I give it a 4 star because it is a great book for beginners. it uses basic vocabulary, short sentences, and it's a simple story. My 5 year old son loved it.

follows the movie pretty good. my son even is starting to see his sight words

Molly Schoonover says

This book is perfect for new readers and perfect to have in an elementary classroom. Its font is large and it has familiar characters (from the Cars movies) in order to keep children engaged in the story. I love how it underlines the verbs used to emphasize verb tense- a concept that can be tricky for students to grasp at first and is very important for all to understand.

Powers Family says

Great stories for a Cars fanatic like Nicholas.

Stephanie Snyder says

A great choice for every child's bookshelf.

Padriac Hickey says

Personal response: Well not an book to get an kid to sleep. But it made him want me to read more. The book was made for children not for me, so I didn't like it as much

Plot: The book was made according to the movie. It starts out talking about who and what Lightning Mcqueen was. Lightning Mcqueen was a race car sponsored by an company called Rusty's who moved him around. When on the way to the big race he got last and turned a town upside down,messed up a lot of decor and broke the road. The townspeople agreed for him to fix the road. As he finished camera crew came and rushed him off to the big race. Matter wanted to help Lightning Mcqueen so did some of his other friends came to help their friend finish the race.

Recommendation: I would recommend more of these books, and to read an better book for getting an kid to sleep in a bed.Wyatt liked the book because he loved the movie and he just likes how Matter is funny. I would recommend more books for a 3 to 7 year olds.

Becki says

This is a nice book to read to your child heading into preschool/kindergarten. The words are short and easy to pronounce. As well as big and bold so she can see each distinctive letter.

I would suggest watching the movie first. Not only will it make it easy to understand she can also familiarize herself with the characters.

Tanya (mom's small victories) says

good for kids learning to read. cute story about friendship.

jacky says

I thought we had read all of the Cars books in the Step-into-Reading series, but I guess not! This one follows the movie. If memory serves, the other three use pictures from the movie, but the stories are not from the movie. Its a simplification focusing on just McQueen and Mater, but it works for the purpose.

Spencer says

Wants this book read repeatedly. Loves it.

Rosa Cline says

This is a level 2 reader book. This book summaries the Disney cartoon "Cars" very well... there are only a few places that is 'choppy' but mostly it goes hand in hand with the movie of course leaving out some stuff...but the storybook moves along well if you have never watched the movie.
