Witch School: First Degree: Lessons in the Correllian Tradition

Don Lewis-Highcorrell

Witch School: First Degree: Lessons in the Correllian Tradition Don Lewis-Highcorrell

The three-volume Witch School teaching series will prepare you for initiation into all three degrees of Correllian Wicca, one of the largest and fastest-growing Wiccan traditions in the world. As an additional bonus, WitchSchool.com offers many optional interactive features to enhance your textbook learning experience.

Become a Witch

Set foot on the Witch's path and embark on a journey that will transform you at the deepest levels of your being. The twelve lessons of the Witch School's First Degree, designed to be completed in the traditional "year and a day" format, introduce Wicca as a spiritual path and teach you the essentials of becoming a Witch. Each lesson has six sections: the lesson itself, magical exercises, God or Goddess lore, a spell, a glossary, and study questions. You'll build a solid foundation for your Wiccan practice by mastering the following Craft tools and techniques:

Magic Cosmology Personal Power The Altar The Airs The Circle of Art Invocation Garb Symbols, Omens, and Divination Basic Energy Work Herbs, Oils, and Incense Stones and Crystals Completion of the twelve lessons in this book makes you eligible for initiation into the First Degree of Correllian Nativist Wicca.

Lacey Hylton says

The whole layout of the book was great!! It first gives you your Lesson, then a Exercise to work on, A spell, Then teaches you about a God or Goddess after each Lesson , has a glossary and at the very end Study Questions for each lesson!! I really can't wait to get the next book, this first book was a review for me because I knew alot of what was already in this first book but it never hurts to brush up on your knowledge. very impressed I definitely will be going back and using the exercises and some of the Spell work from this book!!!

Joey McBride says

Amazingly informative and well written, Don-Lewis-Highcorrell lays out basic fundamentals of magic in his book and gives learning exercises a must read for anyone who wishes to go into pagan teachings

Cori Nichols says

I was with the tradition for a long time. This book was supposed to be a introduction to what they are about. I was wrong. There is so much misinformation in this books and a lot of terms that if used would not be something that other pagans would understand. They claim to be inclusive but that is just a way to get money from the students. After their Common Book of Wicca and Witchcraft failure it has been shown and proven that they are not a true school. The classes at their site are full of grammar and usage errors. This is due to the fact that most of the classes are written by students as part of their classes there. Even with all that are paid monthly by students you would think that they could at least keep their classes updated and correct. I have been pagan for a long time and what are in these books could can find better explained in books written by better authors.

Rachel Lynn Miller says

I have just started this book. If you are looking to earn your first degree..this book is absolutely phenomenal! It has so far been very informative. It should only take a year to get thru it. There are 12 lessons designed to be completed 1 lesson each month and you will need a month to go through each one and make sure that you completely understand each lesson. I started lesson 1 on February 1st and expect to finish it soon. A must buy!!

Kat Molinar says

Good read, interesting lessons which inspired many thoughts and questions.

Taya says

very informative and I like how the chapters are laid out. with information and then God's or Goddesses and exercises and then glossery. ..

I'm going to reread and do each chapter as they are meant to be done as once a month. but I like to read the book first and then start over.

the visualization lessons are great and also working with the Chakras is a new experience for me since I've never done anything like that.

Rebekah Gamble says

How do you rate a book that is written by a person presenting their own spiritual tradition? I feel like, as long as this was organized and clear, I wouldn't have the right to judge it as a book anyway. After all, people sharing their traditions is a gift.

As a textbook I enjoyed it's clarity and organization. There was also a levelheadedness about it's presentation in which other ways were respected, but this way was presented. I found that admirable.

There are things in this book that don't strike me as 'witch craft,' so I can see how some might think poorly of it, but again, I see it as a person presenting their tradition, so I don't feel like I have the place to judge the actual belief system offered.

Lodane says

Mixing a bunch of spiritual traditions without explanation, calling it "eclectic" to lampshade. Forming a church and clerical school... complete with patches and garb. Whoa, man... this is decent world-building for Urban Fantasy, but, nobody should take this seriously. For any reason.

They call it the Correllian tradition. Highcorrell is a name the dude gave himself. It's one letter from being Han Solo's home planet. Check out my new religion, it's called M'Falcon and we prefer blasters to hokey magic.

This is the cheapest Kool-Aid I've seen since Raelism.

REASON TO BUY THIS BOOK: If you can find them for a \$1 at goodwill, and you're a writer, and for some reason have a group of Wiccans that read your books, you want to write "realistic" magic for that audience, and you don't want to read a bunch of books from Llewellyn's.

I'm posting this on all three books in the (lol) trilogy
