Sapphire A Werewolf Love Story

Devyn Dawson

Sapphire A Werewolf Love Story Devyn Dawson

Sapphire didn't want to go out, but after some coaxing from her sister, she agreed to go. It was that night, and the days to come that would awaken her sexual desire and her heart.

Parker had never had a girl hold his gaze... most everyone wouldn't dare challenge him that way. She wasn't one of his kind though, she was human and against the rules. He knew her spirit was calling out to his wolf. His wolf was more than ready to answer that call. She was the one... he would kill for her, he would die for her, but would he disobey his alpha for her?

This book is about two adult characters in The Legacy of Kilkenny YA series.

17+ Due to Sexual Situations and Explicit language this book is recommended for adults 17 and over. Adult Contemporary - New Adult Fiction

Amy Barber says

This is not usually a genre I choose, but I won this book and was very impressed. The story had me completely sucked in and I didn't want it to end! The characters and their reactions to the situations were relatable. It was mystery and romance rolled in to one great story.

Farzana rahmann says

A hot romantic short live story.

Kristy says

3.5 stars

Sapphire meets a hot guy at a soccer game and feels an instant connection to him. After a steamy weekend Parker leaves and contrary to his promises, he never contacts her again. That is until their paths cross years later.

I enjoyed this book. It had loads of potential, but didn't quite live up to it. There were many issues with tense. First person, present tense is difficult to write in, and add to that changes in POV and jumps back and forward in time, and it resulted in a bit of confusion.

I felt there were many aspects of the story that either needed to be expanded, or left out all together -- the small mention of kink in the bedroom, and Sapphire's Karate just seemed irrelevant. I would have preferred to have had more insight into Sapphire and Parker's minds, and Sapphire's amazingly calm acceptance of her life changes, rather than unimportant and redundant information.

I did like the characters and I'd like to read more about them. What's not to love about Parker? Well, aside from his choice of vehicle!

Tressa Messenger says

This is a spin off of a series I liked that the author has written previously and I was so excited about it. True to form Devyn Dawson did not disappoint!

Kathy Harrington says

I liked the book but wish it had more sex

Heather Badgwell says

When Sapphire met Parker at a high school soccer game, she had no idea the impact this man would have on her life. After a long weekend alone, Parker leaves and doesn't contact Sapphire again. What he doesn't know, is that fate will bring them back together in unexpected ways! This book is GREAT! I found myself getting lost in the story. Wondering how things were going to work out.

Anima says

The author gave me a copy of this book for an honest review.

I've only read a few paranormal stories about werewolves and wasn't really impressed. This story caught my interest before the first chapter was over. Turns out it is the story of Parker (beta wolf) and Sapphire, but they are from an ongoing series. Needless to say I got the other 3 books and plan on diving in soon. Parker's wolf is immediately drawn to Sapphire and they have this instant animalistic need to be together, but he won't turn her. Years have passed since those few nights together and something has happened that changes them forever. I finished in 2 evenings, quick and sexy. Enjoy!

Kailee Bowman says

I absolutely LOVE this book. I have read a few other werewolf books, and they were not that interesting, I could guess what was going to happen before I even got to it, but not this one. It kept me intrigued, and wanting to keep reading.

I love the style of writing Devyn uses in this book, going back and forth between Parker and Sapphire, it gets you to see both sides of the characters, which I absolutely love.

If you love werewolf book, or any paranormal book, you should definitely read this one.

Paige says

Maybe if I had known that this was a novella to another series, I would not have read it. Setting that aside, the story was bad even for a side novella. The story was choppy and the writing style confusing. The problem was not even that I did not understand the world, it was that the story jumped around and character motivations were lost in the "oh, people who read the series will know" tide. It seems like this is a writer who does not like to write. The story could have been better if more was expounded upon. Oh, well. I did not like it and returned it.

Amy Pro says

This was a good book! A stubborn, hard headed and ornery werewolf and an even more stubborn human. He wants her so badly but refuses her the one thing that will make them complete. He takes care of an old problem and then walks away. Years later and with a big surprise, that problem comes back to haunt them both and also is what finally brings them together and gives them both what they want and need from each other. Short read, but completely full of the good stuff and I couldn't put it down until I was finished!!!

Jenny Miller says

LOVED it! Filled in the gaps & gave both main characters great personalities. Wasn't expecting so much of the back story, but really glad she wrote it this way. Made for a quick read but I couldn't put it down. Can't wait for the next book.

Devyn Dawson says

This book was inspired by the fans of Malevolence. When I started getting emails wanting to know the back-story of Parker and Sapphire, I knew this story had to be told. You'll hear more about Parker and Sapphire in The Great Wolf. I hope you enjoyed the book.

Andrea Heltsley says

I'm a huge fan of werewolf books. This one did not dissapoint. I loved the story as well as Devyn's style of writing. I was hooked from page one and stayed up all night reading it. Talk about a book hangover :)

Sapphire was a beautifully written character and I loved her family dynamic as well. She had such a great relationship with her sister Ruby. Parker was a decent character, but not as likeable as Sapphire. I know it was written this way, but god, I hated Tatiana!!!

I'm a sucker for a good love story and this one didn't disappoint. True mates are the most awesome part of being a werewolf. I'm just saying. There was just the right blend of steamy and romantic in this book.

Overall, I loved this story and give it five glittery stars for it's awesomeness. The story was great and Devyn did such a good job writing it.

Daisy says

Sapphire was an amazing story. I absolutely loved it!

Heather says

Devyn Dawson weaves a tale of just what might happen if Twilight met up with 50 Shades of Grey and the two indulged in a few Jack & Cokes.... Sapphire, A Werewolf Love Story was born.

Sapphire, A Werewolf Love Story is a steamy romance mixed with mystery, suspense, pain, and paranormal twists and turns.
