Love this whole series. Love all the characters!!!! Can not wait until book 4. Anyone know when it's going to be released?

I liked this one even better than 1 and 2. Talk about intense. I am grateful that this isn't a movie! Much easier to control my own pictures of the violence and the constant attacks than to have some other graphics in my head. I am finally liking the main Hero. It has taking all three books for me to approve of him being with Ava. Ha! The ending was definitely better than in book two. I must admit I am scared to start the next one, but also have to find out what happens.

I kinda skipped the second book thinking that this was the final book but I guess there's another one after this and I like how this one ended, it leaves the reader with a few certain thoughts. You can tell Cyrus still has it for his girl and you can tell that as hard as she tries Ava is trying to move on (even if she might be faking it for her own sanity) "we're just dating right now Cyrus. Most relationships, normal relationships take time to mature. I'm happy with the way things are right now and so is Rory. And that's all that matters. And Cyrus, not to be rude, but it's really none of your business." Cyrus is on a damn mission and let me tell you what that boy is going for the damn gold, "I know you didn't. But touching you again, kissing you again has been the best thing that's happened to me in two years." He's possessive I think more so in this book than the first, "Cyrus moved closer and leaned down to where their noses were almost touching. "If I ever see another man touch you ever again, I'm going to kill him." He also let's Rory know the score now that he's back, "I'm here to get my mate back. Ava and I are working on our trust issues and our communication skills for the time being, but you can consider us together."

#### **Hybrids!**

I didn't read the first two, but that's okay. I am so happy with this story..... which was complete, lol.... but now I want to go and read them!

This was beating a dead horse for me. Can't these two just get married already! I have no interest in reading the next one because guess what... They are still being thwarted in marrying! The writing is fine and even funny in parts but I really am not into the macho female roles. Just too many frustrations for me to enjoy, yet I am sure this is my problem and not most peoples.

I enjoyed this one more than the second one. It is a fast paced series with loads of scary excitement and romantic twists. I love the characters and can't wait to see where things go from here. Such a great author! I will read anything she writes.

This one was great. It picks up about a year and a half after the last book ends, which was nice. The last book had a lot of drama and Ava really went through the ringer. I was glad she was able to escape and take the time to really heal. She is in hiding in Ireland and finally happy again. She's at a good place and ready to reconnect with her dad and meet her new little brother. Nothing is ever easy when it comes to the town of Paskell and soon Ava finds herself hurrying back to the one place she doesn't want to go.

I love lost-love stories, they are one of my favorite plots so I loved seeing Ava and Cyrus reunited. While I thought Cyrus made a poor decision in the last book, I could understand why he did it. He had really been through a lot and I think he was just pushed over the edge. It was nice to see how much he suffered having Ava out of his life for almost two years (does that make me sound mean?). I think it was good for both of them. I liked that Ava didn't give right in and that they had to work to figure things out again.

There is of course some drama in this one and Ava is there to save the day once again. I thought this was a fun installment.

Book 3, Werewolf Revenge starts us out months later with Ava still trying to heal and find herself again after

her devastating loss. She is trying to loose herself in a new life...but finds that she is just discovering herself all over again. After a terrible tragedy once again hits her family and hometown, Ava is forced to go to the last place she swore she'd ever be ....and has to see the last person she ever wanted to see again.

This is once again a book full of twists, turns, terrifying creatures, and adventure. I am loving this series and I'm completely addicted. I'm also much happier at the end of this one then I was at the end of book 2. :) I am a bit nervous for what's to come though.

Contains violence and scary themes.

Clean romance

\*dreamy sigh\* I love Werewolf Revenge! What am I saying?! I love this whole series! Hehe.

We pick up a year and a half later from where book 2 left off. Ava is in Ireland and has been able to heal a bit. She has found a balance between the old and new Ava. I think she is starting to become who she is meant

to be. No one from Paskell knows where she is and that's the way she likes it. She receives an email from her dad saying that he really wants to see her and after some thought she decides that it's time for a visit from her family. Harry, Perry and Finn all come to Ireland and Ava grows really close with her baby brother. She has a strong, special connection with him that no one can really explain.

After they head back to Paskell, Ava has a horrible feeling one night and calls to check in with her dad to make sure everything is okay only to discover that Finn has been kidnapped. She knows that she is needed in Paskell and will do anything she has to to get her brother back safe and sound. I was completely shocked to see who our bad guy was... totally did not see that coming. And my suggestion is... don't even try and figure it out because any guess you can make will probably be wrong! LOL. Well... at least mine were... ;)

Ava and Cyrus... \*sigh\* I love them again! Hehe. Ava did not consider the old feelings that would resurface between her and Cyrus when she went to Paskell. She thought that she could go there, find Finn and then head back to Ireland... easy peasy. Haha! NOT! They had a few bumps in the road but they were able to talk and work things out. And yes... this girl is a happy camper!!

So.. you might think I am kinda lame but I really don't care! I am who I am and I love what I love! And what I absolutely love is when Ava is in her wolf form and Cyrus kneels beside her and rubs her fur and talks to her. Seriously the sweetest thing ever! I have no clue why I love it but I just do!

Looking forward to book 4... Werewolf Betrayal. Seriously LOVE this series!! ;)

Oh... and P.S. I still can't stand Cole! He is still a creeper and I do not trust him at all!!
