Initiation

Maris Black

Initiation Maris Black

Latino linebacker Emilio Madero has a huge crush on the new backup quarterback. He's perfection in motion with his lean, muscled body and rich boy good looks. But there's no way in hell Emilio is going to do anything about it. He'll just have to be content with fantasizing about the guy of his dreams and watching him from afar, because hitting on another player is out of the question.

That is, until Andrew turns the tables and makes the first move. Then all bets are off as the two of them drift into uncharted territory.

Charmaine Stephens says

This was certainly a hot one! More smutty than telling a story but still it was a fun sexy read. Only thing I didn't particularly like is how Emilio always kept putting himself down because of his race & his past. It bugged me. But in the end I think he wised up.

Gerri says

hot stuff. I'm seriously loving this author. I can't wait for the next ssu book!

3.5 Sweet Stars

Gosh, this was a wee bit to short and unfinished ^_^ but, I still liked it. And, I want more of these guys and this writer.

This little booklet, and what I adored.

I love the sweet couple embedded in these pages. The initiation storyline(to be expected, no points off for the crackers up butt, gross but it could have been worse) an all around easy read. I like it...♥?

Bev says

3.5 rounded up. One cheeky Latino character who is feeling sorry for himself, one virginal All-American boy who wants said hot Latino to be 'the one' and a bunch of homophobic players who insist on stupid frat-type initiations. I could've done without them.

Pati says

Well, I sure hope that the other 3 books that I already bought aren't incomplete like this one is. Wish I would have known that this ends at 57%.... And takes place over two days?! That's not a book, it's a couple of freakin' chapters!

Moonlite_Reader says

Man seriously?!? Why can't it ever just be the two Damn men. Why is there always a third fckin party ??? I was loving it until then. Then I had no interest what so ever. I really hope the third book doesn't disappoint since the wait feels like forever.

Nick says

Incredibly racist. I am not Hispanic, but I was incredibly offended. The whole thing is based on negative stereotypes of hispanic people, awful.

Edit:

So this story was basically about the MC feeling down about himself because he's hispanic, and apparently that is inherently bad? It was a little white boy hero for me, like the MC was stepping up the social ladder, or better in some way because a white boy was interested in him, but of course the MC doesn't feel like he deserves the white boy, because white people are apparently inherently better than non-white people.

I was not feeling this at all, as a woman of colour I was down right offended. I almost crossed this author completely off my list, but the Kage series was decent, and non-racist.

Love Bytes Reviews says

4.5 star review by Dan

I really enjoyed this short novella set in the author's SSU Boys series. In this installment we are introduced to Emilio, the narrator of the story. Emilio is a sophomore at SSU and is a linebacker on the school's football team.

The story starts at the initiation of the freshmen football players. Initiation being a nice name for hazing. While the hazing is occurring, Emilio make eye contact with a freshman who isn't getting hazed. That freshman, Andrew is checking out Emilio's crotch! One thing leads to another, we have a quick interrupted attempt at sex, then Andrew takes Emilio home to meet his mother, who it seems already knows all about him.

The rest of the story is set the next day when the team goes off to another town for their first overnight football away game. For such a short story, I felt I really got to know the characters and I really want to know what happens to them down the road after this story ends!

I recommend this novella. I've gotten it on good authority that this teaser will be expanded in the near future and we will hear more from Emilio and Andrew! This novella is a standalone and can be read on it's own, but I highly recommend you read all the books in the series!

A copy of this book was provided in exchange for an honest review. Please visit www.lovebytesreviews.com to see this and many more reviews, author interviews, guestposts and giveaways!

Morgan Skye says

So this is a bit sized love story that is pretty angst-ridden.

Emilio has a crush on Andrew but fears he's out-classed by the all American freshman. Not to mention that he can't just be gay with a guy on the team.

The night the two get together is a truly awful event of hazing and then furtive sex between a jaded "player" and a golden-hearted virgin. Andrew has a lot to teach Emilio about love – the kind you do with your heart.

The smexy times are super hot between these two and in a short number of pages you get the idea that they just might have a chance at something – it's definitely something that keeps you interested in the series.

But... be warned it is hard to read at times, there is a lot of pain in this story, but a lot of feels too. And a HFN, no HEA – not yet.

Audio

Chris Patton is amazing. I really have become quite a fan of his. I've enjoyed every one of his narrations and though he doesn't do anything "over the top", he is really good at handling emotions and making you part of the story. It definitely adds to the overall experience.

4.25 of 5 stars

Denise H. says

This one hour read is packed full of hot sex and emotions. Emilio and Andrew are explosive. Super hot M/M sexiness and a tale that is full of awakening and desire. Maris Black lets us know these characters in quick order, and we can feel the connection. College football, right of initiation, and a hesitant Latino Emilio being confronted by Andrew, who gives them each what they want and need. ENJOY !!!

Amy says

A great start to 2017! This was a pretty good book. A bit rushed since it was less than 100 pages. I can already tell I'm not going to *love* this series like I loved KAGE, but I still plan to continue with the audiobooks. It appears that each book is about a different couple and a different sport. The next one is about wrestlers. Woo hoo!

Don Bradshaw says

Sexy introduction to the SSU Boys series. I enjoyed both Andrew and Emilio and the struggles that they went through. Both young men have a lot to overcome though who really knows how many truly straight

guys are on the football team.

Elaine says

Maris Black is a detailed writer! She holds you and you do not want to put the Kindle down, no matter if it is a short read. thought wrestling OMG and now Football! She has a way with her writing that makes you believe you are part of the story, sitting there watching it unfold. I have read Maris other 2 books Pinned and Owing Corey! These SSU BOYS you will put your butt in a chair and not want to move!!! Matter of fact I am proudly wearing a SSU BOYS shirt, that shows I do support her books. I am fairly new to the MM reading world, but OMG this is a great way to start!! So if I were you start with Pinned and work your way towards Initiation! Those SSU BOYS will make you WANT MORE ;-)

Trio says

Okay that was super cute and hot as hell... great characters! **smirks** I did the audio version, which was narrated by Chris Patton, so the MC sounded just like Adrien and he had *such* a dirty mouth.

Victoria love books says

DNF Disgusting stars

I DNF this book it was disgusting!!!

I have an open mind to a lot of things but this was degrading and utterly disgusting.

Being whipped and licked by 9 other boys and running with crackers between your but and if it falls out you must eat it and watching gay porn and jacking of otherwise being pissed on, no thank you - not my cup of anything
