Alien Warrior's Mate Scarlett Grove , Juno Wells

She's looking for a job, not a mate ... but fate has other ideas.

Loretta Franklin hasn't paid much attention to Draconians, the dragon shifter aliens who've come to Earth looking for human mates. She's been too busy getting her MBA so she can take care of her grandmother and younger siblings.

But when she comes to NYC from Alabama for an interview, anti-Draconian terrorists attack the building she's in. They want the dragon shifters to leave forever, and they don't care who they kill.

Fortunately for Loretta, Draconian commandos come to the rescue. And their leader, General Mylash Shin, might be intimidating--but he's also the sexiest male, human or alien, she's ever encountered.

Mylash is certain the curvy human is his mate, and urges her to take the DNA test to prove it. Loretta finds the seven-foot-tall warrior hard to resist ... but she doesn't want to leave her planet and her family. Can the general win his most important campaign ever, and persuade Loretta that he's worth it?

Susan Burgess-Ryan says

ARC book given for honest review: This is the first Alien book I have read by Scarlett Grove and Juno Wells. When I received this book I realized it was the second book in a series that I had not read the first book. Scarlett assured me that I would be able to read it with no problem, and she was correct. I read the book with no problem because there was lots of information in the book that let me know exactly what was going on Earth between the humans and the Draconian's. The Draconian's came to earth to mate with human women that are DNA compatible with them. So they held lotteries for the women that were willing do this, earth allowed this for the technology the Draconian's was able to give them, in order to keep their species from dying out I rate the books I read on certain things and one of them is if my attention is grabbed in the first of the book. Yes it was in this book. Another aspect I rate on is if I my attention is kept through out the book and I can't put it down till I am done reading it. Yes this book did that. If the model on the cover of the book is a good reason to pick this book. (I have done this many times and found the book so good I kept wanting more). The model made my mouth water! Another way I rate the book is can I follow the book and not get lost as to what is going on inside of the book. Yes, I was able to follow this book to the end and never got lost. I will also rate the book according to how the characters are developed throughout the book and if I feel a connection to them. Scarlett and Juno did these characters just right and I was able to connect with both of them. Will I read more of their books? Oh definitely!!!

Loretta Franklin had a lot to deal with in that she had to help her grandmother with the raising of her younger siblings. So she spent her time going to school in Alabama so that she could go to work in NYC as a stock broker. Having done this she had not paid any attention to what was going on on the planet with the Draconian's and the Anti-Draconian terrorists that wanted the Draconian's to leave earth at any cost and that includes the taking of human lives if necessary. After her interview with a top stock broker firm and feeling good about the interview, Loretta starts to wish that she had paid more attention to what was going on. Anti-Draconian terrorists take over the building that Loretta had her interview in.

Fortunately for Loretta the Draconian commandos are called from the battle front with another planet to come to earth to deal with these terrorists and their leader General Mylash Shin isn't too bad to look at either. She finds him actually the sexiest man alive, human or alien. General Mylash rescues Loretta from the terrorists and realizes that she is quite possibly his mate and coerces her to take the DNA test to prove this. Loretta finds the 7 ft. tall alien too hard to resist and even though she wants him, she cannot leave her family behind or her home. General Mylash has his work cut out for him while trying to convince Loretta that he is above board and definitely worth the risk. Can he convince her?

Plenty of surprises in this book to keep you captivated so that you will not want to put the book down. I promise you will not be disappointed.

I received an ARC of 'Alien Warrior's Mate' from the author, in exchange for an honest review.

I couldn't wait to start reading this book, I wanted to know what happened next for Earth & the Draconians. 'Alien Warrior's Mate' is book 2 of Scarlett's "Draconians" series, I highly recommend you read book 1 prior to this book, although it's not needed. 20 Draconian commando's have arrived at Earth to deal with the backlash of their technology on Earth. General Mylash is on the scene of the anti-Draconian resistances first attack, there he saves everyone in the building & meets his mate. Loretta just had a job interview, before she makes it out of the building the anti-Draconian resistance hits...

Again I loved how Scarlett wrote this story, you had everything that draws you into a story, an amazing backstory, a sassy leading lady, the action; steamy or otherwise... everything weaved together in the story, that had me entranced until the end. I can't wait to read the next book in this new series & also other books from Scarlett.

Good story but could be improved upon.

I have enjoyed reading about the Draconian race and their mate mission. This can be a standalone read but I believe you need to have read book 1, Alien Commander's Bride to get a better understanding of what the Draconians are doing on earth.

