Get Bent!

Rick Gualtieri

Get Bent! Rick Gualtieri

They say I'm an abomination.

I say words hurt ... but not as much as my fists.

My name is Tamara Bentley, Bent to my friends, and I'm not supposed to exist. I was born of the forbidden union between a witch and a werewolf, and they've been trying their damndest to hide my existence ever since.

But now my secret is out, and my uncle, the leader of the wolf pack, is pissed beyond belief. In his eyes, I'm something that should've never been born. He wants me dead and doesn't care who he has to sacrifice to get the job done.

I'm far from helpless, though. Not only am I a champion athlete, but I'm strong enough to punch out a bus. Good thing, too, because a rare lunar event is about to increase my uncle's already terrifying power. I'll have to call on every last ounce of strength I have if I want to survive the night and save the lives of everyone counting on me.

Iori says

Well, this is another win for the author. It was young adult, but still awesome! I mean through all the despair and anguish, we saw what the determination and resolve of Tamara got her through the situation she was in. Oh and the humor reminded me of the one in Bill the Vampire totally awesome.

Vikki says

Bending norms

Half witch, half werewolf. What happens when a witch and a werewolf fall in love and start a family? They have to hide her abilities from herself and both sides.

Chris Bell says

Smart and Sassy

In a Stephen king small home town a girl enjoys her summer. Boys, issues, dates.
And then we have a blood moon and lots of gnashing and howling.
Loves it

laeaurra flamehawk-mitchell says

Excellent start

I think the witch/werewolf thing's been done before. Doesn't matter. Rick the author made a kick ass heroine and has set things up for another fun urban fantasy series. If it's even half as good as Tome of Bill (I expect better) this will be well worth the money. Get Get Bent!

Wendy Schindler says

A Kick-butt New Series!

A witty, action-packed adventure! Filled to the brim with werewolves, Celtic Witches - no, I'm not attempting to spell the proper name of afore-mentioned witches, kick-butt friends, and the heroine of the story...Abomination or just a victim of circumstance?
I highly recommend this story!

Bennah says

I liked it

I really liked this book. In fact, it is 'almost' my favorite book of the author's so far. The story was good, and kept me engaged the whole time. My only issue was the whole, 'let's do the polar opposite of what everybody in the know is telling me to do, so I can come close to dying again'. I know it was to push the story forward and establish Bent's character, but...

Either way, I still highly recommend checking it out. It was a good story that I had a hard time putting down.

Lucinda says

A quirky amusing story with a fair bit of pow wow going on from our wrestler of a main character

James S says

Just happened to be looking for something new to read and found this book. I very much enjoyed it and would recommend the series. Finished the second book and I am looking forward to the release of the third.

J.G. Gatewood says

This book went by way too quickly. I was captivated from the start. I loved the characters. I loved Tamara's spunk. I loved Riva as a best friend (and her in the epilogue). A very good read and I am ready for the next book.

Walter Pavlik says

Mortal enemies have a baby, AGAIN? (It works!)

Get Bent while having some trappings of typical Fantasy/Horror/Romance/Bormance, etc. Get Bent is a well plotted out beginning to the hopefully long running new series about a female hero who is not just a 2 dimensional representation of a Buffy wannabe.

Rick takes his time to build a world here and an intro story to explain just enough to keep us on the edge of our seats.

The other characters feel like they have more purpose than just to be there to support Tamara Bent, our heroine.

Sheridan Lee says

Fun new series

Written well, with a fast pace. Solved some mysteries and opened the door to more. Nice to see Gualtieri visiting humor again. I look forward to the next installment.

Michelle says

Awesome

Fun read. Loved Tamara and Riva.. Well written with good pacing. Werewolves vs witches. Looking forward to that war heating up!

Winnie says

Too much cursing ?. Irritating heroine. Stupid overbearing dumb nasty mouthed female lead.

Crystal Davis says

Ready for the next one to come out!

Jonathan says

Guys tend...

...to write women usually as stereotypes—as in “tomboy” “sexy siren” and always attractive or extremely plain. One of the little factoids that got me here is how he seemingly described the characters’ physical characteristics without resorting to evaluating them externally. For instance, Bent’s best friend is only identified for the first several pages as such and through her snarky dialogue with the main character. Not until it becomes a part of the plot as an identity marker does Rick say anything about her heritage or looks.

I thoroughly enjoyed Bent’s personality and perspective, looking forward to the next book.
