Steven Sam Crescent

He'll do anything—kill anyone—to protect her.

Steven was used to women falling at his feet. But where once he would have relished to see a woman there, any woman, nearly losing Sally in an attack on the club woke him up. Now he can't imagine life without her. The biggest problem is she's Whizz's adopted daughter—but there's also an age gap between them. Everyone sees her as part of The Skulls' "kids", even though she's in college, and old enough to make her own decisions.

When Sally's best friend, Drew, makes his intentions known, she knows there's no competition. She's always loved Steven, starting from her girlish crush at fifteen, now to full-blown love as a woman.

Neither Sally nor Steven can deny their attraction. It's there, always close to the surface, and Steven can't take not having her. But can Drew prove that he's the one for Sally? Can she bring herself to break Drew's heart? And what will Sally do when she realizes her past is coming back to haunt her, and that it was Steven who opened the door?

3.5, wasn't my favorite of the series, but still a good read. I trouble with the characters and the plot that went along with it. I couldn't find the connection with the characters. They felt like I was missing something, but I still can't put my finger on what. The plot was good, but I again felt like it was missing something. Parts of the book felt forced.

It's seems like I was waiting for Steven and Sally story forever. It didn't disappointed. Another good addition to the series, I love so much.

I love Steven. I love every hero who is ready to forsake anything, even the club, to be with his girl, to make her happy. He was patient, loyal, protective. But despite that Steven was amazing with Sally, he did get himself in the doghouse for a while. You know what is saying about good intentions. On the other hand, you may think that Sally overreacted over all the circumstances. Though, it wasn't exactly how I saw. I don't think it was a biggy that Steven wanted to slay her monsters from the past. Actually, on the contrary. And on this she overreacted. But for him to let her go without a hint of warning to have questions thrown at her about her past, that was a fuck up. Being a couple is about having each other's back, not letting to be blindsided. Lucky for both of them everything got resolved. Though, I didn't liked how she felt, when Sally had time to think about what happened and she started to think that she overreacted... I disliked how she compared herself to hers abusers. She was far from it. How she could even think about it, that just boggled my mind and made me angry. Good thing Steven took care of her thinking like that. I'm going to repeat myself. God, Steven was awesome.

In previous books I didn't think much of Drew. I didn't liked him, didn't disliked him. He was just someone that need to ruffle Stevens feathers, where Sally was concerned. But in this book I fell for Drew. OMG That guy is everything! I hope Drew will get his book. He so need HEA. And if Sam can't find a girl for him, I'm offering myself on the silver platter. LOL.

New directions

While his book was mainly about Steven and Sally falling in love, the background storyline drove the book. I enjoyed how you could see the transformation of the club. It was nice to see the progression of all the characters for the most part.

I would love to see how the Skull kids and Chaos Bleeds kid grow up.

Steven and Sally *sigh* If you area fan of Sam Crescent, you have been waiting for this !! And she never disappoints !! Bringing the club together and catching up with everyone was like visiting family. If you're new to Sam, this series is much more fun from the beginning , Lash. Add in the Chaos Bleeds MC and you have some fantastic MUST reads ??

I Voluntarily reviewed a copy of this book

I think everyone that has started this journey with The Skulls have been waiting for Steven and Sally. And I don't think we were disappointed.

Steven knew that he wasn't good enough for Sally. But who would take care of her, protect her and look after all her needs better than him. Not even her best friend Drew who he knew was in love with her. (Even though she couldn't see it)

And this was proven again when Sally's past came back not in the way you would think, but drudging up all the hurt and emotions from back then. How will she react when she finds out that Steven has looked into her

past and in his protective way is trying to right all the wrongs.

But not just her past is standing in the way, can Sally seem to let go of her insecurities and just be happy or will everything just be too much for her.

Loved this story, loved Steven even more after reading this story and a bit sad that this is the end of The Skulls, but also the beginning of a new era and can't wait to see what will happen when Simon and Tabitha finally get together!!!

2.5

I didn't care for this one as much as I wanted to. It's not necessarily the age cap but that she was young at the time the crush began. I actually thought in a few of the previous books it was a bigger cap then 9-10 years in age but I could be wrong. I remember him being with club girls while Sally had a crush on him. I'm assuming it all stopped once he started seeing her as a woman but I didn't like that. If he even thought Sally had a crush on him (even though she denied it) be discreet and don't hook up or flirt with the club whores when she's around. Didn't like the sneaking around behind Whizz's back. Lacey's story still breaks my heart. I sure hope poor Drew gets an HEA.

Victoria says

finally!! wow, I can't believe how much time has passed that the kids are 12 yrs old and the ending ... with most of them in high school!

Does this mean the next book will be about the next generation??? I hope Drew will have his own book too. Can't wait to see who's next???

Angeline Sambrano says

Totally outstanding

I absolutely loved Steven and Sally's story it was heartwrenching and hard to read at times but Sally overcomes her past through the love of her parents Whizz and Lacie then her long time crush Steven plus her best friend Drew but most of all the love and support from her Skulls family!!! I absolutely love this series and I can't wait for the Skulls kids to get their own stories!!!

I liked reading Steven & Sally's story. After all they've been through (especially Sally), they truly deserved this happily ever after!

Steven... You remaining celibate for YEARS before getting with Sally... *le sigh* I love how you took things slow with Sally but still remained a constant fixture in her life.

Sally... I admire how you dealt with all the hardships in your life & loved how straight-up you were with Drew, in telling him you were only interested in friendship with him.

I also really liked getting more Angel/Lash time! And learning those intriguing facts about Adam... *fans herself*

Not super interested in the Michael Granito dealings... I imagine they'll continue with it throughout the next books somehow but I'll cross my fingers that it won't be a prominent storyline.

Looking forward to more of the kids' books in the future! Daisy/Anthony & Simon/Tabitha are going to be a lot of fun!!

Carol says

Steven has been in love with Sally since she was a teenager. He stayed away as much as he could until she was grown and of legal age. Now he is staking his claim, but he has to contend with her best friend Drew who is also in love with her.

Sally has wanted Steven since the moment she met him. She has grown up in foster care and has been sexually abused in every home that she was placed in. Now that Whizz and Lacey have adopted her she finally has a home where she feels safe. In a previous book you find out that she was shot and lost her leg. She has had so many tragedies happen to her but she finally feels like things have turned around for her. When her past comes back in a way she didn't expect she is hurt and lashes out at the ones who have done everything they could to protect her. Will their betrayal push her to far?

Always a great read when you pick up one of the Skull books and pretty much any thing this author writes.

Beyond Amazing

Words cannot describe how freaking awesome this series is!!

I laughed, I got angry, I cried, and loved all thanks to Sam Crescent!

Sally and Steven's story was so heart wrenching and gut clenching good... I hated having to stop reading because of my need for sleep lol

The way Sam told Steven and Sally's story makes you realize the club has matured and is moving on and accepting the new things coming their way!

I can't wait for the next Skull Book... Sam Crescent you have taken a piece of my heart with Steven's book and I have no problem letting you keep it.
