To the Depths of Hell

Scott Hildreth

To the Depths of Hell Scott Hildreth

Librarian's Note: This is an alternate cover for ASIN B00IU9DK8C

CAUTION This book contains graphic scenes of violence and erotic sex **YOU HAVE BEEN WARNED.**
Formerly published as "DYING TO SURVIVE"
A psychological mind f*** of an Erotic Thriller.

A woman is abducted and tossed in the trunk of a car and driven to a remote location. Moments later, she is moved to the basement of her abductor's home and placed into a room with three other women, all of which resemble her. Confused, scared, lonely, and in constant fear, she waits – struggling with her feelings of mentally abandoning her child. Soon, psychologically, she attaches herself to her captor.

The abductor, after a few days, opens the door and explains the following to the group of women.
“Tomorrow morning, at eight am, one of you will forfeit your life to save the other three. If one person isn’t willing to die, everyone will die.”

Ryan Capshaw was raised at the hand of an abusive father, and grew up believing he was worthless. To prove his intelligence and self-worth to himself, he has devised a plan to abduct, torture, and murder four women - one of which decides to challenge his plan.

“To The Depths of Hell” takes an in-depth look at the psychological aspect of abduction, various unmentionables, murder, and living as an adult after an abusive childhood.

Prepare for a trip that will leave you guessing, wondering, and contemplating how you would react, think, and prepare to either die, or be a survivor.

CAUTION This book contains graphic scenes of violence and erotic sex **YOU HAVE BEEN WARNED.**

From Reader Review To the Depths of Hell for online ebook

Brianna says

Well, fuck! I was a little afraid to pick this book up because I knew it was going to fuck with my head. Yeah, uh, it definitely did.

I'll preface this with a few things...

I'm a single mom

I've used online dating sites

I'm 5'10"

And... I'm brunette

When you read the book (and you definitely need to) all of those things will make sense. It freaked me the FUCK out! I literally shivered on multiple occasions!

Regardless of my hesitation, I went there and I loved every nail biting second of it! I love that Scott writes books that are unlike anything else out there! Scott Hildreth is BOSS!

Ryan Capshaw is something else. He's one of those guys you don't want to meet on the street because he's gorgeous, wealthy, polite and completely FUCKED in the head! Did I mention he has a psychology degree?!?!

Don't even get me started on Ami! That bitch is cray-cray too and I didn't even see it coming!

If you can handle dark, sadistic mind fuckery with lots of HOT sex scenes then you will not be able to put this book down!

Scott Hildreth says

This review is for Dying to Survive and/or Plenty of Fish.

Varying from his typical approach, the author has written this erotic, dark, suspenseful thriller away from his first person norm. We all know, first person perspective doesn't work well when people are MURDERED.

One word describes this book:

HOLYFUCKINGSHIT.

Ryan Capshaw was abused as a child. Now an adult, Ryan lives the life of a wealthy loner. After devising a plan to abduct, torture and murder four women, he puts his plan into action.

After placing all four women into a concrete cell that he has constructed in his basement, he opens the door and gives them the following instruction, "tomorrow morning at 8am one of you will forfeit your life to save the other three. Have a good night see you at 8am."

The twisting, turning plot that follows, isn't what anyone that reads this book would expect.

And the sex? Oh my fucking God. Rape? Yes. Double penetration? Yes. Consensual sex? Not so much.

This book redefines what an erotic dark thriller needs to be.

And the ending? One word. OUTFUCKINGSTANDING.

Brooke says

ugh..ya know how u feel when u watch a show and u think "i just lost a couple hours ill never get back!" thats how I felt abt this book. I finished bc im not a quitter but this shouldve been a dnf. just didnt do it for me. if ur looking for a dark, erotic read....look up "tears of tess." I really hate reviewing like this :(

Nawal says

2.5 - 3 (I really have no idea how to rate this, storyline was great but there were other issues)

This story line was actually pretty great. It seemed perfect for a dark lover like myself. There's a fucked up hostage situation with four women. There's also a psychological trauma aspect related to it too about trying to survive this horrendous captivity. And then there's the fucked up childhood that both the main characters experience. You'll be introduced to that whole scenario so I won't go in to detail about it.

The first half was brilliant. I was kept intrigued, second guessing what would happen next but then it sort of ended a little too quickly for my liking. I think if the reader was kept in suspense for a little bit longer then it would have added to the readers experience. I also couldn't understand some decisions Meghan made after being asked by Ryan to carry out a task. I didn't really understand it thus another reason why the second half kind of went downhill.

