I See Us

Meghan Ciana Doidge

I See Us Meghan Ciana Doidge

Here be an oracle. Despair all ye who seek her. Magic will have its cake and eat it too.

Okay, well. So I was mixing metaphors. I was new to the gig.

But as far as I could tell, there were three kinds of people. Those who wanted confirmation that they'd chosen the correct path. Those who wanted to deny there was any sort of destiny at all. And those who wanted to tear it all down.

So why was it always the third type that showed up at the door to my 1975 Brave Winnebago, dragging me into their power struggles and using my past against me — when I didn't even know what that past was?

Could I thwart the destiny that had been envisioned for me before I was born? Could I carve out a future filled with love and light with my chosen mate?

I certainly knew what I was capable of doing to survive. Beyond the past, through the present, and well into the future ... I'd see us.

This paranormal romance/urban fantasy is the third book in the Oracle Series by author Meghan Ciana Doidge.

WARNING: ADULT (18+) CONTENT

Author's Note:

I See Us is the third and final book in the Oracle series, which is set in the same universe as the Dowser series.

While it is not necessary to read both series, the ideal reading order is as follows:

Cupcakes, Trinkets, and Other Deadly Magic (Dowser 1)

Trinkets, Treasures, and Other Bloody Magic (Dowser 2)

Treasures, Demons, and Other Black Magic (Dowser 3)

I See Me (Oracle 1)*

Shadows, Maps, and Other Ancient Magic (Dowser 4)

Maps, Artifacts, and Other Arcane Magic (Dowser 5)

I See You (Oracle 2)

Artifacts, Dragons, and Other Lethal Magic (Dowser 6)

I See Us (Oracle 3)

Becky says

I like this broader series, but the Oracle books aren't actually my faves. I just can't skip them because otherwise I'll feel like I've missed important things. Now I can finally start the reconstructionist book! I think the vampire is in those ones!!! :D

Anyway, despite my misgivings (?) about this main character and her relationship with her tiger (why does he stay anyway? I don't really get them) this book did introduce some interesting powerful characters and made a bit of headway on some existing characters. I would have liked to have seen more of the shifters. Also, I am hoping someday to find out more about Desmond. Loved the Deathlayer chickens!

Peggy Thomson says

Rochelle and Beau's story arc is my favorite in Doidge's world. However, sweet lovers: it's highly inappropriate to express your fervor by christening the children's treehouse. Um- shifters... what you did will not be a damned secret.

Cheryl says

Awesome story! The story is well written and the mystery just flows. Rochelle and Beau meet some new people and stay connected to some old friends. Family becomes an issue but in this instant sometimes your choices will turn your life around. I recommend this book!

Anla Gisclair-Etheridge says

Loved it! I still don't ♥? Rochelle as much as I do Jade but she is getting there. This book was the best of the oracle series thus far. So much packed into so few pages. You need to read the other two books in the series before reading this one.

Jennifer McLean says

I really love Meghan Ciana Diodge's Dowser series and this was also a good little offshoot of that series. It certainly deserves more than three stars but I don't think it reaches four. I also feel like we're left hanging a little about some characters in this book. I did like how our main character finally learned about her own power though and stopped being a wallflower.

Cynthia L. Craig says

Excellent

Everything about this series is everything a UF can could want. I highly recommend this and any of Ms. Doidge's books. I highly recommend reading all of her books in order.

Megan says

Magic, laughs and a few tears

Meghan's amazing stories are amazing, intriguing and addictive. You can always count on experiencing a wide range of emotions throughout the story. When you start reading there's no stopping! In this book we learn so much about Rochelle and her abilities. I was on the edge of my seat with each chapter and revelation about her and even a few unexpected tidbits about other Adepts. I highly highly recommend this series to anyone who loves the Dowser series or just a good read with magic, laughs and the ability to make you care deeply about its characters.

Eileen says

The series was very good. Liked character development of Rochelle. Wish there was more to come.

Amanda says

Yasss

Gosh, Meghan sure can write a great story. That ending, I may have cried a few happy sappy tears. I hope Rochelle still shows up now and again.

Ingrid says

I enjoy all of Meghan's books, but I think the Oracle series is my favourite - so far! The emotion of the characters blends so well into the story. I just can't put them down! Seeing R truly come into her power is gratifying. Can't wait to see joint adventures with J & R!

Donne Knudsen says

This was a great ending to Rochelle's and Beau's story. Loved how they finally got their HEA. Really like the author's way of combining the different series. Looking forward to the next one.

Dschaper54 says**Excellent**

I loved the banter between the characters and how the story flowed, flawlessly. The story was fresh and had me on the edge of my seat trying to figure out who to trust. Excellent books.

Ashley Harbert says**Love love love!!!**

The world Meghan has created is completely immersive! I can only hope that she continues! I started with the first Dowser series, realized there were two more series within the same world and have been hooked from the beginning. I am following the end of this series up with the newest Dowser story.

Pam Chesbro says**Miss you already**

Loved the series. I was really attached to the character as she grew up, matured and found her destiny. Very sorry that the series is complete but enjoyed every minute. I gave 5 stars not for this book alone but for the entire series and the way the author masterfully made me care what happened to this anti-social, rough kid who needed to find a capacity to love. This series has a bit of magic itself in the way that it is really much more than the sum of its parts. The series should be read in order. I look forward to reading more from this author.

Jessica says

Another fantastic book of Meghan's! I freaking love this trilogy so much. I just melt into a puddle everytime something of Rochelle and Beau's love come together. It's so well-written and emotional. This was an intense final installment of the trilogy. I did not see it coming, again, so well-written and fun. I am always simultaneously surprised and not surprised at the depth, reality, and rawness that the characters have woven into them. It's like the characters are real. It's like they move along the story rather than the story having them inside of it. That's the mark of a true, great book. Another mark of a truly great book is when you finish it, you hug it. The book is like saying goodbye for now to a good friend. I love this book so much and look forward to all future work.