Everything in this book happens within a couple of days which makes it a bit unrealistic in terms of acceptance of feelings for me.

Loretta started out sounding like a great, interesting person but then I found her to be a bit wishy washy and dithering in her actions and thoughts.

Mylash wants nothing to do with our barbaric race and has not entered the mate lottery.

I loved how Mylash reacted when he first saw her when he had to save her.

I sort of felt she was prostituting herself for the money. I know it was for her grandmother and younger twin siblings, but as she did not really accept or believe she was Mylash's mate I think taking the money was just wrong. Loretta kept wanting to think about things (short time frame) but had sex with him. Huh. Think it out first then sex, not sex then panic and run away, needing saving again.

I can understand it was all a lot to happen to a person in a short space of time but I did not think there was enough talking between her and Mylash about what they both wanted and how their future would be.

This was a good book and with a bit more thought could have been a very good book.

Will be awaiting the next in the series.

This is my honest review of this book.

Loretta just wanted a job but after getting caught up in a bomb blast and being rescued by Mylash, General of the Draconian military she has a life changing decision to make.

A quick read to pass a couple of enjoyable hours.

Book was ok. Liked premise of hot v H finding his mate. I got bored though. Stopped at 52%. in the mood for more than erotica

Yeesh. Ok, this is book 2 and I liked the first book better and it got a 3 star rating. This read a little too much like the first book. Except some things have changed of course and characters were different. I did feel the familiarity though when reading it. No new information...not really. Female character Loretta was just too easy to sway! I mean she did panic briefly but that was over. They mated but not fully and she panics again. Wishy washy. Mylash didnt even want a mate at first til he saw her. Its hard to go with the flow with such characters! He's all gruff at first and does a complete 180 after meeting Loretta. He softens too fast for me. Just seems unbelievable considering the same guy says leave humans to their stupidity a few hours earlier. I dunno I am just not digging the series that much. Maybe if the characters were written better and seeing how its a different couple in each book that the stories are different but so far its more of the same. I've read a lot of sci-fi short romance stories in a series also but they do differ quite a bit. These are just too similar. I really wanted to like the story...really bad because the blurb was really interesting but fell short of expectations. I have 2 more stories in this series to read and I sincerely hope they are better.

The Draconians (alien race of shape shifting dragons)trade of technology for willing human mates isn't working out as planned, it has caused a economic depression and given rise to a new terrorist group calling themselves the Human Liberation Coalition bombing humans at random till the Draconians leave Earth. Fearing humans will wipe themselves out without intervention the special forces, Draconian Commandos are called in to take a firmer hand in Earth politics and society. Leading the commandos is General Mylash Shin. His first assignment is to neutralize a bomb threat by the HLC in NYC, he takes out the bad guys with one fiery breath and while evacuating the building finds his mate (wow and he just told his commander he didn't want a mate...huh men). Loretta Franklin was in NYC for an interview for her dream job the one that would save her family and fulfill her dreams, definitely not looking for a man. Unlike Mylash, Loretta is not smitten at first sight, so he improvises by making her a deal she can't pass up. What follows is one of the most interesting and possibly dangerous courtship ever. This was a fun read and a promising series, interesting characters, exciting storyline and don't forget the steam! I definitely recommend it.

Instant attraction

Mylash is here to save the world when he runs into his mate. Whom he quite literally was not ready for. But as we all now, the best things happen as surprises. Enjoy!

Raina Collins says

Second book in the alien romance series. Humans seem to want to destroy themselves. One group threatens other humans to try and make the aliens leave. But a new team of aliens has arrived to help earth and hopefully save humanity from itself. But one human female will have what could possibly be the worst day of her life but also the best. Some action with aliens in dragon and human form. And things do heat up as well.

I voluntarily read and reviewed a copy of the book.

Goddess of Chaos says

Mylash has some unwelcome tasks to face, but meeting Loretta changes everything

Humans are behaving like toddlers in the eyes of the Draconian aliens who are struggling to interact with them. The Aliens don't want to invade, colonize or exert pressure on society, but if this infantile culture won't man up, then the adults will step in, in the form of Mylash and his Commandos.

Loretta just got her MBA, and is ready to get her first job in Wall Street, not face her first terrorist attack... but when Mylash saved the day, everything does get interesting.

I love Mylash's determination to find an agreement that Loretta will feel benefits her enough to consider. She hasn't entered the bride lottery, and has no reason to, so he keeps looking to see what matters to her, what holds meaning to her, and make spending time with him also benefit her needs. It is a wonderful perspective on caring.

