Wagering On Wendy

Tara Crescent

Wagering On Wendy Tara Crescent

Alternate cover edition of ASIN B01MUBRCZH

A steamy ménage. A secret baby.

A full-length, standalone romance with an HEA ending and no cliffhangers.

Hudson:

I'm not looking for anything serious.

My ex-wife was a gold-digger who pretended to be knocked up so I'd be forced to marry her.

I've learned my lesson.

You want panty-melting, toe-curling sex? I'm your man.

But I'm not available for anything else.

I don't do commitment. I don't do relationships.

Then I met Wendy.

Wendy:

My life is falling apart.

I've been fired from my job. My new stepbrother has promised to ruin me. The only people on my side are Hudson and Asher.

I shouldn't have given in to temptation. I shouldn't have slept with them.

One night, they said. No promises. Just pleasure.

But the condom failed.

What am I supposed to do now?

Asher:

I hate her father. I want to destroy her stepbrother.

I should stay away from Wendy, *but I can't*. I think about her all the time.

But my past comes back to haunt me and Wendy's life is placed in danger.

We have to protect her. She belongs to us.

Then we find out she's pregnant.

Note: Wagering on Wendy is a full-length MFM ménage romance that is all about the woman. No cliffhangers.

From Reader Review Wagering On Wendy for online ebook

Crystal says

I read the blurb on this book and just had to find out how it would end. It sounded like a book that I wouldn't be able to put down and I was right.

Wendy is a workaholic and doesn't trust men. Just because of what her father did to her mother. She is also a divorce attorney and she see's relationships going bad everyday. So imagine her surprise when she meets Asher and Hudson. They are both not wanting a relationship. They've all been there and have the scars to prove it.

I had to see how these three would make their relationship work. There were times that Asher made me a little mad and I couldn't believe that these two could put Wendy through what they did. Doesn't matter what excuse they used.

I will warn you that this is a M/F/M book and the sex is really hot between all three. I have to say that I loved the ending and I can't wait to read more by this author.

I received a copy of this book in place of an honest review.

Saskia says

Book 4 in the Playing for Love series, but it can be read as a standalone.

I enjoyed this book. Wendy was a character that was easy to connect with and i loved how she stood up for herself and doing was is right.

Hudson and Asher aren't perfect. They make mistakes, but that is what makes them human and interesting. There were very supportive of protective.

I loved how each chapter started with a quote that fitted the mood of the chapter very well. I love details like this.

Nancy says

This is a great book in a great series. I love it. I recommend reading them in order even though they can be read alone.

Rhianna says

I bought this book because of all the 4 and 5 star reviews not just on goodread but Kindle as well. The book as a whole was good, but not oh my goodness best book I've read all year. As far as the menage goes I've definitely read better over the years, the sex sex scenes are basically PG-13. I like a little more action especially if you're reading a book about a menage, details are good. Around chapter 27 I just started to skimming the pages and really did not miss much over all. Asher and Hudson are OK, and I really like Wendy's sassy attitude take no BS off anyone.

Julie says

Yet another good one

This one had alot more drama than the rest of the series, but it added to the complexity of the story, Hudson and Asher were knights in shining armour (not literally) Wendy was a lucky girl.

Kerry says

This is the first of the Playing For Love Series that i have read and although it is book four, it can certainly be read as a standalone....but be warned it's going to make you want to go back and read the previous three as I am sure some of the characters that pop up have had their own stories that I am dying now to catch up on!

Tara has written a great ménage story in this book. A hard woman with two sexy men who together just simply work in an immense story that has highs and lows, intrigue and drama, suspense and tension. Wendy is a beautifully written character and Asher and Hudson are sexy hot men who are able to support Wendy when she needs it most. A gorgeous story that is of course sexy and steamy but also has depth and a brilliant emotional story that threads between that a lot of authors miss writing the steamy ménage scenes. Tara has managed to do both and I love this. I can't wait to read more from her.....and another tip, be aware that once you start this book, you won't put it down until it is finished!

I voluntarily reviewed an advanced reading copy of this book.

Jessica Hogan says

Keeps getting hotter!

Over read very book in this series and I'm a huge fan of each. The newest book does not disappoint. Yes the bedroom scenes are hot so hot. The men are rich, hot, and know how to treat their women. The women are smart, strong, and brave. If you don't like hot, rich men giving a women their sole devotion then this book is not for you. However if you do like fantasy, insta love, alpha men, and hot love scene s then I highly recommend this series to you.

