Xavier Leigh is a man who knows what he wants. He's determined, successful, and is the head of a billion-dollar business. The only thing he doesn't have, is a baby, an heir. He wants a child, he wants a family, and the only woman suitable is, Anya, his sexy red headed PA.

When Xavier propositions her, Anya can't be sure if he's serious or not. She wants a child, but she always imagined being in a loving relationship. He lets her know that there wouldn't be anyone else for either of them. If she agrees, she belongs to him. They will make this baby together, and a family.

Taking some time to think it over, Anya accepts.

But Xavier doesn't stop at a baby. Within no time they're married, and already starting out in their baby making. Xavier wants Anya. It's like a passion burning inside him, constantly building when it comes to his fiery red head.

The passion between them is like fire. Anya knows without a doubt that her feelings for him are deepening.

To most people he's a bastard, a ruthless man that will go after what he wants. She knows the truth. Xavier is a man who can love, who yearns for a family, and someone to love him.

She is that woman, and she is going to make sure he feels the same for her.

Are you looking for a short smutty read, with a filthy talking alpha male? Well, look no farther.

Xavier Leigh gave us the alpha experience. He was gruff, bossy and a manwhore. Even though he had his eye on his sexy assistant, he kept their relationship professional because she did a fantastic job. That is until he was tired of the lonely life he was living. Sex and work were what he did. Never having relationships, just sex.

Anya was sweet and kinda naive. She worked for Xavier for 4 years and saw how he treated women. She often felt bad for them at the way he'd cast them off when he was done. For that reason alone, she was apprehensive when Xavier proposed having a baby with him. She straight up told him she didn't want to be like the other women he used up. I loved that she stood up to him.

- hot filthy talking alpha man
- naive and sweet heroine
- no cheating (view spoiler)
- no om drama
- ow drama - (view spoiler)
- great epilogue with a HEA

This was a quick read and felt rushed towards the end in order to get the story line played out. Xavier ended up redeeming himself and was a great husband and father. However, she did see him with other women and he was a manwhore so if that isn't your thing.....

This was a good book although I think Anya was a little too bitchy and kind of judgmental also it did remind me of On Her Knees by Jenika Snow. Xavier Leigh is a determined, successful businessman whose employees refer to as the bastard boss. I didn't find him to be a bastard at all as a matter of fact I thought he was sexy, charming, generous and sweet as hell. I just think he was guarded because of his childhood

growing up in foster homes and it was hard for him to open himself up to people. He worked his ass off to have a better life as an adult and he was very active in several charities especially ones having to do with children. He's now pushing forty and he's starting to think further into the future and he's decided he wants to have children so he has someone to leave his legacy to. He thinks his personal assistant, Anya would make the perfect mother so he propositions her. Anya is shocked when he tells her he wants her to be the mother of his child after all he's always dated supermodels and she's curvy. Xavier is very attracted to Anya and he knows she's a wonderful person and he wants someone different than the vapid women he usually dates. She's reluctant at first but she finally agrees and pretty soon she starts to see a totally different side to the arrogant businessman she's gotten used to and she loves this side of him. I loved Logan and it was so awesome what they did for him but OMG, the name they came up with for their kid was hysterical.

*He sighed. “Yes.”*

**And so just like that, I said Good bye to Sam Crescent's Bastard Boss.**

**Clearly, I am NOT the target audience for this book. To top it all, she has been watching him f\*ck around for years as she works for him and now he wants her to have his baby.**

**WHY?**

**Because she is single!**

**Really?**

**This is romantic for who here? Cause it's not romantic to me.**

**I guess, my idea of romance is different than most. But I am who I am, and to me this is a romance fail.**

Xavier Leigh is about to turn forty and has decided he wants to have an heir. The women he dates are not the type to raise his child, but he has has a long simmering desire for his PA, Anya. When he proposes they have a child together, Anya thinks his humor has taken a whack but Xavier goes on to convince her he is completely serious.

Charming story, I liked the build up for this one. Anya is perplexed by the sudden change in demeanor in

Xavier and the way he charms Anya is delightful. I liked that Anya was grounded and she seemed to have the same effect on Xavier. Very entertaining.

### **\*Dee's Reading Time Matters says**

This was hero, Xavier Leigh (Bastard Boss) and heroine, Anya's ( Bastard Bosses PA) story. Xavier was quickly turning forty years old soon and was discovering that none of the women he was dating were mothering material but his PA would be perfect in that role. Conscientious Anya had been working for Leigh for over four years and he secretly had a crush on her. One day Bastard boss bluntly tells her how attractive she was to him and said he wanted her to have his baby, marry him etc. Of course Anya is shocked because manwhore Xavier dated the models or" the beautiful ones" and she saw herself as plain in comparison to that type.

The story moves fast and it's so hot and sexy! Anya discovered that Xavier is so much more than the man she works for. He was a foster child who pulled himself from a question mark in society to ow a very rich, powerful and helpful businessman. And the things he didn't want people to know about him was what really got her attention.

As with the majority of this author's book, I really enjoyed the connection between the H and h and how they grew to become one!

#### **2.5 Stars**

Hot shot billionaire and man-whore (sorry.. hate that word but what else can you call him?) Xavier Leigh has decided he wants a baby. As all rich, successful and incredibly good-looking billionaires do, he decides his luscious little red-haired PA Anya will be the child's mother.

He then proceeds to ask her to mother his child.

This was kind of silly and mostly unlikely, but it's a story and I enjoyed the characters. Of course Anya says yes, despite having always hated being gossiped about as his PA, she very willingly enters into the baby making agreement and within weeks they're married, SPOILER AHEAD..

adopting a 10 year old son, spending weekends with her very supportive parents and seeing little stripes on a pregnancy test.

Were we really supposed to believe that when she started throwing up every day she had assumed she'd caught the flu? This woman is about to become a mother and she didn't realise the vomiting was most likely from the fact that she'd been filled to the brim with his spunk since the first time they'd had sex!?!

There were little nuggets like that above ^^ that made this one just okay for me. I very quick read, I'm glad it wasn't longer because I doubt I'd have made it through.

### **Melanie Malkoun says**

Absolutely amazing story. Xavier Leigh is known around the office as the bastard boss. He doesn't do love or romance, he loves sex, and it has to be hard and dirty.

Anya is his PA. She is the best PA he has ever had. He has always had a thing for her, but never acted on it. One day Xavier realises that he wants to settle down and become a father. He's made all these millions, and has no family to leave it to.

None of the women he frequently uses for sex are appropriate for the role of wife and mother. He needs someone wholesome and caring and loving. This is where Anya comes into the picture.

He offers her the position of wife and mother of his children. At first she's reluctant but then she agrees.

The book just gets hotter and hotter from that moment on. I don't want to spoil it for those who haven't read it yet. But I will say this. You will NOT be disappointed