There was also a lack of BDSM when I believed there would be tons of it. It's not a bad thing for it not to be included however I feel because I was expecting it and I didn't get it, I was left slightly disappointed.

This book isn't really supposed to be about character emotions, connection etc. It's a story about some incredibly fucked up scenarios, and different incidences that take place. I really liked the overall message about providing a sustainable growth environment for every child because their childhood effects the choices they make as adults. I agree, nurture definitely plays a role so one cannot really blame a person for their decisions if they're simply a product of their environment. It definitely reminded me of the 'Psychopaths in suit' concept. They definitely make great businessmen.

Overall, I think this storyline is one which will keep your interest. It makes different questions arise in your head about people and their childhood and their life decisions. There are certainly areas for improvement, which would have made this read even better for me. But I look forward to reading more of Scott Hildreth's works.

~ **Stephanie Lynn** ~ says

Before I start my review first I want to say

First off I want to commend Scott for not giving up. For those who do not understand what I am saying this book was

BANNED 3 times with Amazon.

Which is total horse sh*t!!!

Clearly you can read **IT STATES:**

CAUTION* This book has scenes describing the abduction, rape, murder, and torture of living people. Additionally, there are graphic scenes of sex, not all of which is consensual. YOU HAVE BEEN WARNED.

Given it states this clear as day if you feel that this is not up your alley **DO NOT READ IT!!!** And do not punish banned or flag other authors books if it does not appeal to you.

Sorry for my RANT.

Now on to the most important part....

MY REVIEW

4.5 FABOULOUS HOLLYF#CKINSH*T TWISTED MIND F#CK STARS

Once again I am floored by Scott and his writing.

To you Scott for a job well done.

I am going to do my best to not give anything away in my review. So here I go.....

Ryan ~

Ryan Capshaw was abused as a child by his father. His abuse had occurred over years. No one paid attention to what was happening to him not even his mother. But as Ryan got older he suspected his mother knew.

What would you do if you were in his position?

You think and wonder, What happens to these kids?

What will they become?

What will they turn into?

If you were in their place how do you think it would effect you once you were older?

Would you be normal?

Yes? No?

Who knows.

“Children. Pay close attention to them. They grow up to be adults. The really heinous people we see on the news? The serial killers, murderers, rapists, and complete ass-hats of society? Yeah, they were children once. And no one paid attention.”

Ryan Capshaw is definitely a very wealthy, dark, sexy and twisted man.

AND I LOVED HIM!!

Yes call me a sick twisted women. But it is true.

He is also a psychologist but never practices. Well not in the traditional way.

Ryan Capshaw kidnaps 4 women. Over a months time.

All of them look very similar.

And he places them in a room together. With rules of course.

He tells them that

"Tomorrow at precisely zero eight hundred hours one of you is going to die"

And they have to choose the order of who dies first. And every morning following that they will have to decide who is next till the last girl is left. If they do not decide then ~

ALL OF THEM DIE.

Sick?

Insane?

Well to Ryan this is a game.

The way he found these women will amaze you and make you think. Seriously think.

So let me say something about one of these girls. I am not going to go into detail of all of them just one.

Elena.

OMG! I could not stand her. CAN YOU SAY....

But can I really call her that because it is really about

RIGHT?

You will ask yourself, what would I do if I was in these girls position?

How would I decide who dies first?

Could I make a decision like that?

Just when you think you figured this book out.

BAM

You telling yourself damn I did not see that coming.

Basically you are taking a ride on the freaking crazy train and you are wondering WTH just happened.

The way Ryan talked freaked me out (but I loved him) because he was so calm like a psychopath in my mind would be. Insane but not insane hard to put into words. You have to read it to see what I am trying to say.

One of his captives I will not say who but she is attracted to him. From the get go.

I know your asking your self WTF? Right?

Ryan also has never been with a women. (Sexually) EVER!

But let me tell ya what a ride that was. LOL

Once he had a taste.....**DAY-UM**

And then the game changes again.

And again.

I was shocked so many times reading this book. You never knew were it was going to go. And I love books that are like that. Always keeping me on my toes so to speak.

This book has sex, murder and love yes I said **LOVE**.

You are going to be asking yourself questions throughout the book.

One of those questions would be ~

As a human being how far will I go to SURVIVE?

I did not expect the ending.

I really did not seeing it coming and that is another reason I loved this book it was **ANYTHING BUT PREDICTABLE**.

I recommend this book to anyone who loves dark, twisted and mind fucked books. So braced yourself for the ride.

