**Blood Vengeance** David Leadbeater

In the pivotal novel of the Matt Drake series, everything changes.

Matt Drake's team is torn apart around him. The President of the United States is abducted. America and the world sit before their TV screens, shuddering in disbelief as Washington DC itself comes under attack. The Blood King is back!

The night has never been so dark, the dawn so far out of reach. Who will live and who will die? Mai Kitano's long-lost parents are being held captive by her old clan in Tokyo. The stakes couldn't be higher as she fights to save their lives. The SPEAR team struggle on through their own losses, battling through the Capitol's nightmare streets to save the President until at last they are faced with an army of the Blood King's men. They mount the battlements of a castle in Death Valley to make a last stand--determined to make the last good fight of their lives truly epic.

I have been a fan of all the Matt Drake books I wait eagerly for each instalment and I'm never disappointed. Blood Vengence is true to form, it's exciting and fast paced, I feel I know all the characters so well , they're almost family so when they suffer I feel for them. Bring in the next chapter soon please

It was a typical shoot em up action book. It was more shocking than anything with quite a few unexpected twists. Definitely read if you are reading the series!

A SIMPLE MAN'S REVIEW:

This book was nonstop action! The Blood King is back and has a plan to continue his blood vengeance. There is chaos and fighting everywhere and SPEAR is right in the middle of it. Obviously I won't tell you who lives and dies, but some of the main characters don't make it to the next book. But even with the losses, I enjoyed this book like the first few "Matt Drake" stories. Fun, quick, and bloody.

#### **keeps you up reading**

I am enjoying the different ways you split the team up. It could use some work and finesse but I'm not a published writer it's just hard to follow at times. I love the action, real people personalities, descriptions of places worldwide ect.

Matt Drake and the SPEAR team are back. The book starts at break neck speed & is a real rollercoaster ride, no one is safe!! Already looking forward to the conclusion of this story line and the spin off series feating Alicia Myles, would live to see the mad Swede get a series too.

### **Sue E. Proctor says**

#### **This book was non-stop from start to finish.**

Matt Drake and friends did it again-saved the world. When you read these books, you feel you are right in the book with the characters. Mr Leadbeater has a way of keeping his readers interested, no, intrigued, until the very end. I want to go on and read last man standing, but hate to see the end of the Matt Drake series. I'm hooked though, so on to Last Man Standing!
