Claimed: The Pregnant Heiress Day Leclair , Catherine Mann

'I'm having your baby.'

With those words, Emma Worth changed Chase Larson's life forever. Having been born on the wrong side of the marriage bed, the millionaire vowed no baby of his would be so cruelly labelled. There was just one thing that might keep him from making Emma his wife their feuding families.

She'd never dreamed one night with Chase would bind them forever. The pregnant heiress desperately wanted to raise their child together, but only if Chase could forget they were enemies

The Takeover For better, for worse. For business, for pleasure. These tycoons have vowed to have it all

Also includes a Bonus Novella: Rafe & Sarah - The Beginning, by Catherine Mann

Sarah says

After having a passionate affair weeks ago, Emma Worth and Chase Larson realize they are on opposite sides of a contentious business deal. Worse than that, Emma discovers that she's pregnant. Luckily the heat that originally brought them together is still there. But trying to make their romance last requires something more than overwhelming passion. At the very least, can they get their feuding families to get along.

This was a solid story but there wasn't really that much conflict between the protagonists. They were both scared and cautious, but ultimately they both always wanted to make their relationship work.

Saly says

Claimed: The Pregnant Heiress by Day Leclair, is a typical category. Hero(H) and heroine(h) spent one night together, they meet again at some party where the H's stepbrother is buying h's father company. Sparks are still there, turns out h is preggers. Hero wants to marry her since he was illegitimate, heroine is not sure. And there it goes.

Ladyacct says

I thought this book was funny, sweet, and sexy....a perfect start to a new series in the SD line of harlequin books.

Jacqueline says

I quite liked this one. The hero is a nice honorable man. The heroine is in no way a wimp. The story is well written and the plot makes sense and is well developed. The emotions of the hero and heroine were believable. I see shades of other books to come but this is not just a big setup for future books. The characters that I suspect might have stories in future books all have a part to play in this one. All in all a very well written story.

Okay this has a short story about the hero's brother Rafe at the end. so I went looking for an actual book about Rafe. All I could find was another short story at the end of a different book that is supposedly Rafe and Sarah the 3rd part. Where is the 2nd? and is this not going to be an actual book on its own? I'm confused.

Lisa Montgomery says

I liked Chase and Emma so much I read the other books in this series (written by other authors). Chase is one

of the few can make Rafe see beyond his need for revenge. He is the perfect half brother and an equal force with which to reckon.

Sabrina says

A complex and emotional story, I really enjoyed seeing Chase and Emma grow together. Particularly with Emma helping Chase heal some wounds with his father and past. I'd give this a solid 3 Heart Review and say you would enjoy this book and it would be a fast read.

emberzmars says

This book is by far, my top 3 favourite Harlequin/Mills & Boon book. I've read so many stories on accidental pregnancy and the reason I love this book is because both hero (Chase) & heroine (Emma) face the issue without being nasty towards one another. With other books, hero tends to bully heroine into a shotgun marriage. However in this book, Emma doesn't give in to Chase's demands easily.

Both Chase & Emma communicate well whenever a conflict arises. I love the tender moments between the couple because they are genuine. My favourite scene is when Chase and Emma go on an impromptu house hunt. Chase makes a huge commitment to Emma and their baby. Since the beginning of the book, I can feel Chase's genuine feelings towards Emma.

Never underestimate the quality of writing in a Harlequin/Mills & Boon book. Give this book and author a try!

Ayana says

Honestly, I rarely bother to review or even add Harlequin's books into my reading list (sorry Harlequin!) because I read quite a number of them and almost all of them is pretty short (though I rated some of them here at GR). Hence I didn't add them to my "read" list cause to me they're not a full fledge story or book. How wrong of me. So very very wrong! After reading this one, I realized that none of the Harlequin's published books deserved to treated like that.

This book has about less than 200 pages or so but it's filled with overflowing emotions, mind blowing writing and starred by "real" characters! Really, I'm totally floored by this book. The main story is about a woman had a one-night stand with this mysterious guy. Then she found out he's the man who were dealing her father's company sale. They found out later that she's pregnant. Sounds pretty common right? All the usual stuffs are there after all and well, let's be honest it's not the first time we ever heard this kind of plot, are we? That's where you are wrong! (well, it's me actually) The author pulled of the "usual-common-stuffs" story into a roller-coster one! The attraction, tension, emotions of the characters are spin wonderfully throughout a pretty short story (I consider 300 pages below is short). I laughed, I cried with the characters, and I even grinned idiotically at their antics (the ringtones! :D).

I'm proud to say that never again I will look at Harlequin's books with the same attitude as before. This book changed me. This book shows that even though the word counts or no. of pages is pretty low but if it's done right, it has chance to become one hell of a story. Many many applause for Ms. Leclair. Thank you for writing this. :) Job well done!

Solid 4 stars!

P/S: Sorry again to Harlequin and the authors! Gomennasai!!

Sue Lauzon says

Pretty much your average Harlequin romance. One of the better ones that I have read recently and a fairly quick read when I wasn't busy reading other books or busy with regular life stuff.

Serena Miles says

Los protagonistas no me han terminado de convencer, una novela para pasar una buena tarde

6/10

elstaffe says

Continually misread this title as "the Day LeClaire Claimed the Pregnant Heiress", and was disappointed

every time to find out that this was not, in fact, the case (or the title).

Sarah says

This is a great story. Doesn't start of with a lot of romance but when Emma and chase realise there's more then attraction between each sparks really fly. Chases brother Rafe starts a war with Emma father and takes over worth company. At the end of the book there's a short story about Rafe. It's a great look at what he was like younger.

Laura says

This book was enjoyable, but not the best I've read either. It didn't suck me in like some of my favorites have, but it also didn't bore me. In trying to put my feelings into words for this review I keep coming up with the following: "It just wasn't quite there." That goes for all aspects. There could have been more to the plot. There could have been more to the smut parts. There could have been more to the dialogues, to the descriptions. The list goes on.

I will say that Chase's brother Rafe irritated that crap out of me. I just wanted to punch him in the face and knee him "where the sun don't shine". :o)

It was an enjoyable, quick book that kept my attention. I do wonder if it had been any longer if I would have gotten bored. So, in that regard, I wonder if it wasn't just the right length given the writing style and plot.