But remember read with a **OPEN MIND**.

This is not for the faint of heart.

I know a lot of people are going to not understand why I rated this book the way I did but I will have to say I understand what and were Scott was going with this book and look forward for the story to continue.

I can not wait to see what Scott comes up with next. With his new genre of **SLAUGHEREROTICA**.

<http://www.amazon.com/BANNED-DYING-SU...>

I want to take a moment and acknowledge Scott Hildreth. I have never done this in any of my reviews but this man is so diverse with his writing. He can write ANYTHING. I mean ANYTHING. I have never had an author that I have loved every one of their books. It is always a hit an miss with me. He truly is a gifted writer. There is no stopping him. I have read all of his books but one. And not because I do not want to just haven't yet. He has amazed me every time. His books and writing are never the same style always changing it up. Not many can do that. All of Scott's book that I have read have a hidden message you just have to read

and understand the message. So congratulations on another hit in my book Scott. Keep it up. Looking forward to what you have in store next.

Adrienne says

Let me state by saying that this was an intense read from beginning to end. At first I needed a couple of breaks, but then I just flew through it. This was an amazing book! Talk about having your mind blown. I did not see that ending coming at all and I'm rarely ever surprised by an ending. I wish I could give more details, but it would ruin all the fun. It is a must read!!! If your into hot sex scenes and psychological thrill then this book is the perfect mix!

Elaine says

3.5 Stars

Ryan has had a crap childhood, mentally abused by his father. He grows up desperate to be successful and rich.

With reason unknown at this point, he selects women that look the same and kidnaps them one by one.

You see it's a game

Part of the game is they have to choose between themselves who will die first.....

My thoughts

I think this a quite a clever story. The author has made it different and by adding twists along the way, your sure this will happen and it goes totally in a different direction.

Its more psychological than anything. I had no idea where it was going to go and I like that. Ryan was a strange guy, but smart and very hard to work out. One minute you feel sorry for him and then a chapter later its WTF are you doing.

I do have unanswered questions which is reflected in my rating. But it was an interesting read.

Nanci **Warning**IWasASailor??MyMouthisDirty** says**

2.5 -3.0 what the **Foxtrot Uniform Charlie Kilo??????**

This book had me glued. I was intrigued, trying to figuring out the why, and what's going to happen. Unfortunately, by the time it was over I had one thought.

I literally laughed out loud. I mean I was in denial that it actually ended and that was the story.

I guess this book has been banned 3 times on Amazon, not really sure why...it wasn't half as bad as some others.

There is kidnapping, a twisted game, abuse and a lot of

I'm not sure if I'd recommend this book, because right now my thoughts are

That's my opinion, do as you please.

Scott Hildreth says

So, what do you do when your book is removed from Amazon for the contenta being controversial? You republish it without change. Here is the unedited version, after republish. Same review.

Varying from his typical approach, the author has written this erotic, dark, suspenseful thriller away from his first person norm. We all know, first person perspective doesn't work well when people are MURDERED.

One word describes this book:HOLYFUCKINGSHIT.

Ryan Capshaw was abused as a child. Now an adult, Ryan lives the life of a wealthy loner. After devising a plan to abduct, torture and murder four women, he puts his plan into action.After placing all four women into a concrete cell that he has constructed in his basement, he opens the door and gives them the following instruction, "tomorrow morning at 8am one of you will forfeit your life to save the other three. Have a good night see you at 8am.

"The twisting, turning plot that follows, isn't what anyone that reads this book would expect.And the sex? Oh my fucking God. Rape? Yes. Double penetration? Yes. Consensual sex? Not so much.This book redefines what an erotic dark thriller needs to be.And the ending?

One word. OUTFUCKINGSTANDING.

Naughtylitchic Says says

Holy hot erotic twisted mind bending journey! Sweet Jesus Dying to Survive is fan-freaking-tastic, baby! It left me speechless and breathless and I don't even want to talk about the state it left my panties in. I'll do a full review in a few, but I had to stop in and just rave about this sordid crazy twisted tale. To. Die. For. Xxxooo NLC

Valentina "TinchyB" says

Buddy Read with my babes Lela and Vedrana!!!

3* DISTURBING STARS!

I really don't know how to rate this book...

I loved some parts and hated the other and I was shocked,shocked on some crazy ass shit that my mind can't put it all together right now so I will change my rating as my mood swings collect!

Nope,book wasn't what I expected.

First,I expected some crazy ass shit with rivers of blood like in some Tarantino movie...and get a mindfuck!

The book is pure playing with nerves and mind.

