Touch Wood

Jenika Snow

Touch Wood Jenika Snow

The Ash brothers—they know how to handle their wood.

A new smoking-hot Ash Brothers novella from USA TODAY bestselling author Jenika Snow

I've been celibate for years, by choice. No woman has held my interest long enough to be worth sacrificing time spent at Ash Lumber, energy spent building the family business.

All that changed when a feisty redhead walked into our job-site trailer.

Andra.

Her skirts drive me crazy and her trying so hard to flat-out ignore me does the rest. Her flushed cheeks when we flirt are enough to send me to bed for a week.

Andra might be supervising this development deal, but there's no way we're going to be able to keep things professional around here. My celibate streak is over, and I owe it all to her.

This book is approximately 13,000 words

*One-click with confidence. This title is part of the **Carina Press Romance Promise**: all the romance you're looking for with an HEA/HFN. It's a promise!*

For those times when size does matter. The Dirty Bits from Carina Press: quick and dirty, just the way we like it.

Chris C - A Midlife Wife says

I love grabbing quick little Novellas once in a while. They're perfect to break the monotony and to indulge in a really hot read.

The one thing you have to realize and accept when you read hot little numbers like this is that there will be insta-lust and insta-love. This book definitely includes both of those.

For some reason I had issues with this story. I liked the plot and definitely the delicious lumberjack. But one thing I did not care for was the repetitiveness in some of his conversation. A lot of it came off kind of cheesy and unbelievable.

But understand that is book gives exactly what you what you want...The connection and the sexy scenes that are smoking. No big build up to the grand affair.. Just down and dirty, like we want!

Need a break? Here you go.

Flo Grugel says

I've really enjoyed Jenikas Ash Brothers collection! quick and dirty novellas at their best !

Auntee says

A little short, but super steamy. It helps if you've read the other two books in this series, preferably recently. I have read the other two and enjoyed them, but it's been some time since I've read them, and have forgotten a few things about the Ash brothers. I might just have to start a 're-read of all three, just to get the full effect!

Loved Liam and Andra's story anyway--a possessive and dominant and years celibate mountain man who knows what he wants as soon as he sees it, and a sassy and stubborn redhead fighting to maintain control. Loved all three of these short stories, but once again just wished they were longer.

4 stars

Julie says

A hot novella, and the final Ash brother Liam gets his story.

Celibate for a while now, he's finally found the woman he'd break his dry spell for and settle down with, Andra. The air has been sizzling when ever they've met for a while now and when they become a couple it was insta-love and the chemistry was off the charts. An entertaining, fun read. Great!

Ryan - Sweet Red Reader says

I didn't enjoy the third Ash brother book quite as much as I liked the previous two - there was a bit too much inner monologue going on with the two characters and it was repetitive at times. I wish there had been more interaction between the two of them besides staring at each other intensely and longingly before they finally succumbed to their mutual desire and I also could've done with a little more back info on them (especially Andra since it seemed as if there was a deeper reason for her fierce need for independence, but that wasn't explained or explored). However, Touch Wood gave me everything Carina's "Dirty Bits" imprint promises: brevity, steam, and an HEA, so I look forward to more books from them, as well as from Jenika Snow. 3 out of 5 wine glasses.

***Dee's Reading Time Matters says**

A cute and sexy 3.5 star read. Love the sassiness of heroine, Andra and confident Liam was by all means perfect for this spitfire city girl!

Raine says

******ARC was provided by the publisher in exchange for an honest review.******

3rd book of the Ash Brothers series

I usually love Jenika Snow books. They're short, sexy and tend to have an alpha male and an innocent young girl or a strong woman. This book was of the same formula that I love, but something was lacking in this particular story. The good thing is that you don't need to read the previous two books of the series to read this one. It could be read as a standalone and doesn't detract at all from following this story.

Liam Ash is the final brother of the series to find his mate. He's a lumberjack who owns a construction business with his two brothers. He's been celibate for years because he hasn't been interested any woman or having a relationship.

