Trickery Treat

Diana G. Gallagher

Trickery Treat Diana G. Gallagher

A portal opened -- as a means for amends,
Leaves a vengeful spirit to roam.
Helping him cross over is the only way,
To restore peace within the home.

It's Halloween, and Piper is busy decorating the Manor, which has become the neighborhood hot spot on the most bewitching night of the year. Meanwhile, Paige decides to use the party as a chance to honor the dead. She casts a spell that creates a portal for a clan of leprechauns...and other wandering spirits.

The guests are thrilled and impressed with the realistic effects, but Phoebe, Piper, and Paige soon realize that they have a big trick to deal with: one not-so-friendly ghost going out of his way to turn the Manor into a haunted house. The Charmed Ones must stop this evil soul with a vengeance before he takes the life of one experienced ghost hunter who knows his story and has met him before....

Colee B says

Considering this book is the last in the Charmed series, I think it was decent. The story is nothing special, but it was nice to have Leo, Henry, Coop, Vincent, Wyatt, and Chris in it. I also like that the book takes place during Halloween and gives Paige some closure with the leprechauns. As other people have noted, there are several instances where the editor should have caught distracting typos (such as when Cole, Phoebe's ex husband, is used instead of Coop, Phoebe's current husband and the one who is actually in the story). If you're a fan of the series (book, comic, and/or tv) then I'd recommend reading this novel.

Natascha says

The story of this book takes place after the events of the show, which I really liked, because my favourite male characters were in it (Leo, Coop and Henry).

It was very entertaining, I thought, good story, though, here and there, I found some mistakes, like a change of names or something (for example, I think the author meant to write "Coop" but wrote "Cole"). But other than that, I really liked it.

Robin Reynolds / October Woman says

I've read a few Charmed books and usually enjoy them. They're written for teens so they're not great literature or anything, but they're fun and bring back memories of the show, which I was a huge fan of. However, this one was a little more grating than enjoyable. As each sister is introduced into the narrative, a lot of incidents from the past are mentioned. Example: "Three years ago, a 'Return to Owner' spell on a pair of Grams' red go-go boots had sent Paige back to 1967." I remembered all of these incidents from the TV show, but by the end of the first chapter, it was information overload. And this continued throughout the book. At the time the book is set, Phoebe is married to Coop. Yet on page 122, Coop is referred to as Cole. Twice! The most interesting scene in the book (to me) involved Paige brewing a potion, and asking Piper to hand her the powdered dragons' blood. I had watched Off The Map the night before, about a group of doctors working at a clinic in a tiny town in the South American jungle, and two of the doctor's had walked through the jungle, scratching at trees with a knife, looking for dragons' blood, a resin. They used it as an adhesive to make temporary bandages.

La Toya says

LOVED. But you've got to be a fan of the show to get into it. The characters and story lines have already been put into place and they do some explaining but not enough for someone completely new to the series.

Kathryn Steffen says

AHHHHHHHHHHHHHHHHHHHHH!

Ok, yes. I read what is basically Charmed "fan fiction" ok? I stumbled upon the first set(aka with Prue) of these at my local library around the time I was 14 and fell in love with them since I am a HUGE fan of Charmed. I was ecstatic to find this one at Half Priced books as it is the only one I am missing. For fans of Charmed, this is perfect. The book takes place 5 months after their defeat of the "Ultimate Power" and it is just a nice little closing story that allows the fans to see the sisters all married and happy. It was wonderful. I highly recommend it.

Cody says

The storyline was good however there were lots of errors pertaining to the history of the charmed ones and just in keeping with the storyline. It was kinda fun trying to see how many errors I could find.

Casey says

2.5 stars

Katherine says

Now this is exactly the kind of spin-off story I was looking for. True to the characters, true to folklore and to what the Charmed series was all about, *Trickery Treat* was an easy read, engaging, and fun. What a coincidence that I finished it on Halloween, too!

If you're into the Charmed series, I'd say save this book in your quest of reading through the series for last. It'll be a great refresher after the other books--most of which aren't half as good as this one.

Wow. This book just really made my night.

RumBelle says

Halloween was always a special time for the sisters, and this story really ramped that up. Trick or Treaters, the house taking on a life, and magic of it's own, and rampant mayhem. All made for an enchanting, magical,

and wild ride. I enjoy the spells in these books as well. It is always such fun to read them, and see their creation.

Megan says

[There were a few errors, but the one that stood out the most to me was when Cole's name was used in place on Coop's, twice. Kind of a strange mistake, considering at this point in the series he has been long

NoOtherOneButU says

i love this book atleast so far

Christy says

I absolutely loved this book. it took place the Halloween after the series ended. it had the girls their husbands and the kids in it. I adored it and the Halloween And ghost haunting was perfect. I wish they had more books out after the show ended

Mary says

Great book i loe how it filled in the blanks after the show and the focus on halloween lore and how there sisterhood lasts even thought there own lives are separate now
