Book four in the Luexcross Wolves Series

What is Ophelia to do when she comes into her mating heat and is irresistible to every male in her pack?

Ophelia realises she has just come into her mating heat and that she will not be able to resist the arousal that it causes. Being irresistible to every male in her tribe would be any girls dream come true, but when the two men she lusts after the most don't show an interest, Ophelia must decide if she can let her inhibitions go with the other males.

When Chase and Xavier offer to ease Ophelia's fierce arousal, she knows that although she may not be their mate, she can't pass up their offer. She spends a pleasure filled night with the men she has always dreamed about, but when Chase and Xavier announce they have found their mate, Ophelia knows she shouldn't have let her fantasy of being with them cloud reality.

Ophelia must now decide if she can finally let Chase and Xavier go and start her life with another male, or if the temptation to be with them again is too much to resist.

Reader Advisory: This is the fourth book in the Luexcross Wolf series, but can be read out of order. This book contains a scene of anal penetration and double penetration.

Straight up PNE - paranormal erotica. I guess you could say there's romance, since technically they're all in love, but this is primarily focused on Ophelia getting her mating heat and being ready to rut with anybody who comes along. She ultimately agrees to Chase and Xavier, whom she's loved all her life. They fuck her brains out and take off, leaving her confused and heartbroken. Then she hears they've found their mate. Yes, it's her - but she doesn't know that yet.

So I have to wonder at these guys. They up and leave their mate in the middle of her mating heat (which is supposedly so arousingly painful) and go off to prepare their house for her. Meanwhile, she's writhing in lust and damn near ready to accept anybody else. And these two also lack communication because she has no idea...nor does anybody else since there are still wolves hanging out on her front porch ready to take advantage of her heat. And where was all this protectiveness for a mate? She's all alone, her house surrounded by horny wolves and these big bad dominant werewolves are playing house? Yeah. As sexy as this was, there was just so many contrived circumstances and truly WTF moments.

What a good story. I just finished it tonight and can't wait for the next one. Lots of alpha males in this story and a lot of HOTNESS!!

Ophelia has always had the hots for Chase and Xavier but they've never notice her till she comes into heat and after been cooped in cabin she try's to take a walk where she bums into Chase and Xavier her mates. They spend amazing day together but then her mates tell her they need to sort out some things without much explanation. They don't speak to Ophelia so she makes a date with another young wolf then hears from a friend that Chase and Xavier have met their mate and preparing their house but not told anyone who it is. After her friendly dinner with Another wolf Chase and Xavier corner her and they then try and convince her that they love her and are mates which leads to some very hot scenes.
Great story HEA.

This fourth book of the series definitely lives up to the hot, sexual intensity of the prior stories. Ophelia is sweet and adorable and truly suffering during her mating heat. Xavier and Chase are sexy as all hell and more than willing to help a girl out.

These three discover more than just sex though and that's the fun part to watch.
