Can love survive when surprises are revealed?

Chad Douglas has been in love with his younger sister's best friend for years, but he's kept his distance—their age difference, his rising rugby career, and uncertainty standing in his way. After living in England for the past three years, Lana Cage moves back home to Australia. The night before she left Australia for England is a blank memory, but on her arrival home, the consequences end up being a surprise for both her and Chad.

Desperate for another chance at love, can Chad and Lana have their happily ever after once the surprise is revealed? Or will trust be lost and their lives forever changed?

Lana "doesn't remember" having sex with Chad. Except she says she has vague memories that she thought were "wishful thinking" o.o and she's too embarrassed to even call him on the phone to ask if they hooked up. Even though, ya know, she obviously had sex with someone since the stick turned pink.*

facepalm

Her daughter is supposed to be two years old. Apparently she is a crazy advanced two.

This was a fast paced read.Literally. I think if I blinked, I would've missed chapters.That being said, it was an OK read for me. Chad & Lana have secretly been in love with each other but because of their age difference & one drunken night, their relationship was put to a screeching halt.

Fast forward 3 years later & Lana is back in Australia with a little souvenir from that drunken night. A daughter!! Lana has no memory of that night or who she slept with cuz she was that wasted & my first thought was Oh sh*t it's about to get REAL.

Enter Chad Douglas a.k.a walking one night stand a.k.a baby daddy a.k.a Rugby's most notorious bad boy. Chad has been secretly in love with Lana for years but too scared to admit it especially with their age gap(10 years).He wants Lana & he's not about to let her go this time.

Chad remembers that night but Lana doesn't & so this is where the story begins. He wants her as his.He pretty much pissed in a circle around her & wrote MINE with a black sharpie on her forehead. He was that much of an Alpha & while I love me some Alpha, the story was too fast paced for me.If it was slower & it had like a build up to things, I probably would've rated higher.

Their first encounter after not seeing each other for more than 3 years, they go horizontal! I went back because I thought I missed a chapter. That was too fast for me & everything else that followed after was pretty much the same thing.

I liked the plot of the story & even though it was told from a third person POV, I stuck with it.

Very cliché, not entirely interesting to read and it was all just over too quickly - no really climax or ending

Awesome book. Great story line. Hotties. Love. Great characters. What more could you ask for. This book has it all. Couldn't put it down.

I Loved this book.

As always the guy was hot and the sexy times numerous and well written. I found that the emotional content of this story was excellent. Ms. Gower knows how to put a book together. The pace and flow were right on point. Hazel Gower has become one of my favorite authors.

A quick and easy read. Low on the angst. High on the sweet. Enjoyable.

Great book with engaging characters. I liked the statement that Hazel put at the front of the book warning that there would be Australisms in the book, so I settled in to enjoy the book without having to mentally translate. I was a little disappointed 49% into the book when Lana was explaining what she loved about working with flowers when colour was spelt incorrectly without the u however this didn't spoil the book.

I have read some of Hazel Gower's work before and always enjoy the stories she tells.

I can't say that I've read all Ms Gower's books but out of all that I have this was my least favorite. The whole thing about her not remembering and not even trying to figure out who her baby daddy was and his whole family making bets on when he'd 'claim' her. Bets that started 7 yrs before so she was like 13-14 and he was in his early twenties, kinda creepy.

Nenya says

Chad grinned when Lana gaped at him like a fish. He would admit he'd fucked a lot of women, but he'd never dated them or shown affection for them outside of the sex. Sure, photographers had caught him chatting up a girl or fucking one. He even did promo pictures to make it look like he was dating someone, but he'd never really had anything serious like a girlfriend.

aww... what a **hero!** blech...

come to think of it, it was *his* party, where she got drunk, and he took her to bed, and got her pregnant, and she keeps apologizing and saying "oh, that sounds so slutty" (that i was drunk and don't remember getting knocked up) and the H never once feels remorse or apologetic or sorry for anything!! downgrading 2 stars to 1

I love this sweet, but sexy story. This story had a lot of good qualities. Interesting characters, thrilling storyline, lost love's ,and a family that sticks together. Looking forward to reading more!

Connie says

Pretty interesting read. Storyline was fast paced, entertaining, sweet and hot. Due to age, distance and a minor secret, Chad and Lana spent years apart without knowing the love they shared for each other. Not to say their relationship was a bed of roses and didn't have a few bumps along the way. They have steamy chemistry and interaction. Overall an enjoyable second chance book.

Emily says

Chad Douglas knows that his sisters best friend is heading back to Australia. It has been years since he has seen her and they had one night before she disappeared. Lana Cage is coming back to Australia with her daughter, she doesn't remember anything about the night that her daughter was conceived. What will happen when she regains her memory and remembers everything?

This was a fun quickie. I liked Chad and felt for Lana because she is trying to do right by her daughter and he heart. Great read, another wonderful read from this author.