When I started reading I was like

"I don't know why they even bother to banned it,I've read worst than this" ,and then at the second part...well...

I admitt,book is wierd and disturbing and sick and twisted that on some point I was banging my head on my reader and asking myself "What in the God's name did I just read!!!!?"

So,Ryan is sick and twisted,but polite abductor!

He was abused as a kid and now he loves to play mindfuck with random women...buhuhu...do I feel sorry for him!?

HELL NO TO THE NO!!!

I hated the children(Megan)part!!!!

Hate is a mild word for rage that I felt!

It's beyond every resonable person to tolerate something like that!

So I see how she could be attracted to Ryan...but not in the million years expected what he did to her...

And that ending...

Nope,no no no!!!

Cap'n Heather.....Aarrrrrrr says

Its back!!!

<http://www.amazon.com/BANNED-DYING-SU...>

I am going to review as best I can without giving much away. But just in case....this review has been hidden due to unforeseen spoilers

My Rating:

I struggled with what to give the book.

I am stuck between 3 and 4 stars.

So. 3.5 Stars. That's my final rating.

These are MY thoughts and MY opinions.

If you disagree....well you know where you can go.

****CAUTION* This book has scenes describing the abduction, rape, murder, and torture of living people. Additionally, there are graphic scenes of sex, not all of which is consensual. YOU HAVE BEEN WARNED.****

Ryan Capshaw. He is handsome man. A man of self-made wealth. A psychologist who is smart as a fucking whip. But He is also a man suffering from childhood abuse. And. A man with so many issues and who is so twisted in the head that it may just freak you out how normal he seems.

His game? Well....he ain't in it only for the money. He's in it for the thrill just as much. And fucking with women's' heads.

What to say...

How do I formulate my thoughts into a review for this?

I think some of my thoughts are still kind of tied up and trying to catch up with the turns this story took.

I enjoy dark books. The more twisted and fucked up...the better.

Dark erotica....yes please.

Slaughterotica.....Pretty please.

But.....This one in that category FOR ME didn't quite hit the mark fully.

What I LOVED about the book

This book. It was different.

It had a different dark element to it.

Not the typical "I kidnapped you. You do what I say when I say. I fuck you however and whenever I want.

And. Then you fall in love with me." No. Not in ANY way.

Head games. A mind fuck.

And seriously unexpected twists. No. Really. I could not have seen that coming from a mile away with the buildup that was written.

What I struggled with

I think in the beginning of the book I had a hard time with Ryan. He was too proper. But I guess that makes a good psycho. It's always the polite ones you never see coming isn't it? But. As the story went on, we learn who Ryan is. What he has inside of him that makes him...him. I think learning that had me feeling

compassion for Ryan. He had me feeling sorry for him.
Had me thinking "Well fuck. Can he really help it?"

I didn't like Meghan. At all. Not on bit.

I can't ever imagine being in the situation she faced. But. I also can't fathom how a mother would fantasize about what it would be like to be sexually dominated by her captor. How a mother could rarely give a thought to her child left behind. All I know is I would be in a ball in the corner trying to hide from everyone if I was in Meghan's position. I do understand though that people react differently in different situations. And occurrences in people's lives and past also determine how they act in different situations. So. I get that it was just Meghan. Reacting. But still...I didn't like her. I was kind of happy with her storyline.....

I struggled with the first 60% of the book. The buildup was...well...it took too long for me. I do feel there needs to be buildup. The story needs to unfold a certain way. But. I also like fast paced reads. The last 40% of the book though....HOLY. SHIT. My. Gawd.

I couldn't have guessed. Nope. I was literally sitting there thinking. "What the fuck just happened?!"

I reread to make sure I read it right. HAHA! Good lord. It took off from that point. There were different twists that took the story to a whole nother level in my opinion.

The end....yea this sums up what I felt...I definetly look forward to book 2. But.
Fuck it. They're all going to die anyways...right?

Scott.

Brav-ooooo. Thank you for writing this. This book. It shows your versatility as a writer. You are an amazing author...regardless if this was a 5 star read for me or not.

You fucking rock.

You could probably write a "How to Poop in Public" book and I would still run and read it as soon as it was available. You tell a story that always in some little way has meaning and makes a point (yes...even in Slaughterotica...there was something...kind of).

You always make people *feel* what they are reading.

I really feel bad for the people feeling with this book right now...you crazy mofo.

Thank you for putting up with the bullshit that has come along with this book. You are a fighter. And we will follow you and your books....to hell and back.

