Dusk (Equinox #1) H.J. Bradley

Prince Johannes of Finland has always been a hedonist. Handsome, rich, and carefree he has a love of fast cars and even faster women. With a reputation with the press and paparazzi, he is seen as the black sheep of a rather traditional and stoic family who are losing their patience over his ruined public image. There is however a secret. One that Johann has been carrying with him since birth, his betrothal to a hidden Welsh Princess who he hasn't had any contact with for six years.

Being arranged to marry a man of her father's choosing was always Myfwany's destiny, and so having herself bound to the newborn son of the Crown Prince of Finland at the age of two was no surprise. For the past twenty-three years she has been groomed to be the perfect wife to a man she barely knows, and she has no doubt that she will perform her duty to the best of her ability.

Their attraction is immediate, but will Johann be able to destroy the barriers that Myf has constructed around her heart against him, and will she be able to put aside Johann's past? Or are they destined to fail before they've even started?

Michele Thompson says

Absolutely loved this book!! The characters are well-rounded and the storyline is well fleshed out. It is definitely one hot read!

Betrothed when they are children, Prince Johannes (a playboy) and Princess Myf (who has been saving herself for marriage) are left to have their own lives until they come to the age of marriage. After not seeing each other for years, they have each developed their own lives and now must come together to marry for the good of their countries.

The getting-to-know-you scenes are so hot they sizzle right off the page, and the story makes sure you keep turning the pages right up until the end. I would definitely recommend this book to anyone who likes a lot of heat with their romance!

A great read!
