## Lost Malia Jacobs

Oliver has been taken. Kate's memories are gone. Lucas' Wolf has taken over. The life they all once knew is lost.

Desperate to find their missing family member, the Windsors embark on a journey that will change their lives – and their coven – forever.

Left to fend for himself, Lucas searches blindly in the night for control over a life he no longer understands. And in the process finds the one thing he never thought he would, and the one thing he never wanted to.

Deception. Tragedy. Danger. Betrayal. Sometimes you have to lose everything to find what you've needed all along.

Lost. Book Two of the Immortal Shadows Trilogy.
