Karyn Buchanan says

The Laundry Hag has a lot going on so her family and friends trick her so she takes a vacation. Some funny parts, an interesting mystery, but it kind of wraps up too fast and doesn't quite seem so believable. Still a lot of fun!!

Elisa Hordon says

An addictive, adventurous mystery series with awesome character who feel like family every time you read a laundry hag book.

Imjussayin says

I have read the first three books in the series and enjoyed each one.

I find the relationship between Maggie and Neil interesting.

Jennifer says

Great Fun Read

Funny, smart, well written and mysterious. If you want funny and witty along with your mystery especially if you are a Mother, you will love the main characters banter.

Reese says

Ghost story?

this installment was different than i expected, with the ghost story and all, it's my least favorite of the series.

Jeanie Jackson says

What this book doesn't have isn't worth having! Outstanding. I love this series, but I think I loved book three even better than the first two and only part of that was because Neil was in it more, but face it; if you are a Laundry Hag fan, you are probably a fan of Neil too. I loved that some of the issues that had been growing through the dangers Maggie faced in the first two books were addressed in All Washed Up and that the

Maggie and Neil communicated better than they have in some time. No only to we see more of Neil in the story, he reveals more of himself to Maggie than he ever has. Awww. There are, as always a couple of real twists to the mystery and to the personal plot and the humor can't be beat.

Lauren says

This series is quite funny and unique. A woman takes up becoming the maid/laundry hag in order to help the police investigate some of her rich neighbors. However chaos usually follows her closely. In this installment her mother in law decided to buy a new house, and we all know that the maid is also a medium right?! I wish we had a few more details about the "ghost". It all seemed a little rushed at the end.

Linda Cole says

Really enjoyed

this series keeps getting better and better. ghosts, murder friends helping each other out , and love makes this book a must to read.

Leanna says

Waiting for more

I have enjoyed the series and can't wait for more. I love murder, mystery and thriller of all kinds and these light hearted books are awesome. They keep me on the edge of my seat.

Siobhan Henn says

Maggie and Neil have such a strong relationship - I'm so jealous!

Ian says

After suffering serious burns to her hands in book 2, *Swept Under the Rug*, Maggie finds herself having a crisis of confidence and her marriage is suffering as a result. Desperately wanting to mend her marriage and find her confidence, she accepts a job exorcising a ghost from a haunted house her mother in law has just bought.

But it seems the ghost is the victim of a decades old unsolved murder and Maggie and her crew find themselves investigating.

All Washed Up is probably the weakest book in the series but it's also the most fun in my opinion. It reads like a cross between a Scooby Doo cartoon and a TV sitcom halloween special. I'm guessing Jennifer L. Hart intended it to be so based on her referencing Scooby Doo in the book.

The biggest weakness in the book is the ending which felt rushed. That said it's a light, fun read and worth the effort for fans of cozy mysteries.

Shannon Anderson says

Was ok. Took a little while to like the characters. If I need a short read might read the second book.

Lauren E. Smith says

Nothing Washed Up About This

The third book in the Laundry Hag is just as enjoyable as the first two! Funny, great characters and good mystery.

Krystyna says

When the ghost meets Maggie

Not my favourite but still a good read. I got this in a box set that doesn't appear to be available now. She's down in the dumps. Although cleared of all wrong doing her business has still not recovered and she has cut her CIA activities with the local police as they didn't lift a finger to help. So when her mother and father-in-law ask her to go and clear their new purchase of the ghost activities reported there they agree. Leaving the two boys with her brother and his new family they set off to the small community where the house is. Talk of ghosts abound as does the murder of the previous owner's daughter. When they start seeing and hearing things it all takes on a more sinister aspect. Will they be able to find out who what and why?

Libby says

(E) Definitely my least favorite of the 3 of these so far. The stuff with the ghosts was weird and I hate that Neil and Maggie can't just talk about what's bothering each of them.