I like that she at least got to choose before his "wonder juice" was applied.

Dora says

This is the second book in the series and the only one I had read. Now, I'm willing to get the first one. It kept my attention all the time with the good narrations and dialogs making me read it non- stop until the end. This

is a futuristic word psi-fiction book that made my imagination flow with good images. Loretta Franklin was looking for a job in New York City. Her grandmother had been taking care of her sister and brother and now was time for her to take charge. While she was leaving the building, after the job interview, a bomb exploded. The Human Liberation Coalition group was attacking and demanding that the Draconian leave the planet or the terrorist would kill fertile women. She was a fertile woman and fearing being hurt she was hiding when Draconian General Mylash, found her. Mylash was attracted to the human woman and felt the pull of a mate immediately. He never thought he would find his true mate and had been ready to be without a mate for all his life. Loretta was not part of the lottery to match human women with draconians. With the struggle with the terrorist and the war ahead would she accept him as her mate? How could he win her? Loretta's doubts made her struggle against her feelings. She was feeling the attraction toward the alien warrior but they were different species and she feared she would have to leave her world behind. How they were going to deal with this? The book was very entertaining with a mating between different species being the male protagonist a dragon shifter from outer space. I was touched by Mylash pursue of his mate's acceptance. He was a very good character. It had a good pace with suspense, strange romance and action with the terrorist group and lots of hot sex. Liked the story development and the character's chemistry. Received the ARC for an honest review.

Rosebud says

Draconians (dragon shifting aliens) have come to Earth promising technological advancements in exchange for female mates as their planet has an extremely low female population.

General Mylash Shin, alien commander, isn't impressed with Earth or it's inhabitants. His feelings are that Earth is self destructing and it's only a matter of time before they destroy the planet as a whole. His only thought is to complete his mission and return home to live out his life as a bachelor. That is until he sees Loretta Franklin.

Mylash has finally found his one true mate. The only thing is she hasn't registered for the DNA registry of potential brides for the Draconians. That means he'll have to court her in the archaic Earth tradition to win her favor. And even then, she could refuse in which case he'll revert to the Draconian custom and take her.

I grabbed this book after reading a glowing review on a blog I subscribe to. Sounded like something that I'd enjoy so even with it being 88 pages and non-lendable, the Amazon price of \$0.99 convinced me to one click it.

I wanted to like this story. I really really did. Unfortunately I just didn't. I pretty much was ready to DNR and delete the book from my kindle at the 49% bar but wanted and needed to know how things would play out. So. I admit it. I skipped pages.

Overall this story reads as a narrative rendition of aliens (warrior class) traveling to Earth for the sole purpose of procreation. They bartered for the opportunity to obtain their mates legally. This barter system (advanced technology and medical cures) lead to global economic instability. The fallout was also dissidents

and protesters who objected to the mere presence of aliens. The story goes on but basically Loretta is a TSTL character and Mylash a poor representation of alien alpha male.

The adult content scenes just didn't work for me. I guess I liken them to a "me Tarzan you Jane" scenario. I did tag this story with a virgin tag and that person wasn't Loretta. I just feel that for this story the scenes were forced and too mechanical to be appreciated.

Bottom line. I'm not a fan. Others might be which is the beauty of reading in general. Different strokes for different folks. Vive la difference

Tanja says

a terrorist group made a huge mess of Loretta's plans. she was just in the building for a job interview, not to be taken hostage and threatened to be killed because an out space race of dragon shifters has chosen earth to "provide" them with willing woman to mate with.

Mylash would rather stay at home and fight at the front but the big chief made them go ahead with the mating excursion. ugh he couldn't see the appeal of taking a human female as a mate, he wasn't interested at all. things on earth are taking a turn for the worse when the news of the attack reaches their ship. Mylash is sent down to take care of things. never before had the dragons shown their real power to humans but now they were wanting to kill their own females so dragons couldn't mate them. it kind of forced the issue.

Mylash is taken by surprise when he finds a single young female huddled in a corner, not sure what to make of it initially, he's quickly realizing his dragon had other plans with this particular female!

how is he going to convince her that they're meant to be? the only good thing is, she wasn't in the available group so he can hide her while they make their mind up!

a lovely read. Mylash is upfront and doesn't beat around bush about what he wants and what he wants is Loretta, only Loretta isn't so meek and willing as he'd like her to be.

shifters from outer space, i like the twist given in this story about the how and the why. a fresh look on things makes for a wonderful story!
