue to read and see my disappointment it just showed how idiotic all the characters were. There's just so much that is wrong with this book that I don't have enough time left after reading this to write about Lacey please do better next time. This story was beyond disappointing and a waste of time.

Margaret McGovern says

Very good contemporary billionaire romance

4 stars I think it's always good when an author can make a reader have strong positive or negative feelings towards a character. Lance was someone who was a spoiled jerk. Grace was sweet but her one night of drinking too much came with consequences. Lance walked away from her for months after finding out about the baby. His brother, Oliver turned out to be the more mature of the two. They started as friends and fell in love in spite of the pregnancy. The book keeps throwing new scenarios at you when you start to think the book is ending. Also know, I loved the epilogue. It's not something we often see, thanks. I look forward to reading more of this author's books in the future.

Mica says

This book was absolutely nauseating to read. Initially I thought it was just corny but as the story developed I became disgusted with it. All the conflict is built on miscommunication. As if that wasn't enough the FEMALE author has to create a stupid FEMALE lead. Her constant ignorance for the sake of a sub par plot is truly disheartening. By the time she agrees to leave her baby I'm so utterly repulsed and that this trash was created by a WOMAN truly pisses me off. Never write again if you are going to produce trash like this. Literature lives on forever and this kind of bull never needs to be reproduced. It's hard enough for women without other women producing books that reflect badly on the entire gender. Is it so difficult to actually take the time to think of a solid plot where you don't have to sacrifice the intelligence of the female lead to manufacture conflict. You went too far and you should be ashamed to even have your name associated with this crime against women. I wish I could give this piece of shit negative stars and burn every last copy to wipe its existence from the face of the earth. That's how much I despise books that sacrifice the female lead for mediocre drama. But to have her ignorance go so far as to abandon her child says more about you as a

woman. Never write again because you suck.

The Book Junkie Reads . . . says

FairyTale HEA

This is an interracial FairyTale HEA. That ultimately affects the lives of Grace, Lance, Oliver, Henry, & Mason. There implication are felt for a lifespan.

These four live, plus one in the end, takes on interesting turns from one night of events only one of the two involved can completely remember. I enjoyed the initial contact of Oliver and Grace. I love the connection that he felt upon meeting her. Not withstanding the way they came about meeting. There was a connection between the two. There were points that the story flowed then it felt as if things were moving too fast. But ultimately I felt the story was amazing. There were a few points that I wanted to pull Oliver aside and ask him WTF. Then the other times I just wanted to knock Lance out. He was just way too self absorbed.

In the end, Henry set things to right.

Deedee says

I think my favorite part of this book was the epilogue. A very good ending to the book. Other than that I will say the book had no true flow. The characters were likeable but how the story progressed and flowed was just flat. But I guess it was an okay read.

And as always.....Happy Reading!!:)
