## Jeff Birk says

When Bruce R. McConkie calls Joseph Fielding Smith the greatest gospel scholar of his generation, it gets my attention. I've always heard that JFS was amazing in his knowledge and understanding of the gospel and I'm glad to have read this first of a three volume work (planning on reading the other two for sure). I took many notes in Evernote which may serve well for future talks and lessons. JFS reads very much like McConkie: pure and straight forward doctrine, no candy coating yet done in a posture of teaching with love and with the spirit. It's always necessary to brush up on gospel doctrine (at least it is for me) and this book served that purpose wonderfully well. It's so good to read a book and feel its truth. "Truth tastes good" as Joseph Fielding McConkie said.

Joseph Fielding Smith is easy to read and the doctrines presented are interesting. Among many topics he discusses the character and attributes of God, the Holy Ghost, our first and second estates, the earth, Michael, Adam and the Fall, the atonement

## Daniel Rose says

This book had some great insight into the doctrines & principles of the Church of Jesus Christ of Latter Day Saints from the point of view of an Apostle who latter became president of the Church. This book had a lot of great insight into some other aspects of the gospel that might be unknown even to members of the Church of Jesus Christ of Latter day saints.
