Some of these Miss Marple stories are stronger than others, but *The Mirror Crack'd* and *The Body in the Library* were pretty much perfection. And the other three were well-worth reading.

Kaye says

The Mirror Crack'd -- very satisfying! Ms Christie presents a whole cast of characters as possible villains, but none quite fit the bill. Then, when Miss Marple presents the solution, it seems so obvious. I always wonder why I didn't see it before.

A Caribbean Mystery -- very interesting! The author had me convinced of who the murderer was, and then convinced again that an entirely different person was the culprit. She even cast doubts about the most innocent characters. What a puzzle! Of course, I was wrong all along.

Nemesis -- an impossible puzzle! With no information at all, still, Miss Marple is able to solve the mystery. I almost solved it - so close! Only near the end did all become clear.

What Mrs. McGillicuddy Saw -- As usual, a surprising villain. Christie is a master!

The Body in the Library -- What a clever author! She make you suspect everyone except the real villain.

I just finished the 4th book in this collection: "*What Mrs. McGillicuddy Saw!*" I really enjoyed it and there were tons of characters and details for me to sort out. I never would have guessed the actual person. I am currently reading the last book in this treasury. I love Miss Marple mysteries. However this particular version of these books by this publisher is not edited very well. There are many typos and wrong words In the middle of sentences. The books themselves are great stories though!!!

Thomas Ceneri says

I've read *Nemesis* and *The Mirror Crack'd*. I enjoyed both because I love Miss Marple. However, *Nemesis* for me was the darker of the two, it being the last mystery that Christie wrote while alive (she had one saved for after her death). It involved two sisters and their secrets.

The Mirror Crack'd is a lot of fun and about Hollywood. You'll enjoy both!

Prakash Murthy says

Classic Agatha Christie mysteries. Enjoyed reading all 5 novels included in this collection. Quick and easy read as well. `Nemesis` is quite likely my favorite among all the Agatha Christie novels/stories I have read so far. Very interesting fact that it was the last book she wrote before her death.

This edition of the book is poorly edited with many typos - which seem to break the reading rhythm regularly. Also, the order of novels is messed up. `The body in the library` should be first, but is included last.

Nicola says

"Agatha Christie was the greatest exponent of the classical detective story. Her unique literary talents have crossed every boundary of age, race, class, geography and education. While she refined the template for a fictional form, the reading of her books became an international pastime." John Curran

I started reading and collecting Agatha Christie books when I was 9 years old. I adored her books and still do. There is a great comfort, as an adult, in reading her books and acute observations of people that favours style over the penny horrors of sadism, torture, and graphic violence favoured by some authors.

Becky says

I love Agatha Christie, and I think Miss Marple is my most beloved of her detectives.

And then there were none...

Glad to have finally read this, as I've been saying for a couple of years now that I would pick it up. I quite liked the fact that each story was so unique in it's formula and it's characters, although not having read much Miss Marple before, I did find it a little odd just how little she featured in the stories sometimes.

Carrie says

I really liked The Mirror Cracked, A Caribbean Mystery, and Nemesis. the other two stories were okay, but not as interesting. I was disappointed by the character development in What Mrs. McGillicuddy Saw. It was

weak.

Shannon says

Not as good as the Poirot books. They are well written books and I would have given another 1/2 star if I could, but I just couldn't give 4 stars. I found it kind of annoying that the best and brightest of Scotland Yard were consistently made to look like blind idiots by an old lady armed with nothing more than a knack for recognizing personality types. I'm maybe just getting wise to the tricks but I found the Marple novels more predictable than the Poirot series.

Erika says

Again - I've read every mystery I could get my hands on from Agatha Christie so I'll just give a general review. Her books are timeless and amazing. I even own a few - since I have the happy problem of never remembering "whodunit" it's new every time!

Susan says

I have wanted to read some Agatha Christie for a long while and thoroughly enjoyed the twists and turns that each story had. I was taken off guard quite a bit, which I loved! My only problem was with the portrayal of people being incapacitated or lacking due to their ages. I had to allow that the stories were in a very different time frame than now. Worth a read.
