## **The Dusky Hour** E.R. Punshon

The hour of dusk was the climax in the strange case of the man found dead in the chalk pit. Who was the murdered man? And why did so many clues lead to that infamous London nightclub, the 'Cut and Come Again'?

E.R. Punshon leads the redoubtable Sergeant Bobby Owen and his readers on a dizzy chase through a maze of suspicions to a surprise ending – though the clues are there for anyone astute enough to interpret them.

It was nice to get back to the Bobby Owen series after a few weeks of being ill. Punshon's writing does cheer me up. Bobby is on loan from Scotland Yard to help out on possible financial crimes when a murder is discovered. An unknown man is found dead in a crashed car. It's not an accident though, as the poor man was shot as well! As Bobby assists in the investigation, he is faced with a superior who is close friends with the Moffat family, all of whom could be suspects and, of course, he has to walk on egg shells to stay on the good side of his superior while still trying to discover the truth.

This one was a particular puzzler as just about everyone seemed guilty of the brutal murder of the mysterious Mr. Bennett and ends with fighting, gunshots, and confessions. Another enjoyable Bobby Owen book.

Two and a half stars.

My least favourite Bobby Owen story so far. Although it rattles along quite nicely, the plot is really very complicated and even the explanation by Bobby at the end is confusing. Still no sign of Superintendent Mitchell or any other Scotland Yard officers as Bobby was seconded to The Shires again.
