There were some good devotions, but I didn't quite connect with the author's style.

Wanted: A Well-Worn Path by Dan Wilt (Devotional) Book Review

My Qualifications For a Quality Devotional and How A Well-Worn Path Adds Up:

1. Verse(s) included - very close paraphrase of the verses so it's easy to know what the devotional is referring to
2. Quality passages that get me on a spiritual plane - Yes
3. Suggested Prayer - yes
4. Questions to further engage thinking - No

This Devotional structure has 3 of the 4 qualities I look for. However, I would be inclined to use this as a daily devotional because the passages are written in a way that the reader feels he/she can truly connect with God. I would recommend this devotional to anyone wanting to get closer to God but may not have much time for a Bible study. I will be using this devotional personally.

Lost me at the wife must submit to husband. Why can't that be wife and husband respect and submit to one another? Not an interpretation for me.

I really liked his way of writing. A bibleverse, a short devotion and a prayer. It was practical and thoughtprovoking. It could easily been longer.

**Mimi Davis Hopkins says****Keep your eyes on things above**

This is a very inspirational and well written book. Lots of scripture, with thought provoking explanations. The Word of God it's truth, and this is a clear and pronounced. Keep your eyes on Christ and your heart in His Word and you will be able to stay on the Path.

**Steve Campbell says**

This is a solid devotional that challenges readers to put their faith in action. Each daily reading begins with a short portion of scripture, which is followed by a statement of the objective of that day's reading, beginning with the words, "Today you will...." I found the emphasis on action to be helpful. The author has an encouraging tone and comfortable writing style.

This could've been a "lighthearted" devotional but Mr. Wilt loves for the Lord come through the book, and for me that makes it a strong Book. I look forward to his future books

It was OK. Not very "meaty" but not terrible.
