A Treasure Worth Keeping Kathryn Springer

Seeks Solitude...

Spending the summer in tiny, idyllic Cooper's Landing sounded wonderful to play-it-safe teacher Evie McBride. She'd read, relax and run her dad's antique shop while he set out on a fishing trip. So how did she end up tutoring neighbor Sam Cutter's troubled teenaged niece? Especially since Sam's handsome face and sense of adventure didn't give her a moment's peace. Nor did the news that her dad wasn't out there looking for trout, but for a centuries-old sunken dowry with criminal ties. Ties that bound Evie and

Sam to danger...and to each other.

Melanie says

Simple story so far.. honestly I bought it because it cost \$5 and looked like an easy read. I'll let you know.

Jill Twigg says

Kathryn has done it again. I love the humorous additions to her books. Anything that can make me laugh and cry in the same book deserves a five star. Thank you, again for an awesome read on a lazy Sunday afternoon.

Janet Robel says

Sweet romance with a bit of an adventure. This is a nice, quick read that's perfect for the beach.

Karen says

Evie McBride goes to help her father's store while he is away on a fishing trip... Sam Cutter's got his niece Faith to deal with as they all recover from his twin brother's accident. Will Sophie's treasure put everyone in danger or will God help them through?

Susan F says

I really enjoyed this book.

Kelli says

I had a hard time getting into this one. It wasn't until the end of the story that I began to pick up a little bit of a connection. I felt by then it was almost too late.

joyce lynn says

getting closer to the end of my "quick, lite, easy reading" pile, and will soon move back to all the twisted thrillers!

loved how the main character of this book stood up against her fears when push came to shove. i also like the sacrifices that her father made to help her as a child. found out later it was wrong, but ... been there, done

that, myself. and w/ out a crystal ball, NONE of us really know how what we're doing as parents is going to work out til MANY years later. ya just do the best ya can w/ who/what you are at the time

L A says

Good read, enjoyable series as a whole.

Veronica says

I would have to give this book a 3. I like Kathryn Springer's books but of the three McBride books this one was my least favorite. This book wasn't quite as good as I was hoping it would be but it was pretty good and worth a read.

Mary says

couldn't keep my attention after I was 1/2 through it.