(check out her shirt....FCKH8...uhm yes...to you haters)

*I would like to point out one thing on a serious note. It's super important in my opinion. Childhood abuse is something not to be taken lightly.

Like Scott states, "Children. Pay close attention to them. They grow up to be adults...and not always decent adults...." Ryan is a prime example of a man that seems kind and decent. You don't what lurks behind the eyes of a person who has suffered as a child at the hands of an abuser.*

END SERIOUS NOTE

?Yasmine? says

"To the depths of Hell."

A dark read I could finally sink my teeth into.

Currently on Amazon under the titles:

Plenty of Fish

NO BUTTERFLIES OR RAINBOWS

This seems to be because of Amazon banning the book

Genre: Genre? Just 'Dark' fiction I think. I wouldn't call it an erotica, for me an erotica means the book revolves around sex, this does not, though it had erotic parts. There was far more mindfuckery and horror.

Cover: 2/10

Writing: 8/10

Heroine: 9/10

Hero: 8/10

Hotness: 5/10

Romance: 4/10

Dark: 9/10

Ending: 9/10

Extra book Details: Dual POV. Approx 220 pages.

At first, I thought 'Oh jeez, Ryan is just another rich sadist, yadda yadda...'

'It had been nearly eight days since he last abducted a woman, and a newly chosen victim would be needed for the game he intended to play.'

Then I was like 'Wait! What?'

'But you must excuse me. I have women to torture. For profit'

Profit??? Huh?

'The thought of someone willingly forfeiting their life was fulfilling to him. The real question was who?'

'He began to perform the mathematical calculations in his head regarding one of the women actually choosing death over dismemberment.'

OH MY GOD!

This guy is a nut job! A freaking clever nut job! Who likes to profit from torturing women! Who all look like the coffee shop worker that he pines after!

!!!!!!!!!!

Oh, yeah, so, I overdid it with the exclamation marks, but seriously, this is not what I expected. The whole book had a load of turns that I didn't expect. Sometimes I thought Ryan was evil, other times not, sometimes I thought the one woman was true heroine, then the other one. Why was he doing this?

It was freaking great and so incredibly weird!

Ami, well, she was a breath of fresh air. I loved her, she was absolutely crazy and incredibly bossy.

I really wish I saw A LOT more of her. She was not in the book as much as I would have liked, the things she would say was hilarious too.

'No sudden movements or it's gonna get as messy as a shit sandwich.'

Oh and Ami likes quite a bit of this. She's pretty much a nymphomaniac.

In fact there was a lot of funny moments for me, Ryan bitching about pineapple in cottage cheese, Ami stepping in guts... It was a welcome surprise.

All the characters were severely messed up to extremes. I didn't care if it was unrealistic at times. I wouldn't have liked it so much if they were normal with a side of crazy. Just give me the bat-shit kind.

Oh and I never heard the term 'fuck bubbles' before, now I will definitely try and use *that*.

Right, be warned there are HEAVY scenes of child abuse, violence, breath-play, rape, murdering of innocents and torture.

Enjoy!

Debi Price says

Dying To Survive

WOW WOW WOW! My head is still whirling from this one! I LOVED it!!

Scott Hildreth absolutely floored me with this book! I would give it 10 stars if I could!

Ryan Capshaw is definitely a different kind of man. He is dark, sexy and twisted. I loved him! People are going to either love him, hate him or scratch their heads. I read this book in one sitting, since I could not put it down. It will definitely leave you thinking. I don't want to give spoilers but i will say it does NOT end like you think it will. It was a dark and twisted mind ride for sure. My favorite KIND of book! I cannot wait to see what Scott Hildreth comes up with next in his NEW genre of slaughterotica! ;)

Jennifer Juers says

I am not impressed with this book, disappointed with it actually. There was so much hype about it and how it was banned twice and I have no idea why.

Could it be that it was in the wrong genre of books? Probably should of been the murder/mystery section not dark erotic. It surely wasn't any typical BDSM that I have read and to be honest I read maybe one scene that would be considered that and it was borderline rape vs BDSM. I didn't feel that the story went with the synopsis for long. I was expecting the whole book to be about the 4 women and how they would all be killed off throughout the whole book. Would they survive long enough to attack their abductor? Could they change his game plan? In a way, that kind of happened.

Torture? Yes, but not even close to what I thought there would be or could have been. Maybe all the other authors who have written true dark erotic books (IMO) have topped the charts for me, so this one fell short.

I think that the story could have been much much better.

Disappointed reader. I may add more, but this is good for now.
