Someone in the monolithic, power-hungry Corporate Council doesn't want that story to get out...and they'll kill anyone to stop it, including Caleb and his family. David Adkins says

Great Space Opera!

Just long enough to have a great in-depth story. Action, romance, religion...well people.

The wars over. They're is lot of fractured "beings" on both sides. Plenty of hate to go around, for each other, and themselves. For the suffering they endured and caused in of a long war.

This is a story of the elite. The best at getting the job done. The job is killing and instilling fear in the enemy. What do these characters do when they aren't needed anymore? Killing is great in wartime, not so great in civilian life.

So they try to bury their demons their ghost.

Just when they have themselves almost fooled. That they're okay.

They're called back.

They're needed to kill again.

Do they want to?

Can they?

And if they do Will they be able to stop.

Will they want to?

I absolutely loved this series. So many easter eggs in here about other movies and books. Really good concepts and characters

Excellent adventure

Great space opera. Lots of twists and turns in this series. Character development was superb. Needs a little editing, but otherwise a great tale.

Shelly Singhal says

I really enjoyed this

This book explodes off the page and has great twists, compelling characters, good battle scenes and some cool technology ideas. It's hard to sustain that for 3 books, but this one works. Highly recommend.

Great story!

Excellent trilogy, very well written and easy to understand. It keeps you on the edge of your seat without being redundant.
