### Donabelle Dayta says

wow it's 2017

---

### Nicola says

Well obviously the May 16th publication date must be wrong. Not even a blurb? Anyone know what the deal with this one is?

---

### Wendy Darling says

Wow--it's March 2013. How is there still not a blurb and cover for this title?

---

### Krista says

I feel like I've been waiting FOREVER in anticipation for another Jess Rothenberg book after *Catastrophic History* and still...nothing. No synopsis. No cover. Nada.

So sad! How much longer will I have to wait? I want *something*. A blurb. A quote. A little teaser. *Anything*. Pretty please :)