MacKenzie Paxton says

I have a dilemma: I really enjoy reading ménage romances...but I struggle with incessant drama! The two do tend to go hand-in-hand, especially if your triad wants to have a real-world relationship. But, man!

The drama was high but the pages were scorching. Some of the drama was fairly contrived and I rolled my eyes a bit, but it was a good, fun read and I enjoyed it!

Estella says

I was asked by the author for an honest review!

So Tara Crescent does it again! I am so in love with this series! With that said Wagering on Wendy did not let me down. Wendy is a divorce lawyer who has worked hard for everything she has. When she meets Hudson and Asher she starts to think about what it would be like to be with 2 men, especially since her best friends are all in menage' relationships.

When Wendy is summoned to the reading of the will of the man who paid her mom off and never looked back. She has no idea the can of worms this will unleash in her life. I won't share anymore but you really should read this book to see what happens!

I look forward to reading more by Tara Crescent! I recommend everyone do themselves a favor and read her books!

june says

I enjoyed how each of the friends ,met up with their 2 male friends. I finished book 4, about Wendy, and saw was a book 5, about Miki,but didnt download, or was available, even though ,it said was available spring 2017. Love to read that one ,also,if it is available.Loved the friends, meeting with these handsome guys, falling in love. Sexy , hot, adventurous,. Stories pull u right in, thinking you are the character.

Renee says

I received a copy of this book in exchange for an honest review.

Wagering On Wendy is the fourth book in Tara Crescent's Playing For Love Series. Each book can be read as a standalone.

Hudson doesn't do relationships because his ex wife was a gold digger who pretended to be pregnant. She only wanted to trap him for his money, Wendy has the perfect life but it's all falling apart. Fired from her job that she loves, a stepbrother whose promised to ruin her, and one night of passion with two men has left her wanting more and pregnant. Asher, feel in love with his client and it nearly destroyed him. Now he and Hudson have met Wendy. He hates her father, wants to destroy her stepbrother, but can't stop thinking about

her. When the past comes back to haunt Asher, Wendy's life is in danger. He and Hudson have to protect her at all cost.

This is the third book that I have read in this series of menage love stories. This series revolves around a set of girlfriends but each book is about a different couple. Wendy is a strong independent woman who does not trust men thanks to the father she never knew. Then she meets Asher and Hudson and all bets are off. They share women which is a little unconventional to Wendy but oh so appealing. A surprise pregnancy later and it makes for one amazing story. I loved that Wendy was not a damsel in distress or the poor girl who meets the billionaires. Each one of them has a successful career and lead good lives. They are not without their individual problems but together they can conquer the world. I love how Tara Crescent has this way of pulling me into a story and keeps me so engrossed until the very end,

If your a fan of menage romances your going to love Wagering On Wendy. I know I loved every single second. I've also read Betting on Bailey and Playing for Piper and loved them just as much. Don't miss this series or your missing out on some amazing stories that will keep you wanting more.

Tami czenkus says

I am in love with Playing for Love series...

I was really excited for Wendy's story and I was NOT disappointed in what I read!! These stories have a little for everyone and I will be sad to see this series end!!

Great book , Great steamy scenes, Full of angst.

Karin says

This isn't my first book by Tara Crescent but, my first in this series. Even though this is a stand alone and didn't need anything extra to follow I will go back and read the previous 3 books since they follow a lot of the same people.

Wendy is a divorce lawyer who unexpectedly meets two very alpha, very dominant men (Hudson and Asher) during a incident in a club. She spots them again several days later again completely unexpectedly and she unwillingly becomes a target. When Wendy learns she's been mentioned in a will by her father she's genuinely shocked even more shocked when she learns the details of the will and becomes enemy number to her stepbrother.

There's quite a bit of twists and turns in this book and a lot of heat!!! This is probably my favorite book by Tara Crescent so far.

Even though this is a MFM book, she is the only focus.

I voluntarily reviewed a ARC of this book

Kimberly / Love Notes Book Blog says

3.5 stars. Cute, sexy, enjoyable, a little angsty, unexpected baby MFM menage. This was Wendy, Asher, and Hudson's story. It was an easy read that kept my focus, even if it was lacking something to make it extra special. Still, I enjoyed it and will read more of this series in the future.

Maria Almeida says

Wonderful

You did it again wonderful amazing great awesome can't get enough loved it ready for Nikki now just the best series
