This is a good series. I think it would be a great inn to visit, a lighthouse in the Blue Ridge mountains, how cool is that!

Janell says

Simple mystery story. Simple writing. Simple conclusion. Fast read. Clean characters and language, though, which is hard to come by these days. As a mystery it was Ok. This author has several series and the stories are all pretty similar.

Leslie Ferrari says

Enjoyable cozy mystery that took me until near the end of the book to solve. This is the second in the series, I'll be looking for the first to read as well. It was a perfect book to read on my flight.

Another mystery solved. Again, I was able to solve this crime, but not until the last 10% of the book, which is how it really should be. As I look back the author did lay down clues along the way, but they didn't give it all away too early in the book.

I have now read 4 of the 5 books in this series and found them very cozy. They are very easy fast reads that you don't have to think too much to get through, and sometimes you just need an easy read.

I definitely would recommend this series and author to others interested in a quick murder mystery.

Randee Baty says

Two books into the Lighthouse Inn mysteries and these people feel like old friends. A fair demonstrating old-fashioned skills like blacksmithing is being held on the grounds of Hatteras West Inn. It's just a way to highlight some local craftsman and bring some tourism to the area. What could go wrong? Well, the dead body of one of the craftsmen could put a crimp in the festivities.

As with the first of the series, this book is fun and entertaining. Nothing that makes you think too hard, just a relaxing way to spend a couple of hours. Again, the characters are the main draw. The mystery does take a while to figure out but I didn't try too hard because I was enjoying all the new townspeople we were introduced to and the relationship between Alex, Elise and their friends. Good, clean, relaxing fun.

love this book and the author!!!! Loved reading this book about the Hatteras West Inn And lighthouse. Alex the inn keeper is trying to solve the murder of the towns favorite blacksmith while trying to run his hotel!!!! This is a real page turner and loved the ending which I am not going to tell!!!!!!

Kimberly says

This story was boring and the killer is crazy. I will chose to focus on other things for my review.

At the time this book was written, I guess cell phones weren't used all that much. I doubt they could have gotten a lot of reception where they are, but the omission of a cell phone was noticeable.

I couldn't help but picture Cheetara from the Thundercats (HO!) whenever Shantara had a part to play in the book. Does that make Alex Lion-O?

Alex must have thighs of steel from climbing all those stairs in the lighthouse. His butt must be verra nice too! :P

Jenny. Jenny, Jenny, Jenny...

Did you really think throwing yourself at Alex like you did would work?

You need a few splashes of whiskey before you do that! Come on now! Everyone knows that!

REad this one years ago as a paperback. The DH accidently added it to his kindle... It's an excellent read, and now that we have it in ebook format, I may just have to go back and reread it again. Book 2 in the Lighthouse Inn series. Well written with well developed characters and lots of great scenery not to mention a good bit of humor and fun thrown in to keep you reading. I'd recommend this whole series to anyone looking for a good mystery series.

All of Tim Myers mysteries have been great. I can't wait to start my next one.

Juanita says

Enjoyed this second of Tim Meyers books I have read. A quick read and was very entertaining. I will read more from him now that I have found some old copies of his paperbacks.

Stina says

Book #10 for 2010. This series captures the essence of small-town life well, and Tim does a really good job with the red herrings. I think I would have liked this one better if the clues had been presented more "fairly," but the puzzle was pretty solid.

Linda says

This was the first book in the lighthouse series that I've read and I enjoyed it. Sometimes I got a little overwhelmed with all the characters but overall very nice. It was a quick read too.

Melissa says

Book #84 read in 2007

A little predictable, but an easy, light read nonetheless. I enjoyed it and will continue the series.

Mary says

Before I continue I have to say that I haven't read the first book in the series so that may affect my response to this book, although from what I read I had the feeling that there were several books prior to this one.

Alex owns a lighthouse/inn in the Blue Ridge Mountains - that's right, a lighthouse near a mountain ridge. That's actually what made me pick up the book, the setting really intrigued me. Alex has agreed to host a crafters' fair on the grounds of the property but before it can start one of the participants is murdered.

This book was only 180 pages - I think it could have been twice as long using the extra pages to develop the characters and storyline. The author has a decent style but he needs to spend more time developing both. I was surprised by the end but that was more because I didn't really know any of the characters.

Read this if you are okay with a short, decent mystery but you may want to pass if you need more character and story development.

Missy says

I just adore the setting of this series. The characters do not have much depth and the plot, well, I deduced the killer WAY in advance, but I just want to be and the lighthouse inn...reading, so I continue reading. (Plus,

once I start a series I try to ride it out. Myers is writing 3 other series, so I don't think there will be too many.)
