Ann says

It was a very good book because it was very mysterious. There is a lost princess named Lane. She ran away because she just wanted to have fun. Her parents knew that she just wanted to have a vacation so they let her go because she has a body guard with her. She goes on adventure filled with ups and downs and it ends happily ever after. At the Hollywood studio something different is happening. Their Director is kicking one of her greatest employees out because she lost one of the films that took 17 filming to make 1 scene.

When the five "Thea Sisters" get a package from their friend Jenna in the mail at their boarding school, they decide to take Jenna up on her invitation and jet to Hollywood. Once there, they get to see many famous sites and go roller skating as well. Since Jenna's sister Terri is working on the set of a film starring the dashing Johnny Ratt, the girls decide to tag along and see the film being made. Mysteries start popping up-- Princess Lane has gone missing, and the girls think they see her in one of the photos taken of the set, and one of the film reels has gone missing, which would put the film even further behind schedule. The Thea Sisters start investigating, and the reader is encouraged to help them. Pages with a magnifying glass recap the clues and

help the reader with the investigation. Eventually, the girls find Lane, and realize that her mystery is entwined with several others.

There are many different series within the Geronimo Stilton franchise, and this subset seems aimed at readers who are intrigued by celebrity stories and fashion. The Thea Sisters have a little more friend drama occurring, and fewer goofy, humorous incidents involving gross things. The story moves quickly, and the characters are not well developed, so it helps that each of the girls has a particular interest (violin, sports, cooking, etc.).

The real draw of these books is the use of color and engaging fonts on each page, along with the full color illustrations. Everything turns out well in the end, and the Thea Sisters claim Lane as one of their own, telling her that "true friends are forever".

Readers who have outgrown Babymouse and want a series with a lot of books will do well to check out this branch of the Geronimo Stilton series.
