A sweet, mischievous and quirky collection of stories about cats (101 to be exact), but what would you expect from one of the best and most amazing animals on the planet (and if you don't agree, you most likely wouldn't buy the book, or bother to read my review)

My only issue with the book--and it isn't the fault of the book, but of the contributors--is how many of the stories are about outdoor cats and/or un-neutered cats. I absolutely adore cats, however, there are just too many in the world without enough homes--and too many humans that seem to take pleasure in torturing and/or killing them in horrific ways. Plus the additional dangers of natural predators, and cars and... the list could go on.

So, while I very much enjoyed reading the book, I only gave it a "like" because I wish there had been some disclaimer or something about the responsibilities of having your cat(s) neutered and the dangers that can befall your beloved pet in the outside world (as noted in several stories where their cat got out or were let out and never returned).

The Chicken Soup books also invite submissions of your own and give the information at the back of the book if you have a story of your own that you would like to share with the world, and get yourself published at the same time, if your story is accepted.

Grab a box of tissues folks! This Chicken Soup for the SOul book is full of tear jerking stories. I loved the one about the two cats who led their aging doggy friend home, the one about the cat who heard an electrical issue and saved the home from fire, and the match making cat who put paw prints on a car that led to a dinner invitation. Those were just a few of my personal favorites but they were all amazing.

The quality of these stories is so high. Any cat lover needs this on their shelves. I had never had a cat until about a year ago. Then I ended up getting two. A senior cat who is filling my life with cuddles and sweet sounds and a kitten (now a grown cat) who ended up being a great garden helper (he keeps away the birds, moles, and anything else). My point is these stories will touch young and old, new cat lovers or experienced cat owners alike.

Always gives me laughs and makes me appreciate the cats/people that I have in my life. And remembering the cats that have passed away.

Okay...I cried, I laughed, I got the "tinglies" while reading Chicken Soup for the Soul: The Cat Did What? by Amy Newmark. In my defense, just how could anyone not do so?

These are short stories and/or incidents about cat owners and non-owners that will make you think, why yes, so I'm not the only one that this has happened to! Although some stories are a bit heart breaking, keep on reading and let your heart fill with joy at the "craziness" of the "Cat Ladies." (and of course men and children too)

As the book says...One night at the dinner table my husband started to hiccup badly. Our son looked up in consternation. "Dad?" he asked. "Are you having a hairball?" Clearly, we're all a bit invested in our cats here. But please: keep the cat mugs and refrigerator magnets to yourself. Stop calling me a crazy old cat lady. Because I'm not Old. ~Liane Kupferberg Carter~

Really just a wonderful book. Of course I am a cat lover and feel compelled to say that. However I have read many cat related books some excellent some--not so good. Would definitely recommend.

First of all I have to say that I'm absolute cat lover. I've always enjoyed the Chicken Soup series, but this one takes the cake for me. The stories had me thinking of all the good times I had with my long-time cat, Hyde, now that all I have are the memories of her. But these stories also reminded me to enjoy every second with my new kitties, George and Hexler.

I would recommend this book to anyone, it's great for all ages! Giving this book a 5 out of 5 stars, keep up the great work!!

On my last holiday, I spotted this as well as the dog version in one of my favorite Dymocks, at the Rundle Mall. Urgh! I had spent quite a bit of money already, and had plans to visit IKEA for a new daybed, but I stretched the budget a little too far and ended up buying both, as well as a swag more books. It ended up being well worth the money, as I loved every second of this book!

Of course, anyone who follows my reviews knows I'm a cat lover specifically, as well as a general animal lover. I think most of my friends have me blocked on facebook because of my constant animal posts! It was delightful to share in the stories of others, who love their cats as much as I do. I will eventually move onto the dog version, but I had to read this one first, since the cats are closer to my heart. Shhh, don't tell the dogs sleeping so peacefully next to me on the lounge as I write this!

Basically the book is divided up into sections, and sometimes there is a reoccurring cat or author involved depending on the subject. Some of the stories are emotional, and yes, sometimes the cat involved dies. I add that because I know some people can't face stories where an animal passes. I feel you, I've only watched 'I am legend' once because of the end ;\_;

All the stories are wonderfully written with just enough emotion and gravity to keep you reading on. Because they are short stories, you can either read them in one gulp or over a period of time too! Definitely five stars, keep watch for my dog review soon.

Cute and heartwarming tales of cats and their interactions with their owners. This book, like all the Chicken Soup books, contains a variety of short stories. Each of the stories contains a story about cats. To a person who is owned by a cat, none of these stories will surprise you. You will most likely find yourself nodding your head in agreement and saying "That brings back memories."

Not a review. Contains my stories "All About the Balloon" and "Welcome to the Navy."