Andra is a strong business woman who has come to oversee the construction of her company's development deal. She's a strong, independent woman who thrived living in the city of Denver but moved to this rural area for this project.

I think the parts that I have issues with is that there was a lot of repetition in this story. Particularly how Andra is such a strong woman and doesn't bend to men and refuses to submit. Also, how both of them kept dancing around each other and didn't want to be the first one to give in. It kept going on and on along these same lines and I kept thinking that I just wanted the story to move forward. Unfortunately, there was basically no story and I think so much could've been done with this.

I do love Jenika Snow's books and am hoping that this particular book is just a fluke and she had an off day

writing it because usually her books are well written. I'm hoping to get to read about the two previous books about Liam's brothers.

♥?Fantasy Land Blog Book Reviewer♥? says

So we are finally getting the last brother's story. This one was a bit slow for me, but it is a short story so it doesn't last very long. Andra and Liam want each other but it takes a bit for them to get together. For the most part, these books are good short but good.

Jacqueline says

2.5

Short, improbably fast and gloriously smutty, this sadly missed the mark for me.

The third in the series, it tells the story of the remaining Ash brother. Good with his hands and a marvel with wood, he's been celibate for years.

He's got lots of pent up lust to unleash.

Anyway, instalust follows at first sight and both H and h are a slave to their pulsating nethers whenever they're close to the other.

For some reason though, I wasn't feeling it. The smut was as hot as this author delivers but without the feels it was missing something I'm afraid. He was supposedly attracted to her feistiness but I didn't see much evidence of that. Idk, perhaps it followed on from the earlier books in this series and I missed it.

An ok way to while away an hour but not my favourite from this author.

Part of a series, although their story's complete I think it would be a better experience if you read the brothers' stories first

Thanks to the publisher via netgalley for the arc.

?Tonya? says

This was a decent story. The first half was mainly their inner thoughts about wanting each other. They finally get together about 3/4 through.

-no cheating

-no ow/om drama
-pushing away by heroine
- no violence of any nature
-just ok epilogue that was 1 year out. Don't get a lot of info on their HEA. Also, if this is the last of the series, there was no update about the previous couples.

Stories in Review says

Good read. Little more push/pull than I like. They were apart for 1 week.

Macaela Conder says

Took a bit longer for these 2 to get together. But when they did... wow. They did like to bicker a lot. For someone who went after what she wanted, Andra ran away for Liam even though she wanted to be with him. I feel like Liam had to do most of the work.

Carvanz says

These Ash brothers are determined when they see something they want and Liam is certainly no different. Andra gets under his skin in all kinds of delicious tormenting ways. But he knows that he gets under hers as well. She likes having control of her life and her surroundings. In her job, it's important to take charge and make things happen.

Both of these characters circle each other knowing there is more than their surface tension. When the opportunity arises, Liam makes a move and Andra is glad that he finally did so. However, she's now struggling with that loss of control.

I've enjoyed every one of the books in this series. They're just sweet little tidbits that are perfect for a quick read. Always filled with heat, always filled with goodness, and always filled with a sexy alpha hero that's ready to claim his woman. No angst, no cheating and always a perfect happy ever after.

I voluntarily read and reviewed an advanced copy of this book provided by NetGalley and Carina Press. All thoughts and opinions are my own.

Natalie The Biblioholic says

Liam and Andra fought hard to deny their urges. To keep things professional. But their true desire for one

another could only be denied for so long and when these two came together, it was off-the-charts hot!! However, Andra was hesitant to hedge her bets with him. She was a city girl and wasn't sure if the small-town life was for her. But Liam had the power to change her mind and show her their potential. This story was exactly as advertised - short and sexy with a hot alpha waiting to lay claim to his forever.

Release: 06.25.2018 | Erotic Romance/Smut | **Dual POV** - 1st person | **Heat:** 4 | **Standalone** - The Ash Brothers #3
