Pack Mistress # 5 Evelyn Lafont

All werewolf packs need a sexual outlet. For south Florida's Red Wolf pack, the sexy werewolf Lorena is it.

Not your average Were, Lorena satisfies the males like no other wolf can. But as much as she enjoys her role as pack mistress, she longs for something she's never had. A mate she can call her own...

The Pack Mistress is a serialized novel with each 'book' consisting of a 20 to 25-page continuation of the story. One installment will be released every other month during 2012.

I enjoyed this, my only complaint is once again it ends too quickly and on a real cliffhanger! Lorena is learning more then she bargained for but at least R.W is on her side and she finally gets to meet the previous pack mistress though we got as far as them greeting each other and have to wait til the next installment to see how the meeting goes and what Lorena learns from her predecessor. She's also talking back to Jack and taking a stand which I like and she's discovered a little something about the alpha's wife that I don't think she's realised yet could be significant and something she could use!
