## Going to the Firehouse Mercer Mayer

*Whoosh!* goes the water hose. *Ooo! Eee! Ooo!* goes the siren. *Ding! Ding!* goes the fire alarm.

Little Critter and his classmates are taking a trip to the firehouse! Little Critter puts on his boots and jacket—now he's ready to help Fireman Joe. After checking the hose and ladder, Little Critter is ready for a fireman's helmet of his own. Join Little Critter as he learns to stop, drop, and roll with Fireman Joe!

This sweet, simple story is perfect for emergent readers ready to climb their own ladder.

This book was included in our Little Critter Collection: Contains Little Critter: Going to the Firehouse, Little Critter: Going to the Sea Park, and Little Critter: Snowball Soup and this is our first exposure to Little Critter and it's a delight. I had seen this guy around, but never really looked into it until now. AppleBlossom is at the stage where Level "My First" I Can Read! books are perfect and so I'm looking all around to see what I can find.

Little Critter: Going to the Firehouse is a great book for working with a community helpers theme. Children can experience their own firehouse field trip within these pages. Learning about what a fireman wears and why he does what he does is important and fun with Little Critter.

This would be a great book to read before taking a field trip to the firehouse. It would also be a good book to read about fire safety.

## **Cassie says**

This book is good as long as you replace “fireman” with “firefighter” every time you read it.

Going To The Firehouse is a children’s book about a young boy who is very enthusiastic about going on a class field trip to the firehouse. He even dresses like a fireman himself. The fireman shows him his dog named sparky, a firedog. He shows them his boots, jacket and helmet. But the boy only had boots and a jacket, no helmet. Next the fireman slides down the fire pole and all of the students and even the teacher watched in amazement. The students get to see big fire truck and even let the boy help check to see if the fire hose is working well. They watch the firemen climb the ladder on the fire truck. At the end of the day the firemen give all of the students helmets, which completes the boys fireman outfit.

The illustrations were pretty colorful, showing that they were all having a good time. The students were all amazed to see all of the different interesting things firemen have and do and the illustrator did a good job conveying the characters emotions.

This book serves a good purpose to show young readers how a firehouse works and the importance of fire safety. In the book it states how fire works. “Joe tells us about fires. He tells us smoke goes up. When smoke goes up, we must go down to the floor.” This book serves as a good purpose to show children the importance of firemen and the dangers of fires.

Very nice book (as most Little Critter books are) to help children recognize anything about a firefighter and the fire truck. Little critter and his classmates go visit the station, and learn to “stop, drop and roll” along with the fire truck and firefighter.

Another Mercer Mayer book that all my kids enjoyed. My 5 yr old just adores Mayer and requests her books constantly. I read them at the breakfast or lunch table and even my 3 yr old twins get into them. Fun engaging themes that any child can relate to, a great addition to any children's library. This one was a level 1 reader, so a little on the easy side, but all of us still enjoyed it.

This is a great book to use with young children to talk about community helpers. It talks about some of the things firemen do. It also begins to talk about fire safety. This is a great way to introduce these two topics.
